Culture in Late Imperial China Cynthia J. Brokaw,Kai-Wing Chow,2005-03-07 Despite the importance of books and the written word in Chinese society the history of the book in China is a topic that has been little explored This pioneering volume of essays written by historians art historians and literary scholars introduces the major issues in the social and cultural history of the book in late imperial China Informed by many insights from the rich literature on the history of the Western book these essays investigate the relationship between the manuscript and print culture the emergence of urban and rural publishing centers the expanding audience for books the development of niche markets and specialized publishing of fiction drama non Han texts and genealogies and more **The Sound of Culture** Louis Chude-Sokei,2015-12-29 The Sound of Culture explores the histories of race and technology in a world made by slavery colonialism and industrialization Beginning in the late nineteenth century and moving through to the twenty first the book argues for the dependent nature of those histories Looking at American British and Caribbean literature it distills a diverse range of subject matter minstrelsy Victorian science fiction cybertheory and artificial intelligence All of these facets according to Louis Chude Sokei are part of a history in which music has been central to the equation that links blacks and machines As Chude Sokei shows science fiction itself has roots in racial anxieties and he traces those anxieties across two centuries and a range of writers and thinkers from Samuel Butler Herman Melville and Edgar Rice Burroughs to Sigmund Freud William Gibson and Donna Haraway to Norbert Weiner Sylvia Wynter and Samuel R Delany Victorian Conversion Narratives and Reading

Communities Emily Walker Hady,2016-03-03 Because Victorian authors rarely discuss conversion experiences separately

from the modes in which they are narrated Emily Walker Heady argues that the conversion narrative became in effect a form of literary criticism Literary conventions in turn served the reciprocal function as a means of discussing the nature of what Heady calls the heart change Heady reads canonical authors such as John Henry Newman Charles Dickens Charlotte Bront George Eliot and Oscar Wilde through a dual lens of literary history and post liberal theology As Heady shows these authors question the ability of realism to contain the emotionally freighted and often jarring plot lines that characterize conversion In so doing they explore the limits of narrative form while also shedding light on the ways in which conversion narratives address and often disrupt the reading communities in which they occur

SpecLab Johanna Drucker,2009-08-01 Nearly a decade ago Johanna Drucker cofounded the University of Virginia s SpecLab a digital humanities laboratory dedicated to risky projects with serious aims In SpecLab she explores the implications of these radical efforts to use critical practices and aesthetic principles against the authority of technology based on analytic models of knowledge Inspired by the imaginative frontiers of graphic arts and experimental literature and the technical possibilities of computation and information management the projects Drucker engages range from Subjective Meteorology to Artists Books Online to the as yet unrealized Patacritical Demon an interactive tool for exposing the structures that underlie our interpretations of text Illuminating the kind of future such experiments could enable SpecLab functions as more than a set of case studies at the intersection of computers and humanistic inquiry It also exemplifies Drucker s contention that humanists must play a role in designing models of knowledge for the digital age models that will determine how our culture will function in years to come

... *Select Essays of Elia* Charles Lamb,1909 [A Guide to Early Printed Books and Manuscripts](#) Mark Bland,2013-03-26

A Guide to Early Printed Books and Manuscripts provides an introduction to the language and concepts employed in bibliographical studies and textual scholarship as they pertain to early modern manuscripts and printed texts Winner Honourable Mention for Literature Language and Linguistics American Publishers Prose Awards 2010 Based almost exclusively on new primary research Explains the complex process of viewing documents as artefacts showing readers how to describe documents properly and how to read their physical properties Demonstrates how to use the information gleaned as a tool for studying the transmission of literary documents Makes clear why such matters are important and the purposes to which such information is put Features illustrations that are carefully chosen for their unfamiliarity in order to keep the discussion fresh

A History of Cambridge University Press: Volume 3, New Worlds for Learning, 1873-1972 David McKitterick,1992 The third and final volume of *A History of Cambridge University Press* covering 1873 1972 **Beware of the Other Side(s)** Heike Schwarz,2014-03-15 This interdisciplinary study examines the still vivid phenomenon of the most controversial psychiatric diagnosis in the United States multiple personality disorder now called dissociative identity disorder This syndrome comprehends the occurrence of two or more distinct identities that take control of a person s behavior paired with an inexplicable memory loss Synthesizing the fields of psychiatry and the dynamics of the disorder with its influential

representation in American fiction the study researches how psychiatry and fiction mutually shaped a mysterious syndrome and how this reciprocal process created a genre fiction of its own that persists until today in a very distinct self referential mode

Contemporary Trauma Narratives Jean-Michel Ganteau, Susana Onega, 2014-06-27 This book provides a comprehensive compilation of essays on the relationship between formal experimentation and ethics in a number of generically hybrid or liminal narratives dealing with individual and collective traumas running the spectrum from the testimonial novel and the fictional autobiography to the fake memoir written by a variety of famous more neglected contemporary British Irish US Canadian and German writers Building on the psychological insights and theorizing of the fathers of trauma studies Janet Freud Ferenczi and of contemporary trauma critics and theorists the articles examine the narrative strategies structural experimentations and hybridizations of forms paying special attention to the way in which the texts fight the unrepresentability of trauma by performing rather than representing it The ethicality or unethicity involved in this endeavor is assessed from the combined perspectives of the non foundational non cognitive discursive ethics of alterity inspired by Emmanuel Levinas and the ethics of vulnerability This approach makes Contemporary Trauma Narratives an excellent resource for scholars of contemporary literature trauma studies and literary theory

Commonwealth of Letters Peter J. Kalliney, 2013-07-26 Commonwealth of Letters examines midcentury literary institutions integral to modernism and postcolonial writing Several organizations central to interwar modernism such as the BBC influential publishers and university English departments became important sites in the emergence of postcolonial literature after the war How did some of modernism's leading figures of the 1930s such as T S Eliot Louis MacNeice and Stephen Spender come to admire late colonial and early postcolonial literature in the 1950s Similarly why did late colonial and early postcolonial writers including Chinua Achebe Kamau Brathwaite Claude McKay and Ngugi wa Thiong'o actively seek alliances with metropolitan intellectuals Peter Kalliney's original and extensive archival work on modernist cultural institutions demonstrates that this disparate group of intellectuals had strong professional incentives to treat one another more as fellow literary professionals and less as political or cultural antagonists Surprisingly metropolitan intellectuals and their late colonial counterparts leaned heavily on modernist theories of aesthetic autonomy to facilitate their collaborative ventures For white metropolitan writers T S Eliot's notion of impersonality could help recruit new audiences and conspirators from colonized regions of the world For black colonial writers aesthetic autonomy could be used to imagine a literary sphere uniquely resistant to the forms of racial prejudice endemic to the colonial system This strategic collaboration did not last forever but as Commonwealth of Letters shows it left a lasting imprint on the ultimate disposition of modernism and the evolution of postcolonial literature
