Mirror The The Odyssey Within:

The Shadow of an Ass Jeffrey P. Ulrich, 2024-11-06 Jeffrey Ulrich's *The Shadow of an Ass* addresses fundamental questions about the reception and aesthetic experience of Apuleius' *Metamorphoses*, popularly known as *The Golden Ass*, by situating the novel in a contemporaneous literary and philosophical discourse emerging in the Second Sophistic. This unique Latin novel follows a man who is accidentally turned into a donkey because of his curiosity in viewing the world through a donkey's eyes until he is returned to human form by the Egyptian goddess Isis. In the end, he chooses to become a cult initiate and priest instead of a debased and overindulgent ass. On the one hand, the novel encourages readers to take pleasure in the narrator's experiences as he relishes food, sex, and forbidden forms of knowledge. Simultaneously, it challenges readers to reconsider their participation in the story by exposing its donkey narrator as a failed model of heroism and philosophical investigation. Ulrich interprets the *Metamorphoses* as a locus of philosophical inquiry, positioning the act of reading as a choice of how much to invest in this tale of pleasurable transformation and unanticipated conversion. *The Shadow of an Ass* further explores how Apuleius, as a North African philosopher, translates an originally Greek novel into a Latin idiolect, transforming himself into an intermediary of Platonic philosophy for his Carthaginian audience. Situating the novel in a long history of philosophical and literary conversations, Ulrich suggests that the *Metamorphoses* anticipates much of the philosophical burlesque we tend to associate with early modern fiction, from *Don Quixote* to Lewis Carroll.

Virgil's Homeric Lens Edan Dekel, 2012-01-25 This book examines the ways in which Virgil's *Aeneid* uses Homer's *Odyssey* both as a conceptual model for writing an intertextual epic and as a powerful refracting lens for the specific interpretation of the *Iliad* and its consequences.

Monstrosity from the Inside Out Teresa Cutler-Broyles, Marko Teodorski, 2019-01-04 Emerging from darkness, daring to take form and become something more than the Other, monsters stalk these pages, shifting form in true monstrous fashion as they inhabit literature and film history and parallel communities modelled after our own. They become enmeshed in popular music, run rampant through cities, take androgynous form to rally for their own identities, their own futures, and their own families, and they hold up mirrors while we are caught shattering our sense of Self. Both the past and the future are rich fodder for the evil that monsters do, and from freak show to homunculus to serial killer to cyborg, they remind us that they are never far from sight and that we cannot look away, even if we wish to.

Monstrosity from the Inside Out takes as the paradox that monsters are simultaneously impossible and very much a part of what it means to be human.

One Culture George Lewis Levine, Alan Rauch, 1987 This is the first in a planned series of volumes on science and literature which grow from three basic assumptions explicit in this first volume first that science and literature are two alternative but related expressions of a culture s values and beliefs and second that understanding science in its relation to culture and literature requires some understanding not only of its own internal processes but of pressures exercised by social political and psychological forces third that the idea of influence of one upon the other must work both ways It is not only science that influences literature but literature that influences science the authors say ISBN 0 299 11300 0 45 00 ISBN 0 299 11304 3 pbk 12 95

Mirrors of Mortality (Routledge Revivals) Joachim Whaley, 2012-08-06 First published in 1981 this reissue examines mankind s preoccupation with death and mortality by isolating various societies in different periods of time The authors examine not only the formal rituals associated with the last rite of passage but also the social attitudes to death and dying which these rituals evidence The essays establish that different periods do seem to be

characterized by different images of death and attitudes to it but the authors wisely avoid trying to impose strict chronological pattern A pioneering work in the historical study of attitudes to death this reissue should reignite discussion on the significance of death in human history Christiane Sourvinou Inwood examines attitudes to death as reflected in myth and religious thought in Ancient Greece and relates them to social and economic change R C Finucane analysis the social significance of the exemplary deaths of kings criminals traitors and saints in medieval Europe Paul Fritz s essay illustrates the importance of royal burials in early modern Britain while Joachim Whaley examines the social and political significance of funerals in Hamburg between 1500 and 1800 John McManners discusses the work of Philippe Aries and other prominent French scholars on the history of attitudes to death David Irwin examines the images of death portrayed in European tombs around 1800 C A Bayly analyzes the relationship between death ritual and society in Hindu Northern India while David Cannadine discusses the impact of war on attitudes to death in modern Britain

