Prospects in International Investment Law and Policy Roberto Echandi, Pierre Sauvé, 2013-04-18 The negotiation of a patchy but burgeoning network of international investment agreements and the increasing use to which they are put is generating a growing body of jurisprudence which while still evolving requires closer analytical scrutiny Drawing on many of the most distinguished voices in investment law and policy and offering novel multidisciplinary perspectives on the rapidly evolving landscape shaping international investment activity and treaty making this book explores the most important economic legal and policy challenges in contemporary international investment law and policy It also examines the systemic implications flowing from frenetic recent judicial activism in investment matters and advances several innovative propositions for how best to promote greater overall coherence in rule design treaty use and policy making and thus offer a better balance between the rights and obligations of international investors and host states *Transnational Film Remakes* Iain Robert Smith, 2017-03-08 What happens when a film is remade in another national context How do notions of translation adaptation and localisation help us understand the cultural dynamics of these shifts and in what ways does a transnational perspective offer us a deeper understanding of film remaking Bringing together a range of international scholars *Transnational Film Remakes* is the first edited collection to specifically focus on the phenomenon of cross cultural remakes Using a variety of case studies from Hong Kong remakes of Japanese cinema to Bollywood remakes of Australian television this book provides an analysis of cinematic remaking that moves beyond Hollywood to address the truly global nature of this phenomenon Looking at iconic contemporary titles such as *The Girl with the Dragon Tattoo* and *Oldboy* as well as classics like *La Bête Humaine* and *La Chienne* this book interrogates the fluid and dynamic ways in which texts are adapted and reworked across national borders to provide a distinctive new model for understanding these global cultural borrowings

have been instrumental to the formation of comedies of mistaken identity the detective genre and dystopian science fiction The individual chapters trace the development of the category of twinship over time demonstrating how the twin was repeatedly re invented as a cultural and pathological type when other discursive fields constituted themselves and how its literary treatment served as the battleground for ideological disputes by setting the stage for debates regarding kinship and reproduction or by partaking in discussions of criminality eugenic greatness and monstrous births The book addresses nearly 100 primary texts including works of Mary Elizabeth Braddon Wilkie Collins Charles Dickens Arthur Conan Doyle Aldous Huxley Christopher Priest William Shakespeare and Zadie Smith **The Magnificent '60s** Brian Hannan,2022-06-16
