Committee**

Men And Women In Medical School How They Change And How They Compare:

Men and Women in Medical School Jane Leserman,1981 **Health and Canadian Society** David Coburn,Carl D'Arcy,George Murray Torrance,1998-01-01 Health and Canadian Society provides a comprehensive overview of the relationship between health health care and Canadian society It is a wide ranging volume that moves from personal and micro concerns to a more macro and institutional focus It includes chapters of a descriptive nature and others with a more explanatory intent They have been selected from the major journals or have been expressly written for this book Ninety five percent of the contributions are new to this edition The chapters and the studies reported on are methodologically diverse ranging from ethnographic studies to statistical analyses of data from large national surveys Though the chapters are written by anthropologists economists historians political scientists and physicians as well as sociologists they all have a sociological turn Recognized as the standard textbook on the sociology of health in Canada Health and Canadian Society is an essential reference for sociologists health care providers health administrators and policy planners **Debates on U.S. Health Care** Jennie Jacobs Kronenfeld,Wendy E. Parmet,Mark A. Zezza,2012-09-27 This issues based reference work available in both print and electronic formats shines a spotlight on health care policy and practice in the United States Impassioned debates about the best solutions to health care in America have perennially erupted among politicians scholars of public policy medical professionals and the general public The fight over the Health Care Reform Act of 2010 brought to light a multitude of fears challenges obstacles and passions that often had the effect of complicating rather than clarifying the debate The discourse has never been more heated The complex issues that animate the health care debate have forced the American public to grapple with the exigencies of the present system with regard to economic fiscal and monetary policy especially as they relate to philosophical often ideologically driven approaches to the problem Americans have also had to examine their ideas about the relationship of the individual to and interaction with the state and the varied social and cultural beliefs about what an American solution to the problem of health care looks like In light of the need to keep students researchers and other interested readers informed and up to date on the issues surrounding health care in the U S this volume uses introductory essays followed by point counterpoint articles to explore prominent and perennially important debates providing readers with views on multiple sides of this complex issue Features Benefits The volume is divided into three sections each with its own Section Editor Quality of Care Debates Dr Jennie Kronenfeld Economic Fiscal Debates Dr Mark Zezza and Political Philosophical Legal Debates Prof Wendy Parmet Sections open with a Preface by the Section Editor to introduce the broad theme at hand and provide historical underpinnings Each Section holds 12 chapters addressing varied aspects of the broad theme of the section Chapters open with an objective lead in piece or headnote followed by a point article and a counterpoint article All pieces headnote point article counterpoint article are signed For each chapter students are referred to further readings data sources and other resources as a jumping off spot for further research and more in depth exploration

Finally the volume concludes with a comprehensive index and the electronic version of the book includes search and browse features as well as the ability to link to further readings cited within chapters should they be available to the library in electronic format

Biomedicine and Alternative Healing Systems in America Hans A. Baer, 2001 Examining medical pluralism in the United States from the Revolutionary War period through the end of the twentieth century Hans Baer brings together in one convenient reference a vast array of information on healing systems as diverse as Christian Science osteopathy acupuncture Santeria southern Appalachian herbalism evangelical faith healing and Navajo healing In a country where the dominant paradigm of biomedicine medical schools research hospitals clinics staffed by M D s and R N s has been long established and supported by laws and regulations the continuing appeal of other medical systems and subsystems bears careful consideration Distinctions of class Baer emphasizes as well as differences in race ethnicity and gender are fundamental to the diversity of beliefs techniques and social organizations represented in the phenomenon of medical pluralism Baer traces the simultaneous emergence in the nineteenth century of formalized biomedicine and of homeopathy botanic medicine hydropathy Christian Science osteopathy and chiropractic He examines present day osteopathic medicine as a system parallel to biomedicine with an emphasis on primary care chiropractic naturopathy and acupuncture as professionalized heterodox medical systems homeopathy herbalism bodywork and lay midwifery in the context of the holistic health movement Anglo American religious healing and folk medical systems particularly among racial and ethnic minorities In closing he focuses on the persistence of folk medical systems among working class Americans and considers the growing interest of biomedical physicians pharmaceutical and healthcare corporations and government in the holistic health movement

Sociology of Health and Illness Gillian M. Lupton, Jakob M. Najman, 1995 Second edition of a collection of readings on the health of Australians originally published in 1989 From a sociological perspective consideration is given to the major social aspects of behaviour likely to affect one's health and the outcome of any health care one may receive Discusses health services recipients of services providers of services and disease prevention and promotion Includes a bibliography and index Gillian Lupton is a senior lecturer and Jake Najman is professor of sociology in the Department of Anthropology and Sociology at the University of Queensland Lupton is co author of Society and Gender An Introduction to Sociology and Najman is the editor of A Sociology of Australian Society

