loving and getting and spending Through Woolley and his thoughts on reading and drinking sex the law and social relations she challenges traditional accounts which she argues have overstated the importance of work to the working man s understanding of himself as a creature of time place and society She shows instead that for men like Woolley law and fiction were just as critical as work in framing everyday life     Aristocracy and People Norman Gash,1979 One of the foremost scholars of nineteenth ecentury England Gash has written a new interpretation of the years 1815 to 1865 that takes industrialization off center stage as the great dramatic event in national life Gash integrates other equally significant changes the postwar slump in trade and manufacturing the unprecedented expansion of population and the increasing urbanization He argues that the singular ability of the industrial revolution to produce wealth and skills enabled England to cope with impending social catastrophe Gash also reintroduces the importance of politics in explaining events and he challenges the recent historical interpretations giving primacy to class history and class consciousness
