Becker,2015-11-06 This monograph investigates the historical use of cavalry in low intensity conflict LIC This investigation is to determine the possible strengths and weaknesses of our current light infantry division s reconnaissance squadron in terms of organization equipment doctrine and techniques for employment in LIC The intent of the paper is neither to produce a paradigm on the use of reconnaissance forces in LIC nor simply to conduct a historical study but rather to see if our past actions impact on today s cavalry The structure of this monograph is to explain the nature of LIC and assess its impact on reconnaissance forces describe a comparison methodology conduct historical analysis analyze the results of the comparison and then to make conclusions and offer recommendations The information collection effort was focused on primary source reports from the Army Marine and British Army commanders involved directed research analysis and personal interviews LIC is not new to the American Army Our Army has been involved in insurgencies both in and out of country from its creation The Army has fought in numerous insurgencies however its involvements in the Philippines Mexico Dominican Republic and Grenada are studied as are the U S Marine Corps interventions in Nicaragua and Haiti and the British Army s actions in Malaya and Kenya These insurgencies were fought in different environmental settings against different types of insurgents by different intervening nations These examples are too few to provide an accurate data base for statistical analysis however they provide enough diverse information for comparative analysis by comparing the missions that were assigned to the reconnaissance units involved Military Review ,2005 **Professional Journal of the United States Army** ,1986

The Rise Of The Antichrist Kamran Faqir,2019-04-02 The Rise of The Antichrist carefully investigates the measurable effects of politics religion science and technology on the human psyche All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems which have been foretold by all prophets or messengers dutifully sent to every nation over time This book carefully explores the much debated topic of the Antichrist regarding his

future emergence Will he lead humanity to eternal darkness or enlightenment Although modern science and human history popularly refer to the last 5 000 15 000 years of development in reality there are signs and evidence that human development is considerably older with possibilities of supernatural or otherworldly intervention This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic with a possibility of alien or supernatural influence which was captured on stone glyphs Throughout history there have been developed mighty empires whose chosen kings proclaimed to be Gods But were they actually inter dimensional beings This book will ideally suit readers with an active interest in religion historical events and those interested in a thought provoking read **'Non-Lethal' Weapons** N.

The Sling and the Stone Thomas X. Hammes,2006-02-17 4GW Fourth Generation Warfare is the only kind of war America has ever lost And we have done so three times in Vietnam Lebanon and Somalia This form of warfare has also defeated the French in Vietnam and Algeria and the USSR in Afghanistan As the only Goliath left in the world we should be worried that the world s Davids have found a sling and stone that work Chapter 1 The Sling and the Stone On War in the 21st Century The War in Iraq The War on Terror These types of asymmetrical warfare are the conflicts of the 21st century and show how difficult it is for the world s remaining superpower to battle insurgents and terrorists who will fight unconventionally in the face of superior military power This change in military conflict may seem sudden **2004 Logistics Demensions vol1** ,

2004 Logistics Demensions vol2 , Airlift Capabilities for Future U.S. Counterinsurgency Operations Robert C. Owen,Karl P. Mueller,2007 Current and probable future United States involvement in counterinsurgencies revives a long standing debate about whether these missions call for adding specialized aircraft training or other resources to the general military airlift fleet The authors examine the use of airlift in past and present counterinsurgency operations including the Foreign Internal Defense program They conclude that general U S airlift forces can accomplish most counterinsurgency missions effectively with adjustments in employment doctrines and training However they also note that continued operations likely will require reinforcement of the general airlift fleet and perhaps acquisition of a small fleet element optimized for certain counterinsurgency missions *Logistics and Warfighting* , **Combat Support...** ,1993

Government Secrets and Cover-ups John P. Hunter III,2014-07-30 GOVERNMENT COVER UPS Why on earth would I dare write a shocking book as this one The simplest explanations people ALL over the world are na ve and ignorant to what conspires within their own government or of religion for that matter These two words dominate people s thoughts everywhere What it boils down to is the nature of the human race believes that what they do not know will not hurt them I have to disagree with this philosophy because it can hurt you and even kill you This is what MOST governments rely on for

people to disbelieve what is the real truth Lies are more profitable and who will believe the truth anyway The truth seems to come out of a science fiction novel Propaganda rules because the public refuses to believe that this is not the ninetieth or twentieth century anymore There are new inventions of warfare that most have never heard of A large amount of ground troops and bombings are becoming obsolete because of laser cannons robots and the High Frequency Active Auroral Research Program HAARP project What better ways to exterminate the over population then blame it on the weather so the government gets away with legalized MURDER WHY is it so hard to understand or believe when in reality people believe in sasquatches Big Foot Yeti abdominal snowman UFO s ghost or even living zombies because of panic but they deny government conspiracies More advanced countries in technology consider Oriental Countries as being expendable to be used as human guinea pigs Everybody just witnessed this from the typhoon Yolanda in the Philippines November 8 2013 before that an Indonesia earthquake followed by a large tidal wave and then a Japan catastrophe WAKE UP before you become the casualty or of your own family It is getting worse every day It is getting worse every year most do not care or are oblivious to the facts so get educated to reality **Monthly Catalog of United States Government Publications** ,1990 Air
