Twin Cities Then and Now Larry Millett,1996 Twin Cities Then and Now is an engaging startling and at times heartbreaking look at the dramatic evolution of landscapes in Minneapolis and St Paul Larry Millett author of *Lost Twin Cities* explores the changing appearances of Minneapolis and St Paul from the vantage point of their relatively static streets Seventy two historic photographs taken from the 1880s to the late 1950s are paired with Jerry Mathiason s elegant new black and white photographs to provide superb visual comparisons between then and now Millett s lively and informative essays examine the often astonishing changes wrought by time and circumstance Maps and detailed informational graphics provide orientation and identify hundreds of significant buildings and places in the photographs

The Rise of Stadiums in the Modern United States Mark Dyreson,Robert Trumbour,2013-09-13 Many Americans know more about the stadiums that loom over their cityscapes or college campuses than they do about any other aspect of the nation s geography Stadiums serve as iconic monuments of urban and university identities Indeed the power of sport in modern American culture has produced sportscapes landscapes literally shaped by their devotion to athletic competition Curiously given the importance of the secular cathedrals in American culture historians have paid little attention to these

edifices The Rise of Stadiums in the Modern United States Cathedrals of Sport seeks to remedy that oversight This book will analyze stadiums from a variety of perspectives paying special attention to the links between the built environment in which Americans watch and play games and the larger social environments that the nation s sporting practices inhabit The Rise of Stadiums in the Modern United States Cathedrals of Sport explores the role of stadiums in shaping urban identities determining the economics of intercollegiate athletics influencing local and national politics This book was previously published as a special issue of the International Journal of the History of Sport

Norwegian American Women Betty A. Bergland, Lori Ann Lahlum, 2011 Explores the vital role of women in the creation of Norwegian American communities from farm to factory and as caregivers educators and writers

Metropolitics Myron Orfield, 2011-12-01 Metropolitan communities across the country are facing the same seemingly unsolvable problems the concentration of poverty in central cities with flashpoints of increasing crime and segregation declining older suburbs and vulnerable developing suburbs and costly urban sprawl with upper middle class residents and new jobs moving further and further out to an insulated favored quarter Exacerbating this polarization the federal government has largely abandoned urban policy Most officials educators and citizens have been at a loss to create workable solutions to these complex widespread trends And until now there has been no national discussion to adequately and practically address the future of America s metropolitan regions Metropolitics is the story of how demographic research and state of the art mapping together with resourceful and pragmatic politics built a powerful political alliance between the central cities declining inner suburbs and developing suburbs with low tax bases In an unprecedented accomplishment groups formerly divided by race and class poor minority groups and blue collar suburbanites together with churches environmental groups and parts of the business community began to act in concert to stabilize their communities The Twin Cities of Minneapolis and St Paul believed that they were immune from the forces of central city decline urban sprawl and regional polarization but the 1980s hit them hard The number of poor and minority children in central city schools doubled from 25 to 50 percent segregation rapidly increased distressed urban neighborhoods grew at the fourth fastest rate in the United States and the murder rate in Minneapolis surpassed that of New York City These changes tended to accelerate and intensify as they reached middle and working class bedroom communities which were less able to respond and went into transition far more rapidly On the other side of the region massive infrastructure investment and exclusive zoning were creating a different type of community In white collar suburbs with high tax bases where only 27 percent of the region s population lived 61 percent of the region s new jobs were created As the rest of the region struggled these communities pulled away physically and financially In this powerful book Myron Orfield details a regional agenda and the political struggle that accompanied the creation of the nation s most significant regional government and the enactment of land use fair housing and tax equity reform legislation He shows the link between television and talk radio sensationalism and bad public policy and conversely how a well delivered message can ensure broad press coverage of

