

A man in a dark suit and glasses stands in profile, looking at a large, blank, off-white canvas that dominates the center of the frame. The canvas is hung in a workshop or studio with wooden walls and a wooden floor. A wooden ladder is visible on the right side of the canvas. The lighting is warm and slightly dim, creating a contemplative atmosphere.

The Truth Is Always Grey Frances Guerin,2018-01-30 Changing how we look at and think about the color grey Why did many of the twentieth century s best known abstract painters often choose grey frequently considered a noncolor and devoid of meaning Frances Guerin argues that painters including Jasper Johns Cy Twombly Agnes Martin Brice Marden Mark Rothko and Gerhard Richter select grey to respond to a key question of modernist art What is painting By analyzing an array of modernist paintings Guerin demonstrates that grey has a unique history and a legitimate identity as a color She traces its use by painters as far back as medieval and Renaissance art through Romanticism to nineteenth and twentieth century modernism to show how grey is the perfect color to address the questions asked by painting within art history and to articulate the relationship between painting and the historical world of industrial modernity A work of

exceptional erudition breadth and clarity presenting an impressive range of canonical paintings across centuries as examples The Truth Is Always Grey is a treatise on color that allows us to see something entirely new in familiar paintings and encourages our appreciation for the innovation and dynamism of the color grey **Communion, Covenant, and Creativity**

Wassily Kandinsky who created the world's first abstract artwork and forever altered the course of art history or so the traditional story goes. A good story but not the full story. The Myth of Abstraction reveals that abstract art was envisioned long before Kandinsky in the pages of nineteenth century German literature. It originated from the written word described by German writers who portrayed in language what did not yet exist as art. Yet if writers were already writing about abstract art why were painters not painting it? To solve the riddle this book features the work of three canonical nineteenth century authors: Heinrich von Kleist, Johann Wolfgang von Goethe and Gottfried Keller who imagine, theorize and describe abstract art in their literary writing, sometimes warning about the revolution it will cause not just in art but in all aspects of social life. Through close readings of their textual images and visual analyses of actual paintings, Andrea Meyertholen shows how these writers anticipated the twentieth century birth of abstract art by establishing the necessary conditions for its production, reception and consumption. The first study to bring these early descriptions of abstraction together and investigate their significance. The Myth of Abstraction writes an alternative genealogy featuring the crucial role of literature in shaping abstract art in aesthetic, cultural and social terms, warning about the revolution it will cause not just in art but in all aspects of social life.
