Lost Causes

Mathew Varghese

Lost Causes:

Lost Causes in and beyond Physics R.F. Streater, 2007-07-16 *Lost Causes in and Beyond Physics* deals with a selection of research topics mostly from theoretical physics that have been shown to be a dead end or continue at least to be highly controversial Nevertheless whether it is about Bohmian mechanics physics from Fisher information or the quantum theory of the brain small but dedicated research communities continue to work on these issues R F Streater renowned mathematical physicist and co author of the famous book PCT Spin and Statistics and all that in a series of essays describes the work and struggle of these research communities as well as the chances of any breakthrough in these areas This book is written as both an entertainment and serious study and should be accessible to anyone with a background in theoretical physics and mathematics

Lost Causes Valerie Rohy, 2014-10-03 Causality dominates today's discussions of LGBT rights anti gay voices imagine gay proliferation through seduction influence and corruption while queer communities largely embrace biological determinism saying they are born gay Reading popular rhetoric psychoanalytic theory and British and American literature from the late nineteenth century through the present day *Lost Causes* decenters etiology from queer politics engages abject tropes of homosexual reproduction and considers the effects of retroactive absent and contingent causality

In Defense of Lost Causes Slavoj Žižek, 2009-10-19 In this combative major work philosophical sharpshooter Slavoj Žižek looks for the kernel of truth in the totalitarian politics of the past Examining Heidegger's seduction by fascism and Foucault's flirtation with the Iranian Revolution he suggests that these were the right steps in the wrong direction On the revolutionary terror of Robespierre Mao and the Bolsheviks Žižek argues that while these struggles ended in historic failure and horror there was a valuable core of idealism lost beneath the bloodshed A redemptive vision has been obscured by the soft decentralized politics of the liberal democratic consensus Faced with the coming ecological crisis Žižek argues the case for revolutionary terror and the dictatorship of the proletariat A return to past ideals is needed despite the risks In the words of Samuel Beckett Try again Fail again Fail better

Causes of Absence for Men and for Women in Four Cotton Mills Ethel Lombard Best, 1929

Loyalty to Loyalty: Josiah Royce and the Genuine Moral Life Mathew A. Foust, 2012-07-02 This work engages Royce's moral theory revealing how loyalty rather than being just one virtue among others is central to living a genuinely moral and meaningful life Foust shows how the theory of loyalty Royce advances can be brought to bear on issues such as the partiality impartiality debate in ethical theory

Men After War Stephen McVeigh, Nicola Cooper, 2013 This book is an innovative collection of original research which analyzes the many varieties of post conflict masculinity Exploring topics such as physical disability and psychological trauma and masculinity and sexuality in relation to the feminizing contexts of wounding and desertion this volume draws together leading academics in the fields of gender history literature and disability studies in an inter and multi disciplinary exploration of the conditions and circumstances that men face in the aftermath of war

Universal Citizenship R. Andrés Guzmán, 2019-01-15 Recently many critics have questioned the idea of

universal citizenship by pointing to the racial class and gendered exclusions on which the notion of universality rests. Rather than jettison the idea of universal citizenship, however, R. Andrs Guzm n builds on these critiques to reaffirm it, especially within the fields of Latina o and ethnic studies. Beyond conceptualizing citizenship as an outcome of recognition and admittance by the nation state in a negotiation for the right to have rights, he asserts that insofar as universal citizenship entails a forceful entrance into the political from the latter's foundational exclusions, it emerges at the limits of legality and illegality via a process that exceeds identitarian capture. Drawing on Lacanian psychoanalysis and philosopher Alain Badiou's notion of generic politics, Guzm n advances his argument through close analyses of various literary, cultural, and legal texts that foreground contention over the limits of political belonging. These include the French Revolution, responses to Arizona's H.B. 2281, the 2006 immigrant rights protests in the United States, the writings of Oscar Zeta Acosta, Frantz Fanon's account of Algeria's anticolonial struggle, and more. In each case, Guzm n traces the advent of the citizen as a collective subject made up of anyone who seeks to radically transform the organizational coordinates of the place in which she or he lives.

