Shaping the Bar Joan Howarth, 2022-12-13. The comprehensive source on attorney licensing and how to reform it. In *Shaping the Bar*, Joan Howarth describes how the twin gatekeepers of the legal profession, law schools and licensers, are failing the public. Attorney licensing should be laser-focused on readiness to practice law with the minimum competence of a new attorney. According to Howarth, requirements today are both too difficult and too easy. Amid the crisis in unmet legal services, record numbers of law school graduates disproportionately people of color are failing bar exams that are not meaningful tests of competence to practice. At the same time, after seven years of higher education, hundreds of thousands of dollars of law school debt, two months of cramming legal rules, and success on a bar exam, a candidate can be licensed to practice law without ever having been in a law office or even seen a lawyer with a client. Howarth makes the case that the licensing rituals familiar to generations of lawyers, unfocused law degrees, and obsolete bar exams are protecting members of the profession more than the public. Beyond explaining the failures of the current system, this book presents the latest research on competent lawyering and examples of better approaches. This book presents the path forward by means of licensing changes to protect the public while building an inclusive, diverse, competent, ethical profession. Thoughtful and engaging, *Shaping the Bar* is both an authoritative account of attorney licensing and a pragmatic handbook for overdue equitable reform of a powerful profession. ***Autoharp Owner's Manual*** Mary Lou Orthey, 2016-03-30. The *Autoharp Owner's Manual* covers autoharp maintenance, conversions, tuning, and string schedules, both diatonic and chromatic, building your own instrument, playing techniques, evaluating instruments, chord bar setups, amplification, history, and much more. Each subject is addressed by a current premier musician/builder. The articles in this book have been taken from past issues of *Autoharp Quarterly* and have been updated to address current innovations, problems, and instruments. It is a must-have for every autoharp player.

Mandate Madness James T. Bennett, 2014-05-02. What do drivers' licenses that function as national ID cards, nationwide standardized tests for third graders, the late-unlamented 55-mile-per-hour speed limit, the outlawing of the eighteen-year-old beer drinker, and the disappearing mechanical lever voting machine have in common? Each is the product of an unfunded federal mandate, a concept that politicians of both parties profess to oppose in theory but which in practice they often find irresistible as a means of forcing state and local governments to do their bidding while paying for the privilege. *Mandate Madness* explores the history, debate, and political

gamesmanship surrounding unfunded federal mandates concentrating on several of the most controversial and colorful of these laws The cases hold lessons for those who would challenge current or future unfunded federal mandates James T Bennett also examines legislative efforts to rein in or repeal unfunded federal mandates Finally he reviews the treatment of unfunded mandates by the federal courts Those who find wisdom in America s traditional federalist political arrangement maintain perhaps with more wishfulness than realism that the unfunded federal mandate has not yet joined death and taxes as an immovable part of the modern political landscape
