Magic Bullet Understanding The Revolution In Military Affairs:

The Magic Bullet? Tim Benbow, 2004-06-30 Bombing by use of laser guided weaponry is evolution not revolution aircraft have been bombing for more than 85 years but a network of sensors in space or on the sea bed that can track every move without human involvement may be revolution This and other technical advances may enable intervention and prevention without conflict certainly with non lethal weaponry The future structure of armed forces the nature and size of defence industries the potential risk of there being a single superpower and many other matters depend on how much the present and future change in military affairs is evolution and how much is genuine revolution This study based on report papers prepared for the Ministry of Defence and praised for their clarity offers clear analysis of the debate for lay students of current and military affairs as well as professionals working in the fields of politics science security and military strategy and planning

Reassessing Russia's Security Policy Nurlan Aliyev, 2023-12-11 This book provides a detailed analysis of the evolution of Russia's security policy Based on extensive original research including an analysis of official documents political and military elite speeches interviews and reports and considering the subject from the early 20th century onward the book evaluates how far Russia's security policy is underpinned by strategic asymmetry the acceptance by Russia of its inferior military position and the pursuit of its strategic aims through the application of a variety of methods military and non military including the manipulation of public opinion the use of economic leverage and external security approaches known as Russia's hybrid war operations to gain the advantage over a militarily and economically superior adversary The book discusses how Russia's security policy has been and is being applied in specific cases including the present war in Ukraine the Russian anti satellite program and Russia's contemporary Afghan policy The aim of the book is to explain how and why Russia uses different security strategies and methods using these three cases

Medieval Wars 500-1500 Professor Dennis Showalter, 2013-09-16 Medieval Wars is a listing of all key medieval battles from 500 to 1500CE from around the globe with maps showing the critical encounters of the period Ideal for military students and historians this volume is part of the Encyclopedia of Warfare series

Fifth Generation Warfare Armin Krishnan, 2024-03-11 This book outlines the concept of Fifth Generation Warfare 5GW and demonstrates its relevance for understanding contemporary conflicts Non kinetic modes of attack and war waged by groups or non state actors at the societal level has been termed 5GW This book discusses the theory of generational warfare and explores the key ideas of 5GW such as secrecy the manipulation of proxies the manipulation of identity and culture including disinformation and big data and the use of psychological warfare These techniques are used to achieve strategic objectives such as inducing desired behaviour and controlling human terrain without resorting to overt war or overt violence The text expands the debate on 5GW by exploring emerging technologies and how they could be used for maliciously shaping human society and even for maliciously changing the genetic makeup of a population for the purpose of unprecedented social control The work closes with comments on the possibility of a Sixth

Generation of Warfare which targets technical systems to possibly collapse a society through strategic sabotage Overall the book demonstrates the relevance of 5GW for understanding contemporary conflicts from the Arab Spring to the war in Ukraine in terms of the need for dominating the human domain This book will be of interest to students of security and technology defence studies and International Relations

Changing War Gary Sheffield, Peter Gray, 2013-10-24 In 1918 the British Expeditionary Force BEF played a critical role in defeating the German army and thus winning the First World War This Hundred Days campaign August to November 1918 was the greatest series of land victories in British military history 1918 also saw the creation of the Royal Air Force the world's first independent air service from the Royal Flying Corps and the Royal Naval Air Service Until recently British histories of the First World War have tended to concentrate on the earlier battles of 1916 and 1917 and often underplayed this vitally important period Changing War fills this significant gap in our knowledge by providing in depth examinations of key aspects of the operations of the British Army the Royal Air Force and its antecedents in the climactic year of the First World War Written by a group of established historians and emerging scholars it sheds light not only on 1918 but on the revolutionary changes in warfare that took place at that time

Ancient Wars c.2500BCE-500CE Professor Dennis Showalter, 2013-09-16 The Ancient Wars c 2500BCE 500CE in the Encyclopedia of Warfare Series shows the conflicts that raged for two millennia as the first governments emerged and states began to develop Starting with the earliest battles known to history this is a chronological guide to conflict on every continent from the Macedonian Empire to the fall of Rome

Protection of Information and the Right to Privacy - A New Equilibrium? Luciano Floridi, 2014-05-19 This book presents the latest research on the challenges and solutions affecting the equilibrium between freedom of speech freedom of information information security and the right to informational privacy Given the complexity of the topics addressed the book shows how old legal and ethical frameworks may need to be not only updated but also supplemented and complemented by new conceptual solutions Neither a conservative attitude more of the same nor a revolutionary zeal never seen before is likely to lead to satisfactory solutions Instead more reflection and better conceptual design are needed not least to harmonise different perspectives and legal frameworks internationally The focus of the book is on how we may reconcile high levels of information security with robust degrees of informational privacy also in connection with recent challenges presented by phenomena such as big data and security scandals as well as new legislation initiatives such as those concerning the right to be forgotten and the use of personal data in biomedical research The book seeks to offer analyses and solutions of the new tensions in order to build a fair shareable and sustainable balance in this vital area of human interactions

Indian and American Perspectives on Technological Developments in the Maritime Domain and Their Strategic Implications in the Indian Ocean Region Vice Admiral Pradeep Kaushiva, Commander Kamlesh K Agnihotri, 2013-04-15 The maritime domain hosting the highways of global prosperity through trade industrial raw material and energy links rates high in its potential for conflict As the global pendulum of

economic vibrancy swings eastwards the Indian Ocean Region IOR has been receiving increasing attention from all actors state as well as non state ones and now presents itself in sharp focus as one of the volatile seascapes on this earth The navies operating in the region will therefore need to depend on high technology and associated doctrines and procedures so as to effectively deal with the wide spectrum of challenges therein It will also become incumbent upon such littoral states as can afford the high cost of technology to catch up so as to maintain their relevance in the great game being played out in their very own backyard The United States as a leader in inventing and exploiting technology sets its own benchmarks in internalization of advanced technologies to undertake maritime missions at and from the sea in support of its military operations ashore China on the other hand has been striving towards achieving asymmetric war fighting capabilities supported by other developing technologies as well as core capabilities like the Beidou position fixing system which would be central to network centric operations including missile guidance systems As the IOR increasingly transforms into an arena of extra regional power play the implications of technologically enabled confrontations and their impact on resident states are poised to weigh in on a scale never imagined before There is thus a greater need for India to gain in depth knowledge of and develop a perspective on advanced technology sensors weapons supporting infrastructures doctrines and futuristic concepts in the maritime domain and their potential as strategic game changers in the IOR This book aims to foster greater understanding of the challenges facing the IOR and also look at how the technological advances in the maritime domain may possibly handle such challenges It should provide useful resource material to those investigating the impact of technology on meeting the maritime challenges in the IOR