Dying Inside Benjamin Dov Fleury-Steiner, 2008-10-10

The HIV men incarcerated in Limestone Prison's Dorm 16 were put there to be forgotten. Not only do Benjamin Fleury Steiner and Carla Crowder bring these men to life, Fleury Steiner and Crowder also insist on placing these men in the middle of critical conversations about health policy, mass incarceration, and race. Dense with firsthand accounts, *Dying Inside* is a nimble, far-ranging, and unblinking look at the cruelty inherent in our current penal policies. Lisa Kung, Director, Southern Center for Human Rights: The looming prison health crisis documented here at its extreme is a shocking stain on American values and a clear opportunity to rethink our carceral approach to security. Jonathan Simon, University of California Berkeley: *Dying Inside* is a riveting account of a health crisis in a hidden prison facility. Michael Musheno, San Francisco State University and coauthor of *Deployed*: This fresh and original study should prick all of our consciences about the horrific consequences of the massive carceral state the United States has built over the last three decades. Marie Gottschalk, University of Pennsylvania and author of *The Prison and the Gallows*: An important, bold, and humanitarian book. Alison Liebling, University of Cambridge: Fleury Steiner makes a compelling case that inmate health care in America's prisons and jails has reached the point of catastrophe. Sharon Dolovich, University of California Los Angeles: Fleury Steiner's persuasive argument not only exposes the sins of commission and omission on prison cellblocks but also does an excellent job of showing how these problems are the natural result of our nation's shortsighted and punitive criminal justice policy. Allen Hornblum, Temple University and author of *Sentenced to Science*: *Dying Inside* brings the reader face to face with the nightmarish conditions inside Limestone Prison's Dorm 16, the segregated HIV ward. Here, patients chained to beds share their space with insects and vermin in the filthy, drafty rooms, and contagious diseases spread like wildfire through a population with untreated or poorly managed, at best, HIV. While Dorm 16 is a particularly horrific human rights tragedy, it is also a symptom of a disease afflicting the entire U.S. prison system. In recent decades, prison populations have exploded as

Americans made mass incarceration the solution to crime drugs and other social problems even as privatization of prison services especially health care resulted in an overcrowded underfunded system in which the most marginalized members of our society slowly wither from what the author calls lethal abandonment This eye opening account of one prison s failed health care standards is a wake up call asking us to examine how we treat our forgotten citizens and compelling us to rethink the American prison system in this increasingly punitive age

Open Borders to a Revolution Jaime Marroquin Arredondo, Adela Pineda Franco, Magdalena Mieri, 2013-10-30 Open Borders to a Revolution is a collective enterprise studying the immediate and long lasting effects of the Mexican Revolution in the United States in such spheres as diplomacy politics and intellectual thought It marks both the bicentennial of Latin America s independence from Spain and the centennial of the Mexican Revolution an anniversary with significant relevance for American history The Smithsonian partnered with several institutions and organized a series of cultural events among them an academic symposium whose program was envisioned and developed by the editors of this volume Creating an Archetype The Influence of the Mexican Revolution in the United States The symposium gathered scholars who engaged in conversation and debate on several aspects of U S Mexico relations including the Mexican American experience This volume consolidates the results of those intellectual exchanges adding new voices and providing a wide ranging exploration of the Mexican Revolution

Idealism, Pragmatism, and Feminism John J. Kaag, 2011-01-01 Idealism Pragmatism and Feminism provides an account of the life and writings of Ella Lyman Cabot 1866 1934 a woman who received formal training but not formal recognition in the field of classical American philosophy It highlights the themes of idealism pragmatism and feminism as they emerged in the course of career as an educational reformer and ethicist that spanned nearly four decades Cabot s writings developed in graduate seminars at Harvard and Radcliffe at the turn of the century complement and in many cases anticipate the thinking of the fathers of the American philosophical cannon Charles Sanders Peirce Josiah Royce William James and John Dewey Her formal philosophical writing focuses on the concepts of growth creativity and the moral imagination a fact that is especially interesting given that these concepts are developed by a woman who faced serious obstacles in her personal and intellectual development Indeed these concepts are not merely philosophical ideals but practical tools that Ella Lyman Cabot used to negotiate the gender roles and intellectual marginalization that she faces at the turn of the century The discipline of philosophy was very slow to incorporate the insights of women into its self definition An analysis of the writings of Ella Lyman Cabot reveals this point but also the pointed ways in which she sought to express her genuinely creative insights

