Masterworks Of Ukiyoe Sharaku:

Sharaku Jūzō Suzuki, 1968 **Picturing the Floating World** Julie Nelson Davis, 2021-08-31 Today we think of ukiyo e the pictures of the floating world as masterpieces of Japanese art highly prized throughout the world Yet it is often said that ukiyo e were little appreciated in their own time and were even used as packing material for ceramics In *Picturing the Floating World* Julie Nelson Davis debunks this myth and demonstrates that ukiyo e was thoroughly appreciated as a field of artistic production worthy of connoisseurship and canonization by its contemporaries Putting these images back into their dynamic context she shows how consumers critics and makers produced and sold appraised and collected and described and recorded ukiyo e She recovers this multilayered world of pictures in which some were made for a commercial market backed by savvy entrepreneurs looking for new ways to make a profit while others were produced for private coterie and high ranking connoisseurs seeking to enrich their cultural capital The book opens with an analysis of period documents to establish the terms of appraisal brought to ukiyo e in late eighteenth century Japan mapping the evolution of the genre from a century earlier and the development of its typologies and the creation of a canon of makers both of which have defined the field ever since Organized around divisions of major technological and aesthetic developments the book reveals how artistic practice and commercial enterprise were intertwined throughout ukiyo e s history from its earliest imagery through the twentieth century The depiction of particular subjects in and for the floating world of urban Edo and the process of negotiating this within the larger field of publishing are examined to further ground ukiyo e as material culture as commodities in a mercantile economy *Picturing the Floating World* offers a new approach a critical yet accessible analysis of the genre as it was developed in its social cultural and political milieu The book introduces students collectors and enthusiasts to ukiyo e as a genre under construction in its own time while contributing to our understanding of early modern visual production **Painting the Floating World** Janice Katz, Mami Hatayama, 2019-01-08 From the 17th through the 19th century artists in Kyoto and Edo now Tokyo captured the metropolitan amusements of the floating world ukiyo in Japanese through depictions of subjects such as the beautiful women of the Yoshiwara pleasure quarters and performers of the kabuki theater In contrast to ukiyo e prints by artists such as Katsushika Hokusai which were widely circulated ukiyo e paintings were specially commissioned unique objects that displayed the maker s technical skill and individual artistic sensibility Featuring more than 150 works from the celebrated Weston Collection the most comprehensive of its kind in private hands and published here for the first time in English this lavishly illustrated and meticulously researched volume addresses the genre of ukiyo e painting in all its complexity Individual essays explore topics such as shunga erotica mitate e images that parody or transform a well known story or legend and poetic inscriptions revealing the crucial role that ukiyo e painting played in a sophisticated urban culture *The Sakai Collection* Nobuo Sakai, 1978 *The Last Tosa* Sandy Kita, 1999-01-01 Iwasa Katsumochi Matabei 1578 1650 is one of the most controversial figures in Japanese art history For

more than half a century historians have argued over Matabei's role in Japanese art. Was he as he asserted The Last Tosa the school of painters who specialized in Yamato e a kind of classical courtly painting or as others characterized him The Founder of Ukiyo e the style of painting associated with the urban commoner class. In this highly original and convincing study Matabei emerges as both an artist in whose work can be seen elements of both Yamato e and Ukiyo e. Extending its analysis beyond the individual artist The Last Tosa examines the trends and artistic developments of a transitional period and makes heretofore unexamined connections between the world of the aristocrat and the merchant as well as the two artistic schools that reflected their tastes.
