Misadventures Of Buster Keaton:

The Fall of Buster Keaton James L. Neibaur, 2010-07-16 Born into a family of vaudevillians Buster Keaton made his first film appearance in 1917 at the age of 21 By the early 1920s he had established himself as one of the geniuses of silent cinema with such films as Sherlock Jr and The Navigator and his 1925 work The General placed at number 18 in the American Film Institute s poll of the 100 greatest features the highest ranked silent film on the survey But with the advent of sound in the late 1920s silent stars like Keaton began to fall out of favor and the great comedian s career began to decline In The Fall of Buster Keaton James Neibaur assesses Keaton s work during the talking picture era especially those made at MGM Educational and Columbia studios While giving some attention to the early part of Keaton s career Neibaur focuses on Keaton s contract work with the three studios as well as his subsequent work as a gagman supporting player and television pitchman The book also recounts the resurgence of interest in Keaton s silent work which resulted in a lifetime achievement Oscar and worldwide recognition before his death in 1966 This fascinating account of an artist s struggle and triumph during the more challenging period of his career will be of interest to anyone wanting to learn about one of film s most influential performers

artist screenwriter director master **Charlie Chaplin and Buster Keaton** Charles River Editors, 2025-05-01 Only a select few actors become international stars in their time but none had as unique a career as Charlie Chaplin. Chaplin was the first true film star and he managed to do so even when films were still silent. He has been honored with too many awards to count and the fact that his name remains instantly recognizable nearly a century after his first film is a testament to his influence. Even today Chaplin's films are arguably more recognizable than those of perhaps any other actor or director everyone is familiar with the famous Tramp costume and persona and even the casual film enthusiast has likely seen films such as *City Lights* 1931 and *Modern Times* 1936. Chaplin is known for the singular blend of pathos and humor evinced by his films and it is not uncommon for audiences to laugh and cry at alternate points of a Chaplin film a trait that continues to endear audiences even to this day. For this reason in his review of Stephen Weissman's biography of Chaplin Martin Sieff noted It is doubtful any individual has ever given more entertainment pleasure and relief to so many human beings when they needed it most. As Sieff's comment suggests Chaplin's career coincided with the two World Wars and the Great Depression but while Chaplin the actor was popular Chaplin the person became controversial in the final decades of his life. In fact there is a wide discrepancy between the almost uniformly enthusiastic praise of Chaplin today and the subversive identity he cultivated toward the latter part of his career. Although accusations of being a communist sympathizer and Chaplin's confrontation with the House Committee on Un American Activities have mostly become a footnote in the storied career of a man best remembered as an acting pioneer it forced Chaplin to spend the last 15 years of his career working as an artist in exile and the shifting viewpoints of Chaplin were instrumental in forcing people to evaluate the way in which they viewed celebrities as well as what it means to be entertained. Indeed it is impossible to substantiate the belief that Chaplin's later films are poorer in quality than his earlier ones yet the public largely rejected his later directorial efforts. In the end it must be acknowledged that more than any other figure who had come before him the public was aware of Chaplin's personal life in ways that were often upsetting and inconsistent with the persona effected through his films. In the 1920s the burgeoning movie industry was starting to come into its own and alongside actor and director Charlie Chaplin Buster Keaton was at the peak of Hollywood. It is no surprise that Keaton was so effective in silent films because he had been practicing comedy in his family's vaudeville acts as *The Little Boy Who Can't Be Damaged* becoming a popular performer by the age of 5. Indeed his physical form of comedy which initially involved having his father throwing him around the stage translated well onto the screen and some of his slapstick and other comic gags remain legendary even today in part because Keaton practiced his own stunts. In fact Keaton wrote his own material and was a crucial comic influence on acts like *The Marx Brothers* and *The Three Stooges*. In addition to being one of the foremost comedians of his time and writing his own stuff Keaton also directed many of his own films and he mastered the use of cameras at a time when film was still relatively new. As *Time* magazine writer Richard Corliss noted Watch his beautiful compact body as it pirouettes or pretzels in tortured permutations or even more elegantly
