GEORGE MEREDITH

By J. B. PRIESTLEY

Mr. Priestley gives both a biography of Meredith and a critical study of his work. He tells of Meredith's parentage, about which the author himself was always most reticent, his lonely boyhood, his unfortunate marriage, his activities in journalism, his love of long walks and good cooking, and his growing success as a writer. But the main purpose of the book is criticism, and its chapters on Meredith's attitude to man and to nature, his poetry, and his fiction are written both with appreciation and with a noteworthy sense of literary values.

Erasmus, Contarini, and the Religious Republic of Letters Constance M. Furey, 2006 Though the paradigm of modernist progression has been challenged on many fronts Erasmus and other sixteenth century figures are still commonly viewed as people who led the transition from a religious Middle Ages to a more godless modern era Erasmus Contarini and the Religious Republic of Letters published in 2005 complicates this transition by analysing a unique realm of spiritualised scholarship that cannot fit easily into any conventional intellectual chronology By analysing the lives work and correspondence of Erasmus Thomas More Margaret More Roper Reginald Pole Gasparo Contarini and Vittoria Colonna this book demonstrates how these Catholic men and women of letters created a distinctive kind of religious community rooted in friendship and spiritualised scholarship By spanning the too frequently respected gap between humanist reformers in northern and southern Europe the book uncovers a widespread if previously less visible network that exhibited concerns we still grapple with today

Eighteenth century French cultural life was often characterised by quarrels and the arrival of Viennese composer Christoph Willibald Gluck in Paris in 1774 was no exception sparking a five year pamphlet and press controversy which featured a rival Neapolitan composer Niccolò Piccinni However as this study shows the Gluck Piccinni controversy was about far more than which composer was better suited to lead French operatic reform A consideration of cultural politics in 1770s Paris shows that a range of issues were at stake court versus urban taste as the proper judge of music whether amateurs or specialists should have the right to speak of opera whether the epic or the tragic mode is more suited for drama reform and even why should the public argue about opera at all Mark Darlow is Senior Lecturer in French at the University of Cambridge
