Hedda Gabler and Other Plays Henrik Ibsen,2003-10-30 In these three unforgettably intense plays Henrik Ibsen explores the problems of personal and social morality that he perceived in the world around him and in particular the complex nature of truth The Pillars of the Community 1877 depicts a corrupt shipowner s struggle to hide the sins of his past at the expense of another man s reputation while in The Wild Duck 1884 an idealist believing he must tell the truth at any cost destroys a family by exposing the lie behind his friend s marriage And Hedda Gabler 1890 portrays an unhappily married woman who is unable to break free from the conventional life she has created for herself with tragic results for the entire family

A Doll's House and Other Plays Henrik Ibsen,2016-09-13 Four of Ibsen s most important plays in superb modern translations part of the new Penguin Ibsen series With her assertion that she is first and foremost a human being rather than a wife mother or fragile doll Nora Helmer sent shockwaves throughout Europe when she appeared in Henrik Ibsen s greatest and most famous play A Doll s House Ibsen s follow up Ghosts was no less radical with its unrelenting investigation into religious hypocrisy family secrets and sexual double dealing These two masterpieces are accompanied here by The Pillars of Society and An Enemy of the People both exploring the tensions and dark compromises at the heart of society

The Fiction of Relationship Arnold Weinstein,2014-07-14 A clear and straightforward discussion of the ways in which literatures and their comparative study must depend upon the problematics of interpersonal and other relations This study will prove as useful as it is wide ranging and indeed comparative in the good sense Mary Ann Caws Graduate School City

University of New York Here is a comparatist working at the peak of his powers Weinstein moves easily from Goethe and Flaubert to Kafka or Joyce or Boris Vian Locating fictions of relationship at the heart of both literary criticism and human affairs and acknowledging his own distinctly humanistic concerns Weinstein writes in an urgent tone and eloquent voice inflecting the theme of relationship in every way in its surrender to the erotic its frenzied drive for control of the Other in its ability to confer identity or eclipse difference When he couples texts e g William Burroughs Naked Lunch and C de Laclos s Les liaisons dangereuses he takes risks that bear brilliant fruit Exploring famous texts and relatively unknown ones Weinstein infuses the traditional study of fiction with new energy Choice Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Ibsen Cycle Brian Johnston,1992 Attempting no less a task than to demonstrate that Ibsen planned his last twelve plays beginning with Pillars of Society as a cycle paralleling exactly Hegel s account of the evolution of the human consciousness The Phenomenology of Mind Johnston offers a fresh look at the Norwegian master Although there is little specific biographical data in support of the author s thesis he argues compellingly for it in his analysis of the texts themselves After discussing Hegel s dramatic method of exposition and Ibsen s philosophy Johnston examines each of the twelve plays in considerable detail Provocative and sophisticated in its approach this volume should be widely available to scholars and advanced students of modern drama Library Journal
