## **Lucha Obrera De Cuba:**

**Cuban Studies 23** Jorge Perez-Lopez, 1994-01-15 Cuban Studies has been published annually by the University of Pittsburgh Press since 1985. Founded in 1970, it is the preeminent journal for scholarly work on Cuba. Each volume includes articles in both English and Spanish, a large book review section, and an exhaustive compilation of recent works in the field.

*Spreading Rebellion* Bieito Alonso, David M. Struthers, 2025-12-02 Solidarity from the high seas to South American Caribbean and North American ports. The Atlantic world in the late nineteenth and early twentieth centuries was a space of contradiction and hope. From New York to Havana to Buenos Aires, *Spreading Rebellion* documents the activities of migrant laborers from Spain who contributed to the genesis, development, and consolidation of maritime unionism. The rise of steamships in the late nineteenth century brought a massive increase in global transport along with a ballooning international workforce. Coexistence onboard through shared working and living conditions contributed to solidarity among seafarers while power exercised through their mobility helped stimulate the process of organizing dockworkers on land. Alonso and Struthers focus keenly on how this multilingual and multiracial workforce imbued their movement with an anticapitalist ethos. These dynamics animated aggressive campaigns for legislative reforms and fights for workplace control with unions such as the Industrial Workers of the World. *Spreading Rebellion* is above all a transnational history that moves away from statist frames of reference.

**El Lector** Araceli Tinajero, 2010-02-01 The practice of reading aloud has a long history, and the tradition still survives in Cuba as a hard-won right deeply embedded in cigar factory workers' culture. In *El Lector*, Araceli Tinajero deftly traces the evolution of the reader from nineteenth-century Cuba to the present and its eventual dissemination to Tampa, Key West, Puerto Rico, and Mexico. In interviews with present-day and retired readers, she records testimonies that otherwise would have been lost forever, creating a valuable archive for future historians. Through a close examination of journals, newspapers, and personal interviews, Tinajero relates how the reading was organized, how the readers and readings were selected, and how the process affected the relationship between workers and factory owners. Because of the reader, cigar factory workers were far more cultured and in touch with the political currents of the day than other workers. But it was not only the reading material which provided political and literary information that yielded self-education that influenced the workers; the act of being read to increased the discipline and timing of the artisan's job.

*Legislación obrera de la República de Cuba*, 1919. *Work, Protest, and Identity in Twentieth-century Latin America* Vincent C. Peloso, 2003 This text takes a novel approach to labor. Rather than examine the labor movement, labor unions, and labor organizing, *Work, Protest, and Identity in Twentieth-century Latin America* sets work in the context of social history in Latin America. It combines a chronological approach with a topical one to clarify how work is related to other themes in daily Latin American life: themes such as gender, race, family life, ethnicity, immigration, politics, industrial and agricultural growth, and religion. The essays in this collection bring together original studies and published works that illustrate the tensions and

conflicts between work identity and community that caused protest to take many different forms in Latin American countries Designed to give students a better appreciation for the complexity of the lives of the wage working sectors of society and the richness of their contributions to the cultures and nations of the region Work Protest and Identity in Twentieth Century Latin America is essential for courses on the social history of Latin America state formation labor and protest and surveys of modern Latin America

State of Ambiguity Steven Palmer, José Antonio Piqueras, Amparo Sánchez Cobos, 2014-04-25 Cuba's first republican era 1902-1959 is principally understood in terms of its failures and discontinuities typically depicted as an illegitimate period in the nation's history its first three decades and the overthrow of Machado at best a prologue to the real revolution of 1959 State of Ambiguity brings together scholars from North America Cuba and Spain to challenge this narrative presenting republican Cuba instead as a time of meaningful engagement socially politically and symbolically Addressing a wide range of topics civic clubs and folkloric societies science public health and agrarian policies popular culture national memory and the intersection of race and labor the contributors explore how a broad spectrum of Cubans embraced a political and civic culture of national self realization Together the essays in State of Ambiguity recast the first republic as a time of deep continuity in processes of liberal state and nation building that were periodically disrupted but also reinvigorated by foreign intervention and profound uncertainty Contributors Imilcy Balboa Navarro Alejandra Bronfman Maikel Fari as Borrego Reinaldo Funes Monzote Marial Iglesias Utset Steven Palmer Jos Antonio Piqueras Arenas Ricardo Quiza Moreno Amparo S nchez Cobos Rebecca J Scott Robert Whitney

Revolutionary Violence and the New Left Alberto Martin Alvarez, Eduardo Rey Tristán, 2016-08-05 Leading figures and rising stars in the field present the first contribution explaining the transnational nature of the revolutionary violence of the New Left Focusing on the processes of dissemination of ideologies and mobilization of ideas and repertoires of action among the revolutionary organizations of the New Left in Latin America Europe and the United States this book contributes to our understanding of the dynamics of the New Left wave and at the same time helps explain the why of the emergence of very similar armed leftist groups in vastly different geographical and political contexts