Epic Performances from the Middle Ages into the Twenty-First Century Fiona Macintosh, Justine McConnell, Stephen Harrison, Claire Kenward, 2018-10-26 Greek and Roman epic poetry has always provided creative artists in the modern world with a rich storehouse of themes Tim Supple and Simon Reade s 1999 stage adaptation of Ted Hughes Tales from Ovid for the RSC heralded a new lease of life for receptions of the genre and it now routinely provides raw material for the performance repertoire of both major cultural institutions and emergent experimental theatre companies This volume represents the first systematic attempt to chart the afterlife of epic in modern performance traditions with chapters covering not only a significant chronological span but also ranging widely across both place and genre analysing lyric film dance and opera from Europe to Asia and the Americas What emerges most clearly is how anxieties about the ability to write epic in the early modern world together with the ancient precedent of Greek tragedy s reworking of epic material explain its migration to the theatre This move though was not without problems as epic encountered the barriers imposed by neo classicists who sought to restrict serious theatre to a narrowly defined reality that precluded its broad sweeps across time and place In many instances in recent years the fact that the Homeric epics were composed orally has rendered reinvention not only legitimate but also deeply appropriate opening up a range of forms and traditions within which epic themes and structures may be explored Drawing on the expertise of specialists from the fields of classical studies English and comparative literature modern languages music dance and theatre and performance studies as well as from practitioners within the creative industries the volume is able to offer an unprecedented modern and dynamic study of epic content and form across myriad diverse performance arenas

Romanticism and Colonial Disease Alan Bewell, 2003-05-22 Colonial experience was profoundly structured by disease as expansion brought people into contact with new and deadly maladies Pathogens were exchanged on a scale far greater than ever before Native populations were decimated by wave after wave of Old World diseases In turn colonists suffered disease and mortality rates much higher than in their home countries Not only disease but the idea of disease and the response to it deeply affected both colonizers and those colonized In *Romanticism and Colonial Disease* Alan Bewell focuses on the British response to colonial disease as medical and literary writers in a period roughly from the end of the eighteenth century to the middle of the nineteenth century grappled to understand this new world of disease Bewell finds this literature characterized by increasing anxiety about the global dimensions of disease and the epidemiological cost of empire Colonialism infiltrated the heart of Romantic literature affecting not only the Romantics framing of disease but also their understanding of England's position in the colonial world The first major study of the massive impact of colonial disease on British culture during the Romantic period *Romanticism and Colonial Disease* charts the emergence of the idea of the colonial world as a pathogenic space in need of a cure and examines the role of disease in the making and unmaking of national identities

Arete and the Odyssey's Poetics of Interrogation Justin Arft, 2022-09-01 Arete and the Odyssey's Poetics of Interrogation explores how the enigmatic Phaeacian queen Arete is at the heart of an epic scale poetics of interrogation used throughout the Odyssey to negotiate Odysseus' kleos or epic renown Arete's interrogation of Odysseus has been especially problematic in scholarship but diachronic and synchronic analysis of similar interrogations across Indo-European Orphic and Greek epigrammatic corpora show that the stranger's interrogation is a formula that demands performance and negotiation of status Within the Odyssey this interrogation is part of an intraformular network used to generate kleos and the queen's question initiates the longest and most complex negotiation of Odysseus' status in epic and memory Arete's role as interrogator not only explains her strange authority and resonance with both Penelope and comparative afterlife figures but it also establishes a gendered agonistic tension between she and her husband Alkinoos that influences the structure genre and narratology of performances across the Phaeacian episode This book reinterprets the Odyssey's central episode and challenges several assumptions about Nausikaa and Alkinoos' famed hospitality even demonstrating how the Apologue is organized as a response to competing inquiries into Odysseus' fundamental status in tradition The Odyssey ultimately navigates away from Odysseus' public reputation and roots his status in private memories and Arete's carefully arranged interventions signal the larger process by which the Odyssey immortalizes Odysseus in poetry as a nostos hero The queen and her question invite new applications of oral poetics that shed light on the structure composition and reperformance of the Odyssey

The Hall of Mirrors Peter Stoicheff, 1995 In *The Hall of Mirrors* Peter Stoicheff examines the complicated composition and publication history of *Drafts Fragments* to demonstrate how the volume has become a site where conflicting responses to Pound's public and poetic lives

are interpreted and reconstructed Finally he delivers not only a well rounded study of one of Pound s most important texts but an exploration of the modern long poem whose very length works against the possibility of its satisfactory closure
