Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting

narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

**Magic: The Life of Earvin "Magic" Johnson** Roland Lazenby, 2023-10-24 The definitive biography of the basketball legend Earvin Magic Johnson from the highly respected career sportswriter and author of Michael Jordan The Life Magic Johnson is one of the most beloved and at times controversial athletes in history His iconic smile lifted the dowdy sport of American professional basketball from a second tier sport with low ratings into the global spotlight a transformation driven by Magic's ability to eviscerate opponents with a playing style that featured his grand sense of fun He was a master entertainer who directed the Los Angeles Showtime Lakers to the heights of both glory and epic excess all of it driven by his mind blowing no look passes and personal charm Then in 1991 at the height of his charismatic power Johnson shocked the world with a startling cautionary tale about sexually transmitted disease that pushed public awareness of the HIV AIDS crisis Then out came his confession of unprotected sex with hundreds of women each year followed by his retirement an attempted return and a proper farewell on the iconic 1992 Olympic Dream Team Longtime biographer Roland Lazenby spent years tracking the unlikely ascension of Johnson an immensely popular public figure who was instantly scandalized but who then turned to his legendary will to rise again as a successful entrepreneur with another level of hard won success In Lazenby's portrayal Johnson's tale becomes bigger than that of one man It is a generational saga spanning parts of three centuries that reveals a great deal not just about his unique basketball journey but about America itself Through hundreds of interviews with Johnson's coaches representatives past and present teammates opponents friends and loved ones as well as key conversations with Johnson himself over the years Lazenby has produced the first truly definitive study both dark and light of Earvin Magic Johnson Jr the revolutionary player the icon the man

**New York Court of Appeals. Records and Briefs.** New York (State)., *Total Propaganda* Alex S. Edelstein, 2013-11-05

*Total Propaganda* moves the study of propaganda out of the exclusive realm of world politics into the more inclusive study of popular culture media and politics All the participatory functioning elements of the society are aspects of membership in the popular culture Thus the values of popular music media politics debates over social issues and even international trade become everyday propaganda to which everyone may relate To emphasize the necessity for new thinking about propaganda Edelstein creates the concepts of the new propaganda and the old and he devises a language of unonyms to convey their meanings more quickly Oldprop is characteristic of mass cultures and utilizes totalitarian methods of conflict hegemony minimization demonization and exclusiveness to achieve its goals By contrast newprop is created by members of the popular culture to allow them to engage

in accomodation enhance the individual and promote inclusiveness Shifts in the old and the new propaganda are tracked across social issues such as race religion sexuality gender gun control and the environment as well as in fashion politics advertising sports media and politics Central to the concept of total propaganda is that it is not simply additive it is the product of new energies that are produced by the fusing of propaganda in such related forums as music art advertising sports and politics It is these synergies and their production of new energies that make total propaganda greater than the sum of its parts Edelstein concludes that the most important distinction that should be drawn between mass culture and popular culture is its text i e its propaganda In a popular culture everyone creates and consumes propaganda in a mass culture almost everyone consumes it but only a few create it This formulation offers new ways to discuss power and ideology in media texts As an example where once the least informed and the least educated were the most subject to propaganda now the most informed and most educated often are the first to create propaganda and the first to consume it
