## **Mir Sultan Khan:**

Mir Sultan Khan R. N. Coles, 2015-01-15 Mir Sultan Khan was the most remarkable and amazing chess player who ever lived He was by far the first player of grandmaster strength from Asia He came from a country where chess as we know it was not played He had no book knowledge or training He knew nothing of opening theory or studies of the game He was brought from India as a servant and instructed by his master to play chess Yet he quickly established himself as one of the strongest players in the world defeating Capablanca Rubinstein Flohr Tartakower Bernstein Marshall and many other of the world's leading grandmasters although the title was not established at that time in tournament games He also drew several games with World Champions Alekhine and Euwe but never beat them Sultan Khan won many games in the endgame He often traded queens in the opening His games lasted a long time He defeated Capablanca in the endgame when Capablanca was thought of as being unbeatable and the strongest endgame player in the world In games where he salvaged a draw he appeared to be hopelessly lost against Euwe and Rubinstein All the games from Descriptive Notation to Algebraic Notation All 64 games in Algebraic Notation are to be found in a new appendix in the back of this book along with a concluding diagram for each game In addition four other games are included These are all games where R N Coles gave a diagram or part of the game but not the complete game One is an 80 move game mentioned on page 48 where Sultan Khan was able to salvage a draw in a position against the great Rubinstein that appeared to be hopelessly lost Next is an 87 move game which is mentioned in the introduction to game 24 in which Sultan Khan defeated Tartakover by offering a knight sacrifice That game in full is not in the original text probably because of its length even though it includes a cute knight sacrifice at the end The third is a game against Vera Menchik with a diagram on page 91 The fourth is a draw where he swindled World Champion Euwe into an endgame where he had the wrong colored bishop Mir Sultan Khan Richard Nevil Coles, 1965

Mir Sultan Khan Richard Nevil Coles, 1977 **The Best Games of Mir Sultan Khan** R. N. Coles, 2003-10-01 At the height of the British Empire the chess loving Indian servant Sultan Khan arrived in the imperial capital as part of the feudal retinue of Sir Umar his high caste master While Sir Umar deliberated in the rarefied atmosphere of London conferences with British panjandra on the future of the Raj his retainer started to take on the British elite at chess Sweeping all before him the Indian genius entered the international arena where playing top board for the British Empire team he defeated grandmasters such as Rubinstein **The Indian Chessmaster Malik Mir Sultan Khan** Ulrich Geilmann, 2018-07-02 **The Forgotten Indians** Harshit Kumar, 2024-03-15 This captivating book sheds light on the remarkable contributions made by Indians in various fields highlighting their groundbreaking discoveries and extraordinary achievements that preceded those of individuals from any other part of the world Astonishingly these individuals have been largely forgotten overshadowed by the widely celebrated accomplishments of Greek figures Within its pages readers will discover a wealth of knowledge about the pioneering endeavors of Indian visionaries who were ahead of their time While the names of Alexander Pythagoras Ptolemy

Copernicus Galileo and Newton are frequently discussed and praised it is a curious phenomenon that the equally deserving figures such as Ashoka Aryabhata and Brahmacharya remain in the shadows of historical discourse The book compellingly explores this disparity offering insights and answers to the questions that naturally arise Moreover this book is merely the first installment in a captivating series that promises to delve deeper into the subject matter With subsequent parts already in the works readers can anticipate a multitude of future volumes that will further unveil the rich tapestry of Indian contributions throughout history

*Magazine*, 1929      **Vera Menchik** Robert B. Tanner, 2016-09-18 Not only was Vera Menchik the first woman in the history of chess to compete on an equal basis with the top male players she absolutely dominated women's chess during the last 17 years of her life. Hers was a fascinating career as an independent professional in an era where this was rare for women in any endeavor. In this book her games are brought to life utilizing her own annotations as well as the notes of her contemporaries including Capablanca, Alekhine, Fine and others. All of her known games as well as samples of her writings on the subject of chess are included. Beyond the technical aspect of her games, a brief biography and eulogies by her friends and colleagues reveal her life as a player and as a human being. Included are her comparisons of Russia where she was born and England where she resided as an adult, her philosophy of life as well as her perspectives on chess in England and during World War II. Above all, a view is provided of the life of the chess professional during the golden age of Lasker, Capablanca, Alekhine and Euwe.

**A Primer of Chess** José R. Capablanca, 2002-11-11 A basic manual of chess by the master Jos Raul Capablanca, regarded as one of the half dozen greatest players ever. Capablanca was noted especially for his technical mastery and in this book he explains the fundamentals as no one else could. Diagrams.

**Frank Marshall, United States Chess Champion** Andy Soltis, 2024-12-15 Frank Marshall 1877-1944 reigned as America's chess champion from 1907 through 1936, the longest stint of anyone in history. A colorful character almost always decked out in an ascot and chewing a cigar, his career coincided with many evolutionary changes in competitive chess. Marshall was a master gamesman. He took up the game of *salta* akin to Chinese checkers and was soon world champion. But more than anything, he loved chess, claiming that after he learned the game at 10, he played every day for the next 57 years. Marshall's life and playing style are fully examined here, including 220 of his games, some never before published, with 190 positional diagrams.

More than 250 fresh examples have been added, making this fourth edition 25% BIGGER than its predecessors. For casual players and club players: Why is it that most amateur chess players love opening and middlegame tactics but hate endgames? There is no substitute for hard work in getting better at chess, as a wise grandmaster once said: But you always work harder at something you enjoy. Make the first step towards improving your endgame play and beating more opponents by learning to love the endgame. Endgames are fun, and the examples from everyday practice in *Endgame Tactics* prove it. New 4th and 25% expanded edition of a best-selling modern classic. More than 1,300 Sparkling Tricks and Traps. WINNER of the ECF Book of the Year Award. WINNER of the ChessCafe Book of the Year Award. Makes regular players discover the fun in endgame.
