Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology

Ancient Futures Helena Norberg-Hodge, 2017-04-27 A moving portrait of tradition and change in Ladakh or Little Tibet Ancient Futures is also a scathing critique of the global economy and a rallying call for economic localization When Helena Norberg Hodge first visited Ladakh in 1975 she found a pristine environment a self reliant economy and a people who exhibited a remarkable joie de vivre But then came a tidal wave of economic growth and development Over the last four decades this remote Himalayan land has been transformed by outside markets and Western notions of progress As a direct result a whole range of problems from polluted air and water to unemployment religious conflict eating disorders and youth suicide have appeared for the first time Yet this is far from a story of despair Social and environmental breakdown Norberg Hodge argues are neither inevitable nor evolutionary but the products of political and economic decisions and those decisions can be changed In a new Preface she presents a kaleidoscope of projects around the world that are pointing the way for both human and ecological well being These initiatives are the manifestation of a rapidly growing localization movement which works to rebuild place based cultures strengthening community and our connection with nature Ancient Futures challenges us to redefine what a healthy economy means and to find ways to carry centuries old wisdom into our future The book and a related film by the same title have between them been translated into more than 40 languages

Trade and Contemporary Society along the Silk Road

Jacqueline H. Fewkes, 2008-10-27 This book provides an ethno historical study of the trade system in Ladakh India a busy entrepôt for Silk Route trade between Central and South Asia Previously a part of global networks Ladakh became an isolated border area as national boundaries were defined and enforced in the mid 20th century As trade with Central Asia ended social life in Ladakh was irrevocably altered The author's research combines anthropological historical and archaeological methods of investigation using data from primary documents ethnographic interviews and participation observation fieldwork The result is a cultural history of South and Central Asia detailing the social lives of historical Ladakhi traders and identifying their community as a cosmopolitan social group The relationship between the historical narratives and the modern ethnographic context illustrates how social issues in modern communities are related to those of the past It is demonstrated that this relationship depends on both memories narratives about the past constructed within present social contexts and legacies ways in which the past continues to shape present social interactions This book will be of particular interest to anthropologists historians and specialists in South and Central Asian studies as well as those interested in historical archaeology science sociology political science and economics
