Zetterberg, Now available in English for the first time Sexual Life in Sweden is a classic piece of sex research by one of Sweden's most distinguished social scientists Sponsored by the Royal Commission on Sex Education more than thirty years ago it remains the only study of sexual behavior in a randomly selected adult population sample ever funded by a government Because an astonishing response rate was achieved 91 percent during the course of Zetterberg's research the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence Zetterberg's study matches the gender of interviewers to that of subjects From a theoretical perspective Zetterberg analyzes the change in Sweden from a restrictive to a contraceptive society The study makes it clear that with over 1 000 acts of intercourse for every live birth 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation Nevertheless the research yields a picture of a highly responsible society Zetterberg explores the emergence of two powerful new norms when having sex you must use contraception and when in an existing sexual relationship you must not start another one He also examines the issue of abortion as part of a concept of social justice The author compares the behavior of those who experience an unwanted pregnancy with those who do not and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system Included is an examination of the sexual behavior of young people the age of their first sexual experience the circumstances surrounding it whether positive parental involvement in their children's lives has any influence on their sexual conduct and sex education programs in the schools This translation of Zetterberg's study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg's work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today

Criminalising the Purchase of Sex Jay

Levy,2014-09-15 In an attempt to abolish prostitution Sweden criminalised the purchase of sex in 1999 while simultaneously decriminalising its sale In so doing it set itself apart from other European states promoting itself as the pioneer of a radical approach to prostitution What has come to be referred to as the Swedish model has been enormously influential and has since been adopted and proposed by other countries This book establishes the outcomes of this law and the law s justifying narratives for the dynamics of Swedish sex work and upon the lives of sex workers Drawing on recent fieldwork undertaken in Sweden over several years including qualitative interviewing and participant observation Jay Levy argues that far from being a law to be emulated the Swedish model has had many detrimental impacts and has failed to demonstrably decrease levels of prostitution Criminalising the Purchase of Sex Lessons from Sweden utilises a wealth of respondent testimony and secondary research to redress the current lack of primary academic research and to contribute to academic discussion on this politically charged and internationally relevant topic This original and timely work will be of interest to sex worker rights organisations policy makers and politicians as well as researchers academics and students across a number of related disciplines including law sociology criminology human geography and gender studies

In this timely and richly illustrated book a group of multidisciplinary scholars explores the uses and handlings of fetuses still born reproductive organs and pregnant bodies for knowledge production including the development of vaccines and pharmaceuticals in Sweden over five hundred years By examining the conflicted values and balancing acts of a variety of actors such as medical experts legal officials policymakers media professionals disability organizations and women's movements it demonstrates how the uses of aborted fetuses for research generated public controversy and became regulated by ethics and law in Sweden Contributors are Eva hr n Annika Berg Elisabet Bj rklund Maria Bj rkman Maja Bondestam Isa Dussauge Helena Franz n Solveig J lich Francis Lee Tove Paulsson Holmberg Morag Ramsey Anton Runesson Helena Tinnerholm Ljungberg and Anna Tunlid **Disturbing the Nest** David Popenoe, 2020-10-14

Disturbing the Nest assesses the future of the family as an institution through an historical and comparative analysis of the nature causes and social implications of family change in advanced western societies such as the United States New Zealand and Switzerland by focusing on the one society in which family decline is found to be the greatest Sweden The founding of the modern Swedish welfare state was based in large part on the belief that it was necessary for the state to intervene in society in order to improve the situation of the family Of great concern was the low birthrate which was seen as a threat to the very survival of Swedes as a national population group The Social Democrats pioneered welfare measures that aimed to strengthen the family to alleviate its worst trials and tribulations and to make possible harmonious living With the Social Democrats remaining in power continuously until 1976 a period of almost forty five years Sweden went on to implement governmental family policies that are among the most comprehensive and expensive in the world In view of this major policy goal of family improvement the actual situation of the Swedish family today presents a genuine irony some have claimed that Swedish welfare state policies have had consequences that are the

opposite of those originally intended Comparing contemporary Swedish family patterns with those of other advanced nations one finds a very high family dissolution rate probably the highest in the Western world and a high percentage of single parent female headed families Even marriage seems to have fallen increasingly out of favor with Sweden having the lowest marriage rate and latest age of first marriage and the highest rate of children born out of wedlock The early pronatalist aspirations of the Swedish government have been spectacularly unsuccessful as Sweden continues to have one of the world's lowest birthrates and smallest average family sizes

Sex Education Philip Meredith, 2024-11-01 In the book Sex Education first published in 1989 Philip Meredith focuses upon the British situation to investigate the political management of school sex education The author presents new insights into the problems of state provision of an aspect of education which many feel should be the exclusive domain of parents He explores the hidden political dynamics which dictate and influence the moral debate over the theory and practice of sex education and argues for a more rational involvement of government in resolving the problems of practice The book includes comparative details of political management and curriculum design drawn mainly from Sweden Denmark the Federal Republic of Germany Poland and Belgium which clarifies or provides alternatives to the British handling of the subject Basing his recommendations on these examples of more constructive management of sex education Philip Meredith challenges the government to take a more positive role by delegating policy decision making in this area to a nationally representative independent and authoritative body of experts whose deliberations the government would defend against minority moral interests who wield a disproportionate power

Realising Justice for Sex Workers, Sharron A. Fitzgerald, Kathryn McGarry, 2018-08-16 In the past two decades feminist politics on prostitution has become more polarised and ideological On the one hand those on the radical spectrum of feminist politics have fought long and hard to criminalise sex purchase with the intention of ultimately abolishing prostitution Other feminists have lobbied the state to recognise and institutionalise sex workers human rights The

collection is both a critical intervention in and a re orientation of the schism in contemporary feminist prostitution politics Contributors will use this schism as a platform from which to challenge current debates and think an alternative sex worker centred politics for social justice By placing sex workers lived experiences of prostitution at the centre of the conversation the book rejects the hegemony of neo abolitionism as the solution to the problem of sex work The book brings international trans disciplinary scholars together to address a rights based agenda for sex work law and policy and consequently for sex workers lives This collection offers an invaluable resource on the subject of how sex workers experience injustices and how we can mitigate this globally through a transformative vision of social justice
