features complete indexes in each volume as well as a bibliography for further research **After the Factory** James J. Connolly, 2010-10-14 The most pressing question facing the small and mid sized cities of America's industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns *After the Factory* examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the strategies that some have adopted and propose new tactics for these communities as they struggle to move forward in the twenty first century Together they constitute a unique look at an important and understudied dimension of urban studies and globalization *APPALACHIAN LEAGUE BASEBALL* Allen LaMountain, 2014-07 Baseball the very word brings to mind summer days a feeling of youthful exuberance and rebirth Baseball is nostalgic in its essence and I hope that I have captured that feeling in this book the stories of the rise of many young hopeful ballplayers who had the talent and drive to make it to the big leagues and in some cases rise to the very pinnacle of success is what prompted me to write their stories Over the years of my stint covering the Appalachian League I witnessed a great many players make it to The Show If you are a fan of baseball as I am you will enjoy discovering the history of this talent rich league as well as the biographies of the players and managers who passed through the Appy League on their way up the ladder I hope you enjoy reading this book as much as I did writing it Reinventing Local and Regional Economies Gerald L. Gordon, 2011-09-28 Recent US economic history is rife with examples of cities and regions that have experienced significant decline Many of those localities began to slide after decades even generations of feeling immune to economic disaster Boeing and Kodak the steel industry in Pittsburgh and the automotive industry in Detroit all expected to make it golden in *Seeing Pittsburgh* Seeing Pittsburgh (Project), Rivers of Steel National Heritage Area (Pa.), 2008-07-01 Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400

eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is
