Rennie,2020-07-31 Looking at texts written throughout the careers of Edith Wharton Ellen La Motte Mary Borden Thomas Boyd F Scott Fitzgerald Laurence Stallings and Ernest Hemingway American Writers and World War I argues that authors war writing continuously evolved in response to developments in their professional and personal lives Recent research has focused on constituencies of identity such as gender race and politics registered in American Great War writing Rather than being dominated by their perceived membership of such socio political categories this study argues that writers reacted to and represented the war in complex ways which were frequently linked to the exigencies of maintaining a career as a professional author War writing was implicated in and influenced by wider cultural forces such as governmental censorship the publishing business advertising and the Hollywood film industry American Writers and World War I argues that even authors hallmark anti war works are in fact characterized by an awareness of the war s nuanced effects on society and individuals By tracking authors war writing throughout their entire careers in well known texts autobiography correspondence and neglected works this study contends that writers reactions were multifaceted and subject to change in response to their developments as writers and individuals This work also uncovers the hitherto unexplored importance of American cultural and literary precedents which offered writers means of assessing the war Ultimately the volume argues American World War I writing was highly personal complex and idiosyncratic **Student Companion to Ernest Hemingway** Lisa Tyler,2001-09-30 The fully lived

yet tragically ended life of Ernest Hemingway has attracted nearly as much attention as his extensive canon of writings This critical study introduces students to both the man and his fiction exploring how Hemingway confronted in his own life the same moral issues that would later create thematic conflicts for the characters in his novels In addition to the biographical chapter which focuses on the pivotal events in Hemingway s personal life a literary heritage chapter overviews his professional developments relating his distinctive style to his early years as a journalist With clear concise analysis students are guided through all of Hemingway s major works including *The Sun Also Rises* 1926 *A Farewell to Arms* 1929 *For Whom the Bell Tolls* 1940 and *The Old Man and the Sea* 1952 Full chapters are also devoted to examining his collections of short fiction the *African Stories* and the posthumous works Each chapter carefully examines the major literary components of Hemingway s fiction with plot synopsis analysis of character development themes settings historical context and stylistic features Alternate critical readings are also given for each of the full length works An extensive bibliography citing all of Hemingway s writings as well as biographical sources general criticism and contemporary reviews will help students understand the scope of Hemingway s contributions to American Literature

Embattled Home Fronts Karsten H. Piep, 2009-01-01 *Embattled Home Fronts* is an inquiry into the highly conflicted US American experience of World War I as it plays itself out in the diverse body of novelistic works to which it has given rise and by which it has been in turn shaped and commemorated As such this book naturally concerns itself with the formal aspects of artistic war representation But rather than merely endeavoring to illustrate how American writers from various backgrounds chose to depict World War I the present work seeks to uncover the particular ideologies and political practices that inform these representational choices To this end *Embattled Home Fronts* examines both canonized and marginalized US American World War I novels within the context of contemporaneous debates over shifting class gender and race relations The book contends that American literary representations of the Great War are shaped less by universal insights into modern society's self destructiveness than by concerted efforts to fashion class gender and race specific experiences of warfare in ways that stabilize and heighten political group identities In moving beyond the customary focus on ironic war representations *Embattled Home Fronts* illustrates that the representational and ideological battles fought within American World War I literature not only shed light on the emergence of powerful identity political concepts such as the New Woman and the New Negro but also speak to the reappearance of utopian communitarian and social protest fictions in the early 1930s This study *Embattled Home Fronts* provides a new understanding of the relationship between war literature and home front politics that should be of interest to students and scholars working from a variety of disciplines and perspectives

The Nonconformists Brian K. Goodman, 2023-06-20 How risky encounters between American and Czech writers behind the Iron Curtain shaped the art and politics of the Cold War and helped define an era of dissent In some indescribable way we are each other's continuation Arthur Miller wrote of the imprisoned Czech playwright Václav Havel After a Soviet led invasion ended the Prague Spring many US based writers experienced a similar shock of solidarity Brian Goodman examines the surprising and consequential connections between American and Czech literary cultures during the Cold War connections that influenced art and politics on both sides of the Iron Curtain American writers had long been attracted to Prague a city they associated with the spectral figure of Franz Kafka Goodman reconstructs the Czech journeys of Allen Ginsberg Philip Roth and John Updike as well as their friendships with nonconformists like Havel Josef Kvasil Ivan Klíma and Milan Kundera Czechoslovakia meanwhile was home to a literary counterculture shaped by years of engagement with American

sources from Moby Dick and the Beats to Dixieland jazz and rock n roll Czechs eagerly followed cultural trends in the United States creatively appropriating works by authors like Langston Hughes and Ernest Hemingway sometimes at considerable risk to themselves The Nonconformists tells the story of a group of writers who crossed boundaries of language and politics rearranging them in the process The transnational circulation of literature played an important role in the formation of new subcultures and reading publics reshaping political imaginations and transforming the city of Kafka into a global capital of dissent From the postwar dream of a Czechoslovak road to socialism to the neoconservative embrace of Eastern bloc dissidence on the eve of the Velvet Revolution history was changed by a collision of literary cultures
