The Lost Civilizations of the Stone Age Richard Rudgley,2000-01-25 Examines the history of mankind during the Neolithic Age and presents evidence that the Stone Age human was more advanced than science originally thought Includes figures and photographs A Million Years in a Day Greg Jenner,2016-06-21 Who invented beds When did we start cleaning our teeth How old are wine and beer Which came first the toilet seat or toilet paper What was the first clock Every day from the moment our alarm clock wakes us in the morning until our head hits our pillow at night we all take part in rituals that are millennia old Structured around one ordinary day A Million Years in a Day reveals the astonishing origins and development of the daily practices we take for granted In this gloriously entertaining romp through human history Greg Jenner explores the gradual and often unexpected evolution of our daily routines This is not a story of wars politics or great events Instead Jenner has scoured Roman rubbish bins Egyptian tombs and Victorian sewers to bring us the most intriguing surprising and sometimes downright silly historical nuggets from our past Drawn from across the world spanning a million years of humanity this book is a smorgasbord of historical delights It is a history of all those things you always wondered about and many you have never considered It is the story of your life one million years in the making The Three Lost Books of Healing Sue Young,2005-12-01 My name is Sue Young and I am a homeopath a writer and a human being The Three Lost Books of Healing were created for my clients and published originally on my web site They are now published in this small book for ease of transport and easy reference I hope you find them useful Back to the Stone Age Ben Pitcher,2022-12-15 Prehistoric human life is a common reference point in contemporary culture inspiring attempts to become happier healthier or better people Exploited by capitalism overwhelmed by technology and living in the shadow of environmental catastrophe we call on the prehistoric to escape the present and to model alternative ways of living our lives In Back to the Stone Age Ben Pitcher explores how ideas about race are tightly woven into the powerful origin stories we use to explain who we are where we came from and what we are like Using a broad range of examples from popular culture from everyday practices like lighting fires and walking in the woods to engagements with genetic technologies and Neanderthal DNA from megaliths and museum mannequins to television shows and best selling nonfiction Pitcher demonstrates how prehistory is alive in the twenty first century and argues that popular flights back in time provide revealing insights into present day anxieties obsessions and concerns Back to the Stone Age shows that the human past is not set in stone By opening up the prehistoric to critical contestation Pitcher places racial justice at the centre of questions about the existence and persistence of Homo sapiens in the contemporary world British & Irish Archaeological Bibliography ,2000 (Greg Jenner),2023-02-14 Levi s Peter Frankopan History Vault Current Archaeology History Revealed Magazine An introduction to sociology; a behavioristic study of American Jerome Davis,1927 An Introduction to Sociology Jerome Davis,Harry Elmer Barnes,1927 Bulletin of the Atomic
