Ministry By The People Theological Education By Extension:

Ministry by the People F. Ross Kinsler, *Ministry by the People* F. Ross Kinsler, 1983 Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner

Understanding and Developing Theological Education Bernhard Ott, 2016-01-31 Historically education has been driven from behind the history and above the educational institution Traditions and adherence requirements have led to inflexible models of school leadership that are focused on administration and rife with educational politics In contrast today s theological landscape needs institutions with a grassroots driven educational system looking to a future that is biblically and theologically grounded This publication an English translation from the original German focuses on the leadership and curriculum development required for such a paradigm shift Ott comprehensively assesses trends in current theological education across the world with detailed reference to wider trends in global tertiary education Written primarily for those in leadership roles at theological schools and training institutions this handbook is an essential resource for equipping the next generation of leaders in theological education

Towards a Malawian Theology of Laity Volker Glissmann, 2021-01-29 A key theological emphasis of the church is the priesthood of all believers This emphasis implies that lay empowerment and lay participation are central to what the church does Yet lay participation is a bit of an unfulfilled promise in many cases This book brings together church leaders theological educators as well as practitioners who are actively involved in lay ministry here in Malawi so that a stronger theology of laity for the Malawian church can emerge
