

WHY IT'S IMPORTANT TO BUILD A MENTAL HEALTH SUPPORT NETWORK

 @BELIEVEPHQ

Because it is important to have someone who cares about your mental health

Because it is important to have someone who you can trust

Because it is important to have someone who will regularly check up on you

Because it is important to connect with people on a regular basis

Because it is important to have someone who watches out for you

Because it is important to have someone who listens to you

Because it is important to have someone who can motivate you

Because it is important to have someone who encourages you

Because it is important to have the right people to support you

Because it is important to have someone who can help solve problems with you

Perry, Bernice A. Pescosolido, Stephen P. Borgatti, 2018-03-22 An in depth comprehensive and practical guide to egocentric network analysis focusing on fundamental theoretical research design and analytic issues Social Support Networks James K. Whittaker, James Garbarino, This book offers for the first time a clear conception of what social support networks are why they are important how they are identified and sustained where they fit in an overall framework of human services and their limits and potential in selected fields of practice Individual chapters explore child adolescent and family services daycare and early childhood development divorced and stepfamilies schools delinquency prevention and treatment mental health service to the elderly development disabilities healthcare and health promotion and drug treatment The use of social support networks extended family friends neighbors and other informal helpers is an idea whose time has come in the human services field At a time when spiraling costs and popular sentiment weigh against any major expansion of services it is apparent that a service strategy based primarily on the notion of professional helping delivered on a case by case basis usually in a one to one relationship has serious limitations Professional response to this major work has been uniformly positive The editors have assembled a book of considerable importance brilliant in both scholarship and construction will appeal to a broad readership Gerald Euster University of South Carolina offers a much needed balance to the focus on individual and internal dynamics which has characterized social work education for several decades Eleanor Reardon Tolson University of Chicago Social Support Networks is a valuable contribution a unique original and authoritative book an exciting timely and definitely practice oriented book with a strong theoretical and research base Anthony N Maluccio University of Connecticut James K Whittaker is professor of social work at the University of Washington A former childcare worker therapist and administrator in residential childcare he has been a consultant to governmental and voluntary children s agencies throughout the United States James Garbarino is Elizabeth Lee Vincent Professor of Human Development in the College of Human Ecology at Cornell University He was president of the Erikson Institute for Advanced Study in Child Development Chicago Illinois from 1985 to 1994 He is the co author of *Troubled Youth Troubled Families* also available from AldineTransaction **Stigma: An Ethnography Of Mental Illness And Hiv/aids In China** Jinhua Guo, 2016-02-04 Based on two and a half years of fieldwork in China this book examines the cultural genesis and social mechanisms of stigma related to mental illness and HIV AIDS in China It also explores the bio politics on stigma through detailed description of social exclusion experienced by people suffering from mental illness or HIV

AIDS and by systematic comparison on stigma between the two illnesses in the Chinese context Through the comparison this book describes the micro socio dynamic process of stigmatization in the local Chinese context highlights the identity transformation accompanying the illness trajectory the patients and their families have lived through and ultimately connects Chinese society and its community centered social value system and institutional arrangement to the stigma associated with mental illness and HIV AIDS

DSM-5® Handbook on the Cultural Formulation Interview Roberto Lewis-Fernández, Neil K. Aggarwal, Ladson Hinton, Devon E. Hinton, Laurence J. Kirmayer, 2015-05-06 DSM 5 Handbook of the Cultural Formulation Interview provides the background context and detailed guidance necessary to train clinicians in the use of the Cultural Formulation Interview CFI which was created as part of the 2007 2013 DSM revision process The purpose of the CFI and this unique handbook is to make it easier for providers to account for the influence of culture in their clinical work to enhance patient clinician communication and improve outcomes Cultural psychiatry as a field has evolved enormously from the days when it was principally concerned with epidemiological and clinical studies of disease prevalence it now examines a multitude of issues primary among them the differing patient family and practitioner models of illness and treatment experiences within and across cultures The editors all of whom have been intimately involved in the evolution of the field have designed the book and accompanying videos for maximum instructional and clinical utility The Handbook boasts many strengths and useful features including A detailed description of each of the three CFI components a core 16 item questionnaire which can be applied in any clinical setting with any patient by any mental health clinician an informant version of the core CFI used to obtain information from caregivers and 12 supplementary modules that expand on these basic assessments This material facilitates implementation of the CFI by clinicians Over a dozen clinical vignettes are included to illustrate use of the three components and the Handbook also includes multiple videos that demonstrate the application of portions of the core CFI and several supplementary modules Strategies for incorporating the CFI into clinical training are identified and discussed furthering the objective of developing culturally sensitive and astute practitioners The theoretical bases of the CFI are explored raising questions for discussion and identifying areas for further research The CFI is a valuable tool for all patients not just those judged to be culturally different The CFI has been called the single most practically useful contribution of cultural psychiatry and medical anthropology to clinical psychiatry primary care and medicine in general DSM 5 Handbook on the Cultural Formulation Interview is the only book on the market that equips readers with the skills and insight to incorporate the CFI into practice making it a critically important addition to the clinical literature

Social Media in Medicine Margaret Chisolm, 2018-02-05 The use of social media around the world has exploded in recent years with the number of monthly active users of Facebook and Twitter estimated to be one billion and one quarter billion respectively Physicians and medical trainees are among the users of social media raising questions of how Facebook Twitter and other novel online tools may best be harnessed to further medical research patient care and educational pursuits

Because social media enables an immediate exchange of information and ideas around shared areas of interest it has fostered communication and collaboration among a global network of researchers clinicians patients and learners Social Media in Medicine reviews a range of topics from research ethics to medical education and includes personal reflections by clinicians and learners that represent diverse opinions about the role of social media in medicine The book is relevant to all healthcare stakeholders and will hopefully encourage ideas and questions to generate more research into the use of social media in medical research patient care and education This book was originally published as a special issue of the International Review of Psychiatry
