[Spirit Possession and Spirit Mediumship in Africa and Afro-America](#) Irving Zaretsky, Cynthia Shambaugh, 2019-06-19 Originally published in 1978, *Spirit Possession and Spirit Mediumship in Africa and Afro America* is an incredibly diverse and comprehensive bibliography on published works containing ethnographic data on and analysis of spirit possession and spirit mediumship in North and Sub-Saharan Africa and in some Afro-American communities in the Western Hemisphere. The sources on Western Afro-American communities were chosen to shed light on the African continent and the Americas. The bibliography, while not exhaustive, provides extensive research on the area of research in spiritualism in Africa and Afro-America. The bibliography also provides unique sources on spirit cults, ritual, or ethnic groups and will be of especial interest to researchers. Although published in the late 70s, this book will still provide an incredibly useful research tool for academics in the area of religion with a focus on spiritualism and non-western religions.

Witchcraft, Demonology and Magic Marina Montesano, 2020-05-20 Witchcraft and magic are topics of enduring interest for many reasons The main one lies in their extraordinary interdisciplinarity anthropologists folklorists historians and more have contributed to build a body of work of extreme variety and consistence Of course this also means that the subjects themselves are not easy to assess In a very general way we can define witchcraft as a supernatural means to cause harm death or misfortune while magic also belongs to the field of supernatural or at least esoteric knowledge but can be used to less dangerous effects e g divination and astrology In Western civilization however the witch hunt has set a very peculiar perspective in which diabolical witchcraft the invention of the Sabbat the persecution of many thousands of mostly female and sometimes male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft This Special Issue of Religions dedicated to Witchcraft Demonology and Magic features nine articles that deal with four different regions of Europe England Germany Hungary and Italy between Late Medieval and Modern times in different contexts and social milieus Far from pretending to offer a complete picture they focus on some topics that are central to the research in those fields and fit well in the current cumulative concept of Western witchcraft that rules out all mono causality theories investigating a plurality of causes
