The New American Poetry John R. Woznicki, 2013-12-24 The New American Poetry Fifty Years Later is a collection of critical essays on Donald Allen's 1960 seminal anthology The New American Poetry an anthology that Marjorie Perloff once called the fountainhead of radical American poetics The New American Poetry is referred to in every literary history of post World War II American poetry Allen's anthology has reached its fiftieth anniversary providing a unique time for reflection and reevaluation of this preeminent collection As we know Allen's anthology was groundbreaking it was the first to distribute widely the poetry and theoretical positions of poets such as Charles Olson Allen Ginsberg and the Beats and it was the first to categorize these poets by the schools Black Mountain New York School San Francisco Renaissance and the Beats by which they are known today Over the course of fifty years this categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs

markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years The Written Poem Rosemary Huisman, 1998-09-01 This text discusses the visual and graphic conventions in contemporary poetry in English It defines contemporary poetry and its historical construction as a seen object and uses literary and social theory of the 1990s to facilitate the study In examining how a poem is recognized the interpretive conventions for reading it and how the spatial arrangement on the page is meaningful for contemporary poetry the text takes examples from individual poems There is also a focus on changes in manuscript conventions from Old to Middle English poetry and the change from a social to a personal understanding of poetic meaning from the late 18th through the 19th century Edinburgh Dictionary of Modernism Vassiliki Kolocotroni, 2017-12-20 This book examines how the productive interplay between nineteenth century literary and visual media paralleled the emergence of a modern psychological understanding of the ways in which reading viewing and dreaming generate moving images in the mind