Women and Work Sonia Carreon, Amy Cassedy, Kathryn Borman, Paula J. Dubeck, 2013-11-26 Focuses on vital contemporary issues Women in the work force today are still subjected to the glass ceiling sexual discrimination income inequality stereotyping and other obstacles to equal employment and professional advancement Now a collection of 150 original articles written for this handbook explores the challenges and career blocks that today's women face in the workplace discuss important contemporary issues and offers a wide range of facts and data on women's employment Offers insights and information The Handbook answer hundreds of questions as it illuminates current achievements and obstacles to success for women in the marketplace Drawing upon a

growing body of research in the social and behavioral sciences the articles provide insights into such issues as the sex segregation of occupations comparable worth women in traditionally male occupations career plans of college women gender bias in job evaluations and personnel decisions sexual harassment the gendered culture of organizations the effects of maternal employment on children and child care and more The articles draw on extensive research and studies on women in the workplace across the U S and around the world A valuable research aid This handbook presents the reader with a broadly based understanding of women's work experiences and provides a useful set of sources for in depth research It is a valuable reference for professors librarians researchers guidance counselors and students who need reliable up to date information The handbook includes a subject and name index

Gender, Class and Education (Routledge Revivals) Stephen Walker, Len Barton, 2013-11-05 First published in 1983 Gender Class and Education is a collection of papers that formed presentations at the Westhill Sociology of Education Conference in January 1982 and is the fifth such collection to emerge from the annual conference The conference theme Race Class and Gender was not only chosen because of its topicality but also to provide a framework for debate between educational researchers and teachers The papers focus on the reproduction of gender relations through education and provide important insights into how this process works how it is resisted in schools and colleges and the possibilities for radical intervention This volume includes three teaching bibliographies on gender and education which were not presented at the conference but were compiled specially for the book

Health Services Reports, 1987

American Studies Jack Salzman, American Studies Association, 1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988

The Changing Face of Medicine Ann K. Boulis, Jerry A. Jacobs, 2011-06-15 The number of women practicing medicine in the United States has grown steadily since the late 1960s with women now roughly at parity with men among entering medical students Why did so many women enter American medicine How are women faring professionally and personally once they become physicians Are women transforming the way medicine is practiced To answer these questions The Changing Face of Medicine draws on a wide array of sources including interviews with women physicians and surveys of medical students and practitioners The analysis is set in the twin contexts of a rapidly evolving medical system and profound shifts in gender roles in American society Throughout the book Ann K Boulis and Jerry A Jacobs critically examine common assumptions about women in medicine For example they find that women's entry into medicine has less to do with the decline in status of the profession and more to do with changes in women's roles in contemporary society Women physicians families are becoming more and more like those of other working women Still disparities in terms of specialty practice ownership academic rank and leadership roles endure and barriers to opportunity persist Along the way Boulis and Jacobs address a host of issues among them dual physician marriages specialty choice time spent with patients altruism versus materialism and how physicians combine work and family Women's presence in American medicine will continue to

grow beyond the 50 percent mark but the authors question whether this change by itself will make American medicine more caring and more patient centered The future direction of the profession will depend on whether women doctors will lead the effort to chart a new course for health care delivery in the United States **Public Health Reports** ,1987 *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1982 **Current Catalog** National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965 70 Careers of Professional Women Rosalie Silverstone,Audrey Ward,2022-08-24 Originally published in 1980 women in the United Kingdom exhibited a pattern of work which was notably different from that in other countries of the EEC at the time Its distinguishing feature was the high proportion of women who returned to work by the time they were forty years of age having temporarily retired to care for young families Although this pattern was of fairly recent origin it was thought likely to be sustained Women s current life pattern was typically school training work withdrawal retirement Despite the existence of this pattern agencies responsible for education training and employment failed to recognise it as normal often treating women as special cases Thus there was a lack of flexibility in employment and insufficient retraining or part time work The problem was important both for qualified women who had made a considerable personal investment in a career and for the nation in terms of effective manpower utilisation The skills required in many occupations traditionally entered by women are either learnt on the job or by means of relatively short formal training courses This book however examines in some depth seven careers which require a minimum of three years training After a foreword by Baroness Nancy Seear and a chapter which introduces the concept of the bimodal career and the consequent problems of withdrawal and re entry each chapter is written by an author who has conducted original research into the occupation under discussion and specifically into women s personal experiences in that particular calling A concluding chapter considers the implications of the findings both for the individuals concerned and for social policy Choice ,1981 *Creating Efficiency Through Comparison* United States. Congress. House. Committee on Veterans' Affairs,2015 **First Do No Self Harm** Charles Figley,Peter Huggard,Charlotte Rees,2013-09-05 First Do No Self Harm by three medical and mental health educators offers a clarion call for the improved medical and mental health of physicians across their education continuum by posing and answering five fundamental questions about sources of stress and methods of coping among physicians and medical students Returns from Universities and University Colleges in Receipt of Treasury Grant Great Britain. University Grants Committee,1925 *Journal of the American Medical Association* American Medical Association,1924 Empowerment and Becoming a Doctor Susan Tsugiko Obata,1986
