individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical vantage without regards to their native language or ethnical background Some of the entries may surprise you because their Czech or Slovak ancestry has not been generally known What is conspicuous is a large percentage of listed individuals being Jewish which is a reflection of high level of education and intellect of Bohemian Jews A prodigious number of accomplished women in this study is also astounding considering that in the 19th century they rarely had careers and most professions refused entry to them