Pragmatism and Objectivity Sami Pihlström, 2017-02-17 Pragmatism and Objectivity illuminates the nature of contemporary pragmatism against the background of Rescher s work resulting in a stronger grasp of the prospects and promises of this philosophical movement The central insight of pragmatism is that we must start from where we find ourselves and deflate metaphysical theories of truth in favor of an account that reflects our actual practices of the concept

Pragmatism links truth and rationality to experience success and action While crude versions of pragmatism state that truth is whatever works for a person or a community Nicholas Rescher has been at the forefront of arguing for a more sophisticated pragmatist position According to his position we can illuminate a robust concept of truth by considering its links with inquiry assertion belief and action His brand of pragmatism is objective and organized around truth and inquiry rather than other forms of pragmatism that are more subjective and lenient The contingency and fallibility of knowledge and belief formation does not mean that our beliefs are simply what our community decides or that truth and objectivity are spurious notions Rescher offers the best chance of understanding how it is that beliefs can be the products of human inquiry yet aim at the truth nonetheless The essays in this volume written by established and up and coming scholars of pragmatism touch on themes related to epistemology philosophy of mind philosophy of science and ethics

Woman in Lars von Trier's Cinema, 1996-2014 Ahmed Elbeshlawy, 2016-10-11 This book discusses the figure of Woman in Lars von Trier's distinctive cinematic productions from 1996 to 2014 It takes the notorious legacy of violence against women in von Trier's cinema beyond the perceived gender division elevating the director's image above being a mere provocateur By raising fundamental questions about woman sexuality and desire Elbeshlawy shows that Trier's cinematic Woman is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture But this attempt is perennially ill fated And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance elevating them above both commendations and condemnations of feminist discourse

Nagarjuna and the Art of Negation

Mathew Varghese, 2020-12-01 Reading the philosophy of Nagarjuna in retrospective his method of Nagarjuna is variously explained in this book How the application of tetralemma four value structure catuskoti would give us enough resources to expand our thoughts and how that could help us negate the binary either or structure of thought that demands theoretical postulations Notably the art of logical negation used by Nagarjuna employing neither nor structure would help us understand the Middle Path Madhyamika philosophy clearly Most of the philosophies use the structure of two value logical interpretations to introduce their metaphysics and ethics Metaphysical conception of soul God is the basis of virtue ethics centred on transcendentals of goodness truth beauty unity justice being etc of the classical Greeks later being followed by Christians Jews and Islamic thinkers The conception of atman Brahman is the foundation of Vedic philosophers understanding of transcendentals as truth sat consciousness cit and bliss ananada Nagarjuna on the other hand employs negative dialectics to confute the logical structure of either or that demands metaphysical concepts and by employing the four value logical structure he introduces the transcendentals as wisdom and compassion This book uses Nagarjunian art of negation to reread his philosophy differently to discern the concept of emptiness sunyata as the co dependent evolution of various elements of the subjective self and the elements of objective experiences in the dominion of the subjective self and the elements of objective experiences in the dominion of the subjective self therein it is possible to redefine no soul

nairatmya as self being and dominion of subjectivity for replacing a metaphysical postulation and the transcendentals as wisdom and compassion **Energizing Staff Development Using Film Clips** Walter R. Olsen, William A.