even complicated issues Metropolitica and the experience of the Twin Cities show that no American region is immune from pervasive and difficult problems Orfield argues that the forces of decline sprawl and polarization are too large for individual cities and suburbs to confront alone The answer lies in a regional agenda that promotes both community and stability Copublished with the Lincoln Institute of Land Policy **Indigenous Cities** Laura M. Furlan, 2017-11-01 A critical study of contemporary American Indian narratives set in urban spaces that reveals how these texts respond to diaspora dislocation citizenship and reclamation **Shaping the Metropolis** Zack Taylor, 2019-05-23 Rising income inequality and concentrated poverty threaten the social sustainability of North American cities Suburban growth endangers sensitive ecosystems water supplies and food security Existing urban infrastructure is crumbling while governments struggle to pay for new and expanded services Can our inherited urban governance institutions and policies effectively respond to these problems In *Shaping the Metropolis* Zack Taylor compares the historical development of American and Canadian urban governance both at the national level and through specific metropolitan case studies Examining Minneapolis St Paul and Portland Oregon in the United States and Toronto and Vancouver in Canada Taylor shows how differences in the structure of governing institutions in American states and Canadian provinces cumulatively produced different forms of urban governance Arguing that since the nineteenth century American state governments have responded less effectively to rapid urban growth than Canadian provinces he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War while dispersed authority in American state governments fostered indecision and catered to parochial interests Most contemporary policy problems and their solutions are to be found in cities *Shaping the Metropolis* shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future *The Infamous Harry Hayward* Shawn Francis Peters, 2018-04-03 A fascinating tale of seduction murder fraud coercion and the trial of the Minneapolis Monster On a winter night in 1894 a young woman s body was found in the middle of a road near Lake Calhoun on the outskirts of Minneapolis She had been shot through the head The murder of Kittie Ging a twenty nine year old dressmaker was the final act in a melodrama of seduction and betrayal petty crimes and monstrous deeds that would obsess reporters and their readers across the nation when the man who likely arranged her killing came to trial the following spring Shawn Francis Peters unravels that sordid spellbinding story in his account of the trial of Harry Hayward a serial seducer and schemer whom some deemed a Svengali others a Machiavelli and others a lunatic and man without a soul Dubbed one of the greatest criminals the world has ever seen by the famed detective William Pinkerton Harry Hayward was an inveterate and cunning plotter of crimes large and small dabbling in arson insurance fraud counterfeiting and illegal gambling His life story told in full for the first time here takes us into shadowy corners of the nineteenth century including mesmerism psychopathy spiritualism yellow journalism and capital punishment From the horrible fate of an

independent young businesswoman who challenged Victorian mores to the shocking confession of Hayward on the eve of his execution which if true would have made him a serial killer The Infamous Harry Hayward unfolds a transfixing tale of one of the most notorious criminals in America during the Gilded Age **City-building In America** Anthony M Orum,2018-10-08 Why do some cities grow and expand while others dwindle and decline Why is Milwaukee a town of the past while Minneapolis St Paul seems reborn and infused with future dynamism And what do Milwaukee and the Twin Cities have to tell us about other cities prospects the trials and destinies of industrial Cleveland and post industrial Austin Anthony Orum s new book tells the story of these cities and at the same time of all cities Here the urban past present and future are woven into one compelling tale Orum traces the shift in the sources of urban growth from entrepreneurs to institutions and highlights the emergence of local government as a prominent force indeed as an institution in shaping the trajectory of the urban industrial heartland This complex trajectory includes all aspects of urban boom and bust population trends economic prosperity politics and culture as well as hard to pin down qualities like a city s collective hope and vision Interspersing social theory historical ethnography and comparative analysis to help explain the fates of different cities Orum lucidly portrays factory openings labor strikes elections evictions urban blight white flight recession and rejuvenation to show the core histories and future shape of cities beyond the particulars presented in these pages The reader will discover the key people and politics of cities along with the forces that direct them With a rich variety of sources including newspapers diaries census materials maps photo essays and perhaps most captivating original oral histories City Building in America is ideal for anyone interested in urban transformation and for courses in urban sociology urban politics industrial sociology social change and social mobility **The Arc of the Covenant** Earl Schwartz,2019-07-08 The Arc of the Covenant studies the social cultural and political factors that contributed to exceptional Jewish educational success in St Paul Minnesota in the latter half of the twentieth century The book draws on archival sources interviews with principal figures and wide ranging research on Jewish education and community dynamics to elucidate the story s intriguing improbabilities Why such success in a midsize midcentury midwestern river town with a relatively small Jewish population of limited resources How did it happen and how have circumstances changed in recent years The answers are to be found at the intersection of broad historical forces and local circumstances Though focused on a particular place and time the implications reach far beyond St Paul then and now making Arc of the Covenant a timely resource for current Jewish educational planners along with educators in other communities dedicated to the transmission of a sacred heritage *River of History* John O.
