Hopper, Grace. "History of Programming Languages I." *Keynote Address*. Ed. Richard Wexelblat. ACM New York, 1 June 1978. Web.
<<http://dl.acm.org/citation.cfm?id=800025>>

This documentation comes from a keynote address Hopper gave about the birth of the computing industry and her remarks about the progression of the industry. Within the document itself, Hopper appears as the opening address to a technical conference held in 1978 aimed at recording the history of programming languages. From this keynote address, we were able to understand how Hopper saw innovation as a process to something greater than the innovation itself.

McGee, Russell. "My Adventures with Dwarfs: A Personal History in Mainframe Computers." *University of Minnesota Libraries*. Web.
<http://www.cbi.umn.edu/hostedpublications/pdf/McGee_Book-4.2.2.pdf>

In this autobiography by McGee, McGee talks about his life and mentions various encounters with Grace Hopper. In these encounters with Hopper, he discusses his impressions about Hopper and notes a few of her achievements. In this autobiography, McGee also discusses the implementations of a few technological applications made by Hopper and her Remington-Rand crew. Moreover, he discusses the impact that these technologies have had on the computing industry and goes on to commend them. This autobiography helped us find a fresh perspective on Hopper from someone else's point of view. Not only did McGee have first-hand experience about Hopper, but he provided a developed opinion about her and her work.

"Oral History of Captain Grace Hopper." Interview by Angeline Pantages. *Computer History*. Computer History. Web. 10 Jan. 2016.

This comes from an interview between Angeline Pantages and Grace Hopper. In the interview, Hopper discusses her perspective on a number of events in her life. Pantages asked Hopper about various pivotal moments in her life, such as her time working on the Mark I and her time working with John Mauchly. Furthermore, Pantages asks Hopper about her visions of the future, what she anticipates will happen, and how society should prepare for it. This helped us because we were able to derive many of her personal opinions from the interview. Not only did we see Hopper's perspective on many of her accomplishments, but through her words and prose we were also able to gain a sense of the kind of person Hopper was.
