Rethinking Romantic Love Begonya Enguix, Jordi Roca, 2016-11-14 This volume is the result of a thorough exploration of contemporary conceptions of romantic love from different points of view. Beginning with an initial text where the meanings of romantic love are discussed theoretically and historically, the contributions gathered here present current discussions about love in the present day and in different geographical contexts that range from Hungary to Italy or Spain. The first part of the book is devoted to the analysis of mobilities for the sake of love as a result of globalization. These mobilities are analysed in relation to love ideals, to gender equality, and to online searches for the ideal partners. The second part of the book deals with the exploration of different imaginaries of love in particular geographical contexts. The topics dealt with here include love as sickness, love and violence, love ideals for men engaged in gender equality, and love ideals for those who engage in cross-dressing practices. In the third part, writing about and for love is addressed. Love writings to the beloved, dead teenage girls, blogs, and bestsellers such as *Fifty Shades of Grey* are discussed in particular detail. This book addresses current conceptions of romantic love in different social groups through different practices and in different countries, and shows that despite the variability of discourses, experiences, and practices related to love, a number of ideas of what love should be like related to the

Western ideals of romantic love persist in all these contexts The contributions to this volume are derived from extensive fieldwork and ethnographic research and will be of undoubted interest for the academic milieu However given the topic it deals with the book will also appeal to the general public who will find in these pages many love stories derived from the detailed study of the society which we inhabit and the ideals of love that we breathe Sexuality and Memory in Early Modern England John S. Garrison, Kyle Pivetti, 2015-11-19 This volume brings together two vibrant areas of Renaissance studies today memory and sexuality The contributors show that not only Shakespeare but also a broad range of his contemporaries were deeply interested in how memory and sexuality interact Are erotic experiences heightened or deflated by the presence of memory Can a sexual act be commemorative Can an act of memory be eroticized How do forms of romantic desire underwrite forms of memory To answer such questions these authors examine drama poetry and prose from both major authors and lesser studied figures in the canon of Renaissance literature Alongside a number of insightful readings they show that sonnets enact a sexual exchange of memory that epics of nationhood cannot help but eroticize their subjects that the act of sex in Renaissance tragedy too often depends upon violence of the past Memory these scholars propose re shapes the concerns of queer and sexuality studies including the unhistorical the experience of desire and the limits of the body So too does the erotic revise the dominant trends of memory studies from the rhetoric of the medieval memory arts to the formation of collective pasts **Culture's Software** Dorota Brzozowska, Władysław Chłopicki, 2015-09-10 When Geert Hofstede famously defined culture as collective programming of the mind the definition broadly referred to culture as such including all the layers in his onion model The title of this volume Culture's Software represents a development of this original idea and was inspired by none other than Professor Hofstede himself He used this phrase over thirty years later when lecturing to an international group of scholars gathered in Poland to debate the idea of cultural communication styles which has in recent years been fruitfully discussed from a fresh perspective by scholars working within cognitive and cultural linguistics The debate has given rise to this book which will inspire further research into this fascinating subject
