Inquiry Robert P. George, 1998-03-01 Germain Grisez has been a leading voice in moral philosophy and theology since the Second Vatican Council In this book such major thinkers as John Finnis Ralph McInerny and William E May consider issues in ethics metaphysics and politics that have been central to Grisez's work Grisez's reconsideration of the philosophical foundations of Christian moral teaching seeking to eliminate both legalistic interpretation and theological dissent has won the support of a number of leading Catholic moralists In the past decade moreover many philosophers outside of Catholicism have weighed carefully Grisez's alternatives to theories that have long dominated secular moral philosophy This book presents a broad spectrum of viewpoints on subjects ranging from contraception to capital punishment and considers such controversies as the scriptural basis of Grisez's work his interpretations of Aquinas and his new natural law theory The collection includes not only contributions from Grisez's supporters but also from critics of his thought from proportionalist Edward Collins Vacek SJ to the neo Thomist Ralph McInerny A reply by Grisez written with Joseph M Boyle Jr addresses the issues and viewpoints expressed while an afterword by Russell Shaw reviews Grisez's pioneering work and conveys a vivid sense of the philosopher's personality As Grisez's influence grows this volume will serve as an important touchstone on his contributions to moral and political philosophy and theology *Teaching with Authority* Richard R. Gaillardetz, 1997 This book faithfully represents the teaching of Roman Catholicism on the Church's doctrinal authority while pointing to areas where there remains a gap between an ecclesiological vision of the Church informed by Vatican II and the popular understanding and concrete exercise of that authority in the life of the Church today **The Foundations of Christian**

Bioethics Hugo Tristram Engelhardt, 2000 For decades Engelhardt has alluded to the ethics that binds moral friends While his Foundations of Bioethics explored the sparse ethics binding moral strangers this long awaited volume addresses the morality at the foundations of Christian bioethics The volume opens with an analysis of the marginalization of Christian bioethics in the 1970s and the irremedial shortcomings of secular ethics in general Drawing on the Christianity of the first millennium Engelhardt provides the ontological and epistemological foundations for a Christian bioethics that can remedy the onesidedness of a secular bioethics and supply the bases for a Christian bioethics The volume then addresses issues from abortion third party assisted reproduction and cloning to withholding and withdrawing treatment physician assisted suicide and euthanasia Practices such as free and informed consent are relocated within a traditional Christian morality Attention is also given to the allocation of scarce resources in health care and to the challenge of maintaining the Christian identity of

physicians nurses patients and health care institutions in a culture that is now post Christian

Vision and Values Judith A. Dwyer, 1999-08-27 A concise introduction to Christian ethics this book surveys the moral values of the Catholic tradition and applies them to contemporary issues Prominent authors address such topics as scriptural sources reverence for human life sexuality and intimacy family responsibilities the concept of peace in the modern world economics and Catholic higher education Vision and Values is both an overview of the major perspectives which inform moral decisions and a guide to how these principles interrelate It can help readers determine how to make complex moral judgments in a Christian context as it demonstrates the vitality of the Catholic theological tradition

Agape Gene H. Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment Gene Outka examines the literature on agape from Nygren's Agape and Eros in 1930 Both Roman Catholic and Protestant writings are considered including those of D Arcy Niebuhr Ramsey Tillich and above all Karl Barth The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory The last chapter explores further the basic normative content of agape and discusses some of the most characteristic problems The book is in my judgment the best recent work in religious ethics Outka brings together analytic moral philosophy and theological ethics providing a masterly survey of views and issues arising in the past forty years I can think of few books of interest to scholars in both philosophy and theology but Outka's is one Unlike some scholars who are at home in continental theology Outka is also at home in secular analytic philosophy he brings them together in a mutually illuminating way Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it This is a most important book on a most important subject and brings the whole discussion into a new phase John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent in fact it is probably the very best available book about contemporary Christian ethical theory The Humanities Association Review
