Selfless Love and Human Flourishing in Paul Tillich and Iris Murdoch Julia T. Meszaros,2016-03-03 In an age of self affirmation and self assertion selfless love can appear as a threat to the lover s personal well being This perception jars with the Biblical promise that we gain our life through losing it and therefore calls for a theological response In conversation with the Protestant theologian Paul Tillich and the atheistic moral philosopher and novelist Iris Murdoch *Selfless Love and Human Flourishing in Paul Tillich and Iris Murdoch* enquires into the anthropological grounds on which selfless love can be said to build up rather than undermine the lover s self It proposes that while the implausibility of selfless love was furthered by the modern deconstruction of the self both Tillich and Murdoch utilize this very deconstruction towards explicating and restoring the link between selfless love and human flourishing Julia T Meszaros shows that they use the modern diagnosis of the human being s lack of a stable and independent self as manifest in Sartre s existentialism in support of an understanding of the self as relational and fallen This leads them to view a loving orientation away from self and a surrender to the other as critical to the full flourishing of human selfhood In arguing that Tillich and Murdoch defend the link between selfless love and human flourishing through reference to the human being s ontological selflessness Meszaros closely engages S ren Kierkegaard s earlier attempt to keep selfless love and human flourishing in a productive dialectical tension She also examines the breakdown of this tension in the later figures of Anders Nygren Simone Weil and Jean Paul Sartre and addresses the pitfalls of this breakdown Her examination concludes by arguing that the link between selfless love and human flourishing would be strengthened by a more resolute endorsement of a personal God and of the reciprocal nature of selfless love

A Theology of Love Werner G. Jeanrond,2010-03-21 Love and the Dignity of Human Life Robert Spaemann,2012-01-09 What does it mean to love someone What does the concept of human dignity mean and what are its consequences What marks the end of a person s life Is personhood more than consciousness These perplexing questions lurk beneath the surface of everyday life surfacing only to demand urgent attention in crises Renowned German philosopher Robert Spaemann addresses these and other foundational enigmas in three eloquent short essays Speaking wisdom to controversy he offers carefully considered novel approaches to key philosophical and theological questions about the nature of human love The Paradoxes of Love dignity Human Dignity and Human Nature and death Is Brain Death the Death of a Human Person *The Drama of Love and Death* Edward Carpenter,1926

The Drama of Love and Death: A Study of Human Evolution and Transfiguration Edward Carpenter,2019-12-05 In *The Drama of Love and Death A Study of Human Evolution and Transfiguration* Edward Carpenter explores the profound interplay between love mortality and the evolution of human consciousness Through his unique blend of romanticism and social critique Carpenter weaves a narrative that examines how love can transcend the bounds of the

physical world prompting readers to reflect on emotional and spiritual transformation His literary style is rich with lyrical prose and philosophical musings situating his work within the context of late 19th century thought which sought to reconcile burgeoning scientific understandings of humanity with timeless questions of existence Edward Carpenter a seminal figure in the early gay rights movement and a precursor to modern ecological and social theories draws on his diverse experiences to craft this influential text Influenced by his background in sociology and his deep appreciation for nature Carpenter utilized his platform as a poet and activist to challenge societal norms of his time making him an important voice in the evolution of human philosophy and spirituality The Drama of Love and Death is a must read for anyone interested in the intersections of love death and the evolution of the human spirit Carpenter s thought provoking analysis encourages readers to contemplate their own journeys of transformation and offers a rich understanding of the timeless human experience

Media, Culture and Human Violence Jeff Lewis, 2015-11-18 Humans of the advanced world are the most violent beings of all times This violence is evident in the conditions of perpetual warfare and the accumulation of the most powerful and destructive arsenal ever known to humankind It is also evident in the devastating impact of advanced world economy and cultural practices which have led to ecological devastation and the current era of mass species extinction one of only six mass extinction events in planetary history and the only one caused by the actions of a single species humans This violence is manifest in our interpersonal relationships and the ways in which we organize ourselves through hierarchical systems that ensure the wealth and privilege of some against the penury and misery of others In this new and highly original book Jeff Lewis argues that violence is deeply inscribed in human culture thinking and expressive systems media Lewis contends that violence is not an inescapable feature of an aggressive human nature Rather violence is laced through our desires and dispositions to communalism and expressive interaction From the near extinction of all Homo sapiens around 74 000 years ago the invention of culture and media enabled humans to imagine and articulate particular choices and pleasures Organized intergroup violence or warfare emerged through the exercise of these choices and their expression through larger and increasingly complex human societies This agitation of amplified desire hierarchical social organization and mediated knowledge systems has created a cultural volition of violent complexity which continues into the present Media Culture and Human Violence examines the current conditions of conflict and harm as an expression of our violent complexity
