A Cultural History of Furniture in the Age of Empire and Industry Catherine L. Futter,Christina M. Anderson,2022-02-24 The 19th century in Western culture was a time of both confidence and turbulence Industrial development produced a growing middle class as well as efficiency convenience and innovation across a range of fields from engineering to architecture Alongside these improvements the century began with the extended period of the Napoleonic Wars and was further disrupted by rebellions and revolutions both within Europe and in India South America and other parts of the world Slavery was abolished and urbanization increased dramatically These myriad developments were reflected throughout the period in the proliferation of types of furniture along with their categorization as industrial art at the international exhibitions

and world fairs and the increasingly adventurous range of materials that were sometimes used in their construction. Nonetheless a strong antiquarian historicist strand also prompted interest in the revival of past styles in areas of art and design including furniture. Drawing upon a wealth of visual and textual sources this volume of *A Cultural History of Furniture* presents essays that examine key characteristics of the furniture of the period on the themes of design and motifs, makers, making and materials, types and uses, the domestic setting, the public setting, exhibition and display, furniture and architecture, visual representations and verbal representations. *Natural History*, 1987. *English Literature, Volume 2* Louis A. Landa, 2015-12-08. Two volumes containing the annual bibliographies of 18th century scholarship published in the *Philological Quarterly*. An excellent aid to the student of 18th century literature. *Saturday Review* Volume 2, 1939-1950. Includes consolidated index for both volumes. Originally published in 1952. The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **History of the Literary Cultures of East-Central Europe** Marcel Cornis-Pope, John Neubauer, 2010-09-29. Types and stereotypes is the fourth and last volume of a path breaking multinational literary history that incorporates innovative features relevant to the writing of literary history in general. Instead of offering a traditional chronological narrative of the period 1800-1989, the *History of the Literary Cultures of East Central Europe* approaches the region's literatures from five complementary angles: focusing on literature's participation in and reaction to key political events, literary periods and genres, the literatures of cities and sub-regions, literary institutions and figures of representation. The main objective of the project is to challenge the self-enclosure of national literatures in traditional literary histories, to contextualize them in a regional perspective and to recover individual works, writers and minority literatures that national histories have marginalized or ignored. *Types and stereotypes* brings together articles that rethink the figures of National Poets, figurations of the Family, Women, Outlaws and Others, as well as figures of Trauma and Mediation. As in the previous three volumes, the historical and imaginary figures discussed here constantly change and readjust to new political and social conditions. An Epilogue complements the basic history, focusing on the contradictory transformations of East Central European literary cultures after 1989. This volume will be of interest to the region's literary historians, to students and teachers of comparative literature, to cultural historians and to the general public interested in exploring the literatures of a rich and resourceful cultural region. **The Nurse in History and Opera** Judith Barger, 2024-04-08. From Scarabea Artusa's old nurse in Francesco Mannelli's *La Maga Fuminata* 1638 Venice through the Canadian nursing sisters in Stephanie Martin's *Llandovery Castle* 2018 Toronto, over one hundred nurse characters appear in opera roles ranging from silent cast extra to principal singer. *The Nurse in History and Opera: From Servant to Sister* explores

that role over the span of opera's existence Judith Barger examines the nurse character in opera within the sociohistorical context of her real life counterparts off stage the progression of the nurse from servant to sister both inside and outside the opera house is a commentary on how society has viewed its women The book then discusses textual and musical interactions between opera's nurses and other characters with attention to what the nurse's role contributes to opera in six categories identified as common to opera's nurses Comic Former Knowledgeable Motherly Scheming and Specialized When viewed through the lens of social history opera's nurse characters merit attention for the glimpse that they offer of a unique musical and dramatic journey from servant to sister and for the commentary that they offer on women's perceived place and status not only on the opera stage but in society as well View the author's website here Judith Barger Author Nurse Historian Music Scholar *Recording for the Blind & Dyslexic, ...