Sommers, 2005-09-08 These stimulating instructive movie clips will encourage discussion and reflection on important themes including courage communication change conflict creativity and leadership **The Promise and Perils of Populism**

Carlos de la Torre, 2015-01-13 From the protesters in Cairo's Tahrir Square to the Tea Party in the United States to the campaign to elect indigenous leader Evo Morales in Bolivia modern populist movements command international attention and compel political and social change When citizens demand power to the people they evoke corrupt politicians imperialists or oligarchies that have appropriated power from its legitimate owners These stereotypical narratives belie the vague and often contradictory definitions of the concept of the people and the many motives of those who use populism as a political tool In *The Promise and Perils of Populism* Carlos de la Torre assembles a group of international scholars to explore the ambiguous meanings and profound implications of grassroots movements across the globe These trenchant essays explore how fragile political institutions allow populists to achieve power while strong institutions confine them to the margins of political systems Their comparative case studies illuminate how Latin American African and Thai populists have sought to empower marginalized groups of people while similar groups in Australia Europe and the United States often exclude people whom they consider to possess different cultural values While analyzing insurrections in Latin America advocacy groups in the United States Europe and Australia and populist parties in Asia and Africa the contributors also pose questions and agendas for further research This volume on contemporary populism from a comparative perspective could not be more timely and scholars from a variety of disciplines will find it an invaluable contribution to the literature **Intellectual**

Resistance and the Struggle for Palestine M. Abraham, 2014-08-07 By positioning the late Edward Said's political interventions as a public intellectual on behalf of Palestinian populations living under Israeli occupation as a form of intellectual resistance Abraham moves to consider forms of physical resistance seeking to better understand the motivations of those who choose to turn their bodies into weapons *Saving Beauty* Kathryn B. Alexander, 2014-08-01 Kathryn B. Alexander argues that natural beauty is a source of religious insight into the need and way of salvation and this project develops a theological aesthetics of nature and beauty with an aim toward cultivating a theological and ethical framework for redeemed life as participation in ecological community With interdisciplinary verve engaging systematic philosophical and art theory systems of aesthetics the volume fosters the cultivation of the sense of beauty through creative religious and sacramental experience *Zizek: Paper Revolutionary* Marko Zlomislíć, 2018-05-18 In this new book Marko Zlomislíć argues that Slavoj Žižek's work does not contain any sort of radical emancipatory project especially as it passes through the ideology of communism and Lacanian psychoanalysis The evidence for the failure of communism is vast and includes the more than six hundred mass graves recently located in Žižek's homeland of Slovenia Zlomislíć demonstrates that the way out of the capitalist

dilemma is not a repetition of communism but a return to the late medieval notion of haecceity or individual thisness that was rejected by modernity Haecceity or the indescribable and indefinite here and now of the person shows that the late medieval Franciscans were already postmodernists It is no wonder that the totalitarianism of the modernist Hegel is embraced by thinkers such as i ek Badiou Hardt Negri and Laclau and was already rejected by Leibnitz Kierkegaard Nietzsche Levinas Deleuze and Derrida This important book shows that i ek s work must be rejected because it does not uphold the dignity worth and uniqueness of the person

History from Loss Marnie Hughes-Warrington, Daniel Woolf, 2023-05-31 History from Loss challenges the common thought that history is written by the winners and explores how history makers in different times and places across the globe have written histories from loss even when this has come at the threat to their own safety A distinguished group of historians from around the globe offer an introduction to different history makers lives and ideas and important extracts from their works which highlight various meanings of loss from physical ailments to social ostracism exile to imprisonment and from dispossession to potential execution Throughout the volume consideration of the information bubbles of different times and places helps to show how information has been weaponized to cause harm In this way the text helps to put current debates about the biases and weaponization of platforms such as social media into global and historical perspectives In combination the chapters build a picture of history from loss which is global sustained and anything but a simple mirror of history made by victors The volume also includes an Introduction and Afterword which draw out the key meanings of history from loss and which offer ideas for further exploration History from Loss provides an invaluable resource for students teachers and general readers who wish to put current debates on bias the politicization of history and threats to history makers into global and historical perspectives The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
