Mirror Of The Unseen The Complete Discourses Of Jalal Al Din Rumi:

Mirror Of The Unseen Louis Rogers, 2002 A new version of the complete spiritual discourses of the Sufi Master Jalal al Din Rumi a great spiritual teacher to be sure a great poet certainly a guide to all on the spiritual path and a friend to those unsure of the way Jalal al Din Rumi followed the path of Islamic mysticism a great spiritual teacher to be sure a great poet certainly a guide to all on the spiritual path and a friend to those unsure of the way To those who are sure of the path Rumi says with complete confidence You should realize therefore that whoever has committed himself wholly to God will be safe from all harm and will remain safe In His presence no petition of any man is ever in vain And then he adds His bounty and mercy are infinite Whoever relies on Him will never go astray his trust will not be in vain To those unsure of the path Rumi encourages since God's generosity is so well known and all the world is aware of His grace and kindness why do you not ask and hope to receive from Him a robe of honor and a rich gift Instead you sit in despair and say If He wills He will give something to me And so you pray to Him not at all

The Chobanids of Kastamonu Bruno De Nicola, 2024-02-06 This book provides a novel approach to the history of medieval Anatolia by analysing political religious and cultural developments in the region of Kastamonu during the reign of the Chobanid dynasty c 1211 1309 During the 13th century the Chobanids consolidated a local dynasty in western Anatolia a borderland between Islam and Christianity becoming cultural actors patronising the production of religious scientific and administrative works in the Persian language These works though surviving today in manuscript form have received little attention in modern historiography The book therefore attends to this gap in the research incorporating a detailed study of texts by little known authors from the time The book explores the relationship between Islam and the Chobanid dynasty in the context of the wider process of Islamisation in medieval Anatolia hypothesising that Turkmen dynasties played a fundamental role in this process of Islamisation and acculturation The Chobanids of Kastamonu then offers an in depth study of a Turkmen local dynasty that achieved political autonomy financial independence and cultural patronage in medieval Anatolia vis vis the main political powers of the time Attentive to religious diversity state formation and processes of transculturation in medieval Anatolia the book is key reading for scholars of Middle Eastern history and Islamic studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons CC BY 4.0 license

Microstructures and Mobility in the Byzantine World Claudia Rapp, Yannis Stouraitis, 2024-01-22 The volume whose chapters originated at panels at the International Byzantine Congress in Belgrade and at the IMC in Leeds seeks to offer an introduction into various aspects of social and geographical mobility and the intrinsic relationship between the two as well as into the microstructures of social action in the Byzantine world during the high and late Middle Ages Based on a balanced approach to the role of personal agency and social structure the authors of the individual chapters seek to clarify how and why various kinds of people mobilized to either change place and or social position or to form groups whose actions shaped social reality both at the imperial centre and the provincial

periphery Call and Response Louis Rogers,2006-11 The teachings of the great spiritual masters have a strange effect on us Inspirational yes to the extent that we understand them devotional fervor certainly to the degree that we can live it moral rectitude and ethical vigilance undoubtedly providing we can rationalize our doubts sublimate our fears and benignly dismiss those suggestions that we give up the things of this world for those of the next We feel an inner impulse to respond to the teachings taking either the low road by walking a Sunday path or the high roads of monastic isolation or mindfully self aware spiritual righteousness Or perhaps any road one wishes that lies between these two extremes of passion and commitment But the impulse to respond is genuine and deeply moving and Rumi s invitation to the Divine Caravan is compelling Despite the pull and attachment of secular life that is constant throughout time and compelling in any era he offers continual affirmation that no matter what the diversions no matter how often we fail the invitation is always open The spiritual door to the house of God is never closed Come come whoever you are Wanderer worshipper lover of leaving It doesn t matter Ours is not a caravan of despair Come even if you have broken your vow a thousand times Come come yet again come Practical Mysticism in Islam and Christianity Saeed Zarrabi-Zadeh,2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207 1273 and the practical teachings of the German Dominican Meister Eckhart c1260 1327 8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi s practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart s speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi s practical mysticism Such comparison also allows a deeper comprehension of Eckhart s practical thought Offering a critical examination of practical mysticism this book is a valuable resource for students and scholars of Islamic studies comparative mysticism and the intellectual history of Islam A Dictionary of Scientific Quotations Alan L. Mackay,2019-04-04 Science affects us all in the words of Albert Einstein The whole of science is nothing more than a refinement of everyday thinking It is therefore fascinating to discover the thoughts of scientists philosophers humanists poets theologians politicians and other miscellaneous mortals on this most important of subjects A Dictionary of Scientific Quotations is a personal selection of scientific quotations by Professor Alan L Mackay that includes graffiti lines of song proverbs and poetry Whether you believe that All problems are finally scientific problems George Bernard Shaw or that Imagination is more important than knowledge Einstein it is without doubt that It is a good thing for an uneducated man to

