Freud's insight that sex has as much to do with the mind as with the genitals. In this collection of new and previously published papers, Ethel Person writes of the centrality of sexuality to our identity. She describes the role of fantasy in desire, its different expression in the sexes, and the way in which desire is inevitably intertwined with power. Her classic papers on transvestism, transsexualism, and cross-dressing homosexuals, written with Lionel Ovesey, help us to understand how gender and sex develop in all of us. The public acceptance of the transsexual says Person is emblematic of the profound scientific and intellectual shifts that have taken place in the past hundred years. The way that sex and gender develop and are experienced and expressed is the result not only of nature and nurture but also of the cultural zeitgeist, its unspoken values and biases.

The Tenacity of the Couple-Norm Sasha Roseneil, Isabel Crowhurst, Tone Hellesund, Ana Cristina Santos, Mariya Stoilova, 2020-11-05. The Tenacity of the Couple Norm explores the ongoing strength and insidious grip of couple normativity across changing landscapes of law, policy, and everyday life in four contrasting national contexts: the UK, Bulgaria, Norway, and Portugal. By investigating how the couple norm is lived and experienced, how it has changed over time, and how it varies between places and social groups, this book provides a detailed analysis of changing intimate citizenship regimes in Europe and makes a major intervention in understandings of the contemporary condition of personal life. The authors develop the feminist concept of intimate citizenship and propose the new concept of intimate citizenship regime, offering a study of intimate citizenship regimes as normative systems that have been undergoing profound change in recent decades. Against the backdrop of processes of depatriarchalization, liberalization, pluralization, and homonormalization, the ongoing potency of the couple norm becomes ever clearer.

Cold War Freud Dagmar Herzog, 2017. This book provides a panoramic history of psychoanalysis at its zenith as human nature was rethought in the wake of war and the global transformations that followed.

The book opens with a chapter on nannies, tracing the centuries-old history in the West and focusing on four renowned psychoanalysts: Sigmund Freud, Sandor Ferenczi, John Bowlby, and Wilfred Bion. Next comes a discussion of neighbours, using material from religious texts, fiction, and poetry. This is followed by a chapter on childhood playmates and friends, which examines the nature of friendship and how it develops across the lifespan. School teachers come next, using literature on teacher-student relationships synthesised with psychoanalytic developmental theory. Clergy is the next subject of discussion, blending Judeo-Christian religious customs with psychoanalytic developmental theory. The developmental significance of adolescent peers is examined next, using a blend of neurophysiology, endocrine studies, behavioral observations, social-cultural vectors, and psychoanalytic insights. A discussion of lovers and the
