Peel, 2021-08-31 This book traces the intellectual journey of a Christian minister and theologian Starting with his discovery of God through a love of the natural world David Peel s encounter with thinkers from his Reformed tradition and extensive ecumenical involvement takes him to a revisionary theology which meets his attempt to integrate a scientific background with the Christian faith Essays written during his career illustrate the path he has taken The topics covered include theological method the centrality of theology for the church s life and work a sacramental view of ministry the missional church biblical authority nonconformity s gifts to the contemporary church and theological education Peel s theological approach is as critical of inadequate theologies inherited from the past as it is determined to construct a Christian narrative which satisfies twin requirements first being congruent with the Jesus tradition and secondly convincing the minds reaching

the hearts and driving the commitments of contemporary people Both ministers and church members are challenged to view their own theological journeys as God given vocations
