items you can't purchase at a local grocery. In this course we create potions which are not drinks. You sprinkle them around the house or outside. The only exceptions are a couple recipes from the Kitchen Magic genre for example fresh cucumber and basil enchanted water. Along with magic we'll learn a few facts of history and science such as: What is the oldest tree in the world? Who invented glass windows and what were windows like before glass? What is the Archimedes Principle? Why don't big heavy ships sink? What do salad and salary have in common? What is the meaning of Mon in Monday, Tues in Tuesday, Wednes in Wednesday and so on? Who invented paper and what did people write on before paper? What is the origin of the words paper, book and library? What is the alchemical symbol for salt? Where do cinnamon and cloves come from? What is the Ogham alphabet? Who caught the Midgard Serpent? And more. I will also address the two questions my Magic Academy students ask me most often: Are love potions real and Are fairies real. I'd like to warn you that at the risk of disappointing your child I have to be honest answering these questions since this is a school textbook not a fantasy fiction novel like Harry Potter.
