Luce Irigaray And Premodern Culture:

Luce Irigaray and Premodern Culture Elizabeth D. Harvey, Theresa Krier, 2004-08-02 The essays in this groundbreaking collection stage conversations between the thought of the controversial feminist philosopher linguist and psychoanalyst Luce Irigaray and premodern writers ranging from Empedocles and Homer to Shakespeare Spenser and Donne They explore both the pre Enlightenment roots of Luce Irigaray s thought and the impact that her writings have had on our understanding of ancient medieval and Renaissance culture Luce Irigaray has been a major figure in Anglo American literary theory philosophy and gender studies ever since her germinal works *Speculum of the Other Woman* and *This Sex Which Is Not One* were published in English translation in 1985 This collection is the first sustained examination of Irigaray s crucial relationship to premodern discourses underpinning Western culture and of the transformative effect she has had on scholars working in pre Enlightenment periods Like Irigaray herself the essays work at the intersections of gender theory historicism and language This collection offers powerful ways of understanding premodern texts through Irigaray s theories that allow us to imagine our past and present relationship to economics science psychoanalysis gender ethics and social communities in new ways

Ecocriticism and Early Modern English Literature Todd A. Borlik, 2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism s current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings

Jess Edwards,2018-12-07 The early modern map has come to mark the threshold of modernity cutting through the

layered customs of Medieval parochialism with its clean expansive geometries Re thinking the role played by mathematics and cartography in the English seventeenth century this book argues that the cultural currency of mathematics was as unstable in the period as that of England's controversial enclosures and plantations Reviewing evidence from a wide range of literary and scientific courtly and pragmatic texts Edwards suggests that its unstable currency rendered mathematics necessarily rhetorical subject to constant re negotiation Yet he also finds a powerful flexibility in this weakness Mathematized texts from masques to maps negotiated a contemporary ambivalence between Calvinist asceticism and humanist engagement Their authors promoted themselves as artful guides between virtue and profit the study and the marketplace This multi disciplinary work will be of interest to all disciplines affected by the recent spatial turn in early modern cultural studies and particularly to students and researchers in literature history and geography