the face of the divine the face of God **A Distant Realm** Louis Rogers,2017-06-14 The way of the heart is to submit our judgments to unmotivated love as best we know it Not the way of inter personal love which is changeable and fickle but to the supremely open and accepting love that radiates from within the spiritual heart to the surrounding environment This is not a pallid modern day anti existential philosophy which finds love buried under every rock and hidden within every tree It is the recognition of the primal and enduring state of true being the enlightenment of the heart and the resultant opening of the inner way Love is the way back to that primal state of original being the return to truth while still moving forward with the affairs of life Enlightenment does not encourage us to abandon the things of this world only to re frame our vision and see them for what they are **The Unknown Reality** Louis Rogers,2018-09-16 When enlightened self awareness illumines individual consciousness the light at the end of a long dark inner tunnel finally manifests The dawn of a new day appears over the inner horizon of awareness and begins to shed light over the dark night of the soul All things have a beginning and an end and what might once have seemed to us so deeply enmeshed in confusion and chaos that no clarity could ever be possible can turn on a whispered rumor or the fall of a sparrow This too shall pass and this and this too as well Life goes on and if we are wise and fortunate we will have time to adjust our bearings and reach a more confirming and enlightening understanding of ourselves and the spiritual nature of what lies within dormant and ready to be awakened Why not now why not us and why not begin while we can Why wait for just another run of the mill game of chance to end and another one to begin with the same or similar lessons to be learnt We are ourselves an integral part of the glory of the cosmos We are that we are that dear ones we are that **Discourses of Rumi** Jalāl al-Dīn Rūmī (Maulana),Arthur John Arberry,2006 **Rebel in the Mind** Louis Rogers,2016-09-16 We are incomplete beings unfinished works of art thinking man but not yet spiritual man Not yet having attained to spiritual life through inner realization and the direct perception of the inner truth of our being What can be achieved when we put our souls into the extraordinary adventure of expanding and transforming human consciousness So much has been achieved on the purely human level but to set our spiritual house in order will require a general opening of the heart to take in all of our human brethren What we need to accomplish crosses all national boundaries cultural allegiances racial barriers religious prejudices and the inanity of inter national disputes This requires that we think and act from a significantly higher perspective than simply our individual needs and the affiliated perspectives of a relatively small community of fellow seekers Fellowship must undergo a general transformation from that limited perspective to a universal regard for the whole of mankind We are one in our deepest consciousness one mind in the universe and we all have our fundamental existence in one essential field of being We should act from that knowledge but first we must have the experience that it is the truth It is *Unravelling Through Time* Louis Rogers,2018-04-24 Awakening to our god nature is the real purpose behind it all We are asleep to our authentic nature those many of us who recognize this essential dilemma of existence This is the to be or not to be attitude that defines our reluctance to shake off the chains that bind us rub the sand

from our inner eye of insight and awaken What else is there to do when we come to the ultimate resolution that our physical existence and earthly personae have become too small to define us Not simply because those aspects of our voyage have become diluted in their ability to fully engage our various attentions but because they have become untenable definitions of our being in a truly spiritual understanding of the cosmos We are the creation and the multi various forms and faces of the creative imagination We lend voice to the creation both in it and of it manifest or unmanifest and we have a choice in the matter How we conduct ourselves and for what purpose reflect both where we have come from and where we are heading Our choices may determine our fate and when we learn to make better and more informed choices we will come closer and closer to becoming masters of our fate