**The Cuban Condition** Gustavo Pérez Firmat, 2006-11-02 Firmat explores the process of assimilation or transculturation in the case of Cuba and proposes a new understanding of the issue of Cuban national identity through revisionary readings dating from the early decades of the twentieth century a time of intense self reflection in the nation's history He argues that Cuban identity is translational rather than foundational and that Cuban identity emerges from a nuanced self conscious recasting of foreign models

A Nation for All Alejandro de la Fuente, 2001 Argues that racism and antiracism continue to coexist in Cuban nationalism and society despite its fight for freedom and describes the limitations Afro Cubans face in job access education and political representation

*Rebel Lands of Cuba* Joanna Swanger, 2015-05-06 The book is a comparative history of twentieth century Cuban campesinos in two regions in Cuba marked by extreme differences in race gender and land tenure Oriente and Escambray It explores the ways these differences articulated with

state formation from the pre revolutionary period of 1934 1959 and then 1959 1974 and seeks to explain why campesinos in Escambray having been active in the insurrection against Batista later turned to stage a massive counter revolution against the government headed by Fidel Castro Although campesinos in both regions had been equally ignored by pre 1959 governments for different reasons they developed two distinct understandings of what the role of the state should be in response to political neglect Rich archival sources many of which have not been accessed previously document the unique shape of land struggles in each region in the 1930s through the 1950s The author argues that because of the way race and gender and a collectivist land tenure tradition in Oriente mapped nicely onto the goals of the 1959 Revolution Oriente became a kind of revolutionary showcase In Escambray on the other hand a construct of white masculinity tied to private property ownership directly contravened the goals of the Revolution which fueled the counter revolution and also led to brutal state repression in the area

*Encyclopedia of Latin American Literature* Verity Smith,1997-03-26 A comprehensive encyclopedic guide to the authors works and topics crucial to the literature of Central and South America and the Caribbean the *Encyclopedia of Latin American Literature* includes over 400 entries written by experts in the field of Latin American studies Most entries are of 1500 words but the encyclopedia also includes survey articles of up to 10 000 words on the literature of individual countries of the colonial period and of ethnic minorities including the Hispanic communities in the United States Besides presenting and illuminating the traditional canon the encyclopedia also stresses the contribution made by women authors and by contemporary writers Outstanding Reference Source Outstanding Reference Book

*Degrees of Freedom* Rebecca J. Scott,2009-06-30 As Louisiana and Cuba emerged from slavery in the late nineteenth century each faced the question of what rights former slaves could claim *Degrees of Freedom* compares and contrasts these two societies in which slavery was destroyed by war and citizenship was redefined through social and political upheaval Both Louisiana and Cuba were rich in sugar plantations that depended on an enslaved labor force After abolition on both sides of the Gulf of Mexico ordinary people cane cutters and cigar workers laundresses and labor organizers forged alliances to protect and expand the freedoms they had won But by the beginning of the twentieth century Louisiana and Cuba diverged sharply in the meanings attributed to race and color in public life and in the boundaries placed on citizenship Louisiana had taken the path of disenfranchisement and state mandated racial segregation Cuba had enacted universal manhood suffrage and had seen the emergence of a transracial conception of the nation What might explain these differences Moving through the cane fields small farms and cities of Louisiana and Cuba Rebecca Scott skillfully observes the people places legislation and leadership that shaped how these societies adjusted to the abolition of slavery The two distinctive worlds also come together as Cuban exiles take refuge in New Orleans in the 1880s and black soldiers from Louisiana garrison small towns in eastern Cuba during the 1899 U S military occupation Crafting her narrative from the words and deeds of the actors themselves Scott brings to life the historical drama of race and citizenship in postemancipation societies

*Programa del Partido Comunista*

*de Cuba* Partido Comunista de Cuba,1986      **The Pan American Book Shelf** ,1943      **A Nation for All** Alejandro de la Fuente,2011-01-20 After thirty years of anticolonial struggle against Spain and four years of military occupation by the United States Cuba formally became an independent republic in 1902 The nationalist coalition that fought for Cuba's freedom a movement in which blacks and mulattoes were well represented had envisioned an egalitarian and inclusive country a nation for all as Jose Marti described it But did the Cuban republic and later the Cuban revolution live up to these expectations Tracing the formation and reformulation of nationalist ideologies government policies and different forms of social and political mobilization in republican and postrevolutionary Cuba Alejandro de la Fuente explores the opportunities and limitations that Afro Cubans experienced in such areas as job access education and political representation Challenging assumptions of both underlying racism and racial democracy he contends that racism and antiracism coexisted within Cuban nationalism and in turn Cuban society This coexistence has persisted to this day despite significant efforts by the revolutionary government to improve the lot of the poor and build a nation that was truly for all      **The Role of Cuba in International Terrorism and Subversion** United States.
