Hierarchies of Race Social Class and Gender *Criminological Theory* Stephen G. Tibbetts, Alex R. Piquero, 2021-12-30

Criminological Theory The Essentials Fourth Edition by Stephen G. Tibbetts and Alex R. Piquero is a brief yet comprehensive overview of the major concepts and perspectives of the key theories in the evolution of criminology. Putting criminological theory in context, the acclaimed authors examine policy implications brought about by theoretical perspectives to show students the practical application of theories to contemporary social problems. The new edition has been thoroughly updated with the latest theoretical extensions and empirical research with links made to specific theories and recent events. [The Measure of Merit](#) John Carson, 2007 Publisher description *Making the White Man's West* Jason E. Pierce, 2016-01-15

The West, especially the Intermountain states, ranks among the whitest places in America, but this fact obscures the more complicated history of racial diversity in the region. In *Making the White Man's West*, author Jason E. Pierce argues that since the time of the Louisiana Purchase, the American West has been a racially contested space. Using a nuanced theory of historical whiteness, he examines why and how Anglo Americans dominated the region for a 120-year period. In the early nineteenth century, critics like Zebulon Pike and Washington Irving viewed the West as a dumping ground for free blacks and Native Americans, a place where they could be segregated from the white communities east of the Mississippi River. But as immigrant populations and industrialization took hold in the East, white Americans began to view the West as a refuge for real whites. The West had the most diverse population in the nation, with substantial numbers of American Indians, Hispanics, and Asians, but Anglo Americans could control these mostly disenfranchised peoples and enjoy the privileges of power while celebrating their presence as providing a unique regional character. From this came the belief in a White Man's West, a place ideally suited for real Americans in the face of a changing world. The first comprehensive study to examine the construction of white racial identity in the West, *Making the White Man's West* shows how these two visions of the West as a racially diverse holding cell and a white refuge shaped the history of the region and influenced a variety of contemporary social issues in the West today. **'We Hold These Truths to Be Self-Evident...'** Kenneth N. Addison, 2009-02-16

We hold these truths to be self-evident. An Interdisciplinary Analysis of the Roots of Racism and Slavery in America delves into the philosophical, historical, socio-cultural, and political evolution of racism and slavery in America. The premise of this work is that racism and slavery in America are the result of an unintentional historical intertwining of various Western philosophical, religious, cultural, social, economic, and political strands of thought that date back to the Classical Era. These strands have become tangled in a Gordian knot which can only be unraveled through the bold application of a variety of multidisciplinary tools. By doing so, this book is intended to help the reader understand how the United States, a nation that claims all men are created equal, could be responsible for slavery and the intractable threads of racism and inequality that have become woven into its cultural fabric. [Introduction to Criminology](#) Pamela J. Schram, Stephen G. Tibbetts, 2020-01-21

Introduction to Criminology: Why Do They Do It? offers a contemporary and integrated discussion of key criminological theories to help

students understand crime in the 21st century Focusing on why offenders commit crimes authors Pamela J Schram and Stephen G Tibbetts apply established theories to real life examples to explain criminal behavior Coverage of violent and property crimes is included throughout theory chapters so that students can clearly understand the application of theory to criminal behavior The Third Edition includes new and expanded coverage of timely topics such as victimization measuring crime multicide gun control and hate crimes This title is accompanied by a complete teaching and learning package On Our Minds Eric M. Gander,2004-12-01 There is no question more fundamental to human existence than that posed by the nature versus nurture debate For much of the past century it was widely believed that there was no essential human nature and that people could be educated or socialized to thrive in almost any imaginable culture Today that orthodoxy is being directly and forcefully challenged by a new science of the mind evolutionary psychology Like the theory of evolution itself the implications of evolutionary psychology are provocative and unsettling Rather than viewing the human mind as a mysterious black box or a blank slate evolutionary psychologists see it as a physical organ that has evolved to process certain types of information in certain ways that enables us to thrive only in certain types of cultures In *On Our Minds* Eric M Gander examines all sides of the public debate between evolutionary psychologists and their critics Paying particularly close attention to the popular science writings of Steven Pinker Edward O Wilson Richard Dawkins and Stephen Jay Gould Gander traces the history of the controversy succinctly summarizes the claims and theories of the evolutionary psychologists dissects the various arguments deployed by each side and considers in detail the far reaching ramifications social cultural and political of this debate Gander's lucid and highly readable account concludes that evolutionary psychology now holds the potential to answer our oldest and most profound moral and philosophical questions fundamentally changing our self perception as a species *An Illusion of Equity* Wendy Zagray Warren,2023-08-01 Public education plays a crucial role in crafting a nation's future In the United States education reform policy particularly the reliance on large scale standardized testing is a growing topic of national conversation and concern *An Illusion of Equity* The Legacy of Eugenics in Today's Education demonstrates how centuries of propaganda have led us to accept the idea that test scores indicate something so valuable about human beings that they should be used to organize society Drawing on decades of experience as an educator author Wendy Zagray Warren unpacks the origins of this practice inviting us to probe the ideologies underlying testing procedures and score interpretation and to evaluate the rationale for using test scores as the sole markers for academic achievement From the beginning large scale tests have produced scores divided by race and class Initially these results aligned with the eugenic ideology of its creators Warren shows that while the rhetoric used to justify test based policy has changed the model used to produce test scores remains much the same Therefore so do the outcomes of test based policies which continue to reproduce and reinforce the existing social hierarchy of the United States The hope of equity lies in educators charting new paths and scholars around the world who are dreaming new educational paradigms into being

Ultimately Warren invites policymakers educators and parents to explore the richness of possibility when education is designed around the belief that every child is worthy of the opportunity to thrive

Can We Talk about Race? Beverly Tatum, 2008-04-01 Major new reflections on race and schools by the best selling author of *Why Are All the Black Kids Sitting Together in the Cafeteria* A Simmons College Beacon Press Race Education and Democracy Series Book Beverly Daniel Tatum emerged on the national scene in 1997 with *Why Are All the Black Kids Sitting Together in the Cafeteria* a book that spoke to a wide audience about the psychological dynamics of race relations in America Tatum's unique ability to get people talking about race captured the attention of many from Oprah Winfrey to President Clinton who invited her to join him in his nationally televised dialogues on race In her first book since that pathbreaking success Tatum starts with a warning call about the increasing but underreported resegregation of America A self-described integration baby she was born in 1954 Tatum sees our growing isolation from each other as deeply problematic and she believes that schools can be key institutions for forging connections across the racial divide In this ambitious accessible book Tatum examines some of the most resonant issues in American education and race relations The need of African American students to see themselves reflected in curricula and institutions How unexamined racial attitudes can negatively affect minority student achievement The possibilities and complications of intimate crossracial friendships Tatum approaches all these topics with the blend of analysis and storytelling that make her one of our most persuasive and engaging commentators on race *Can We Talk About Race* launches a collaborative lecture and book series between Beacon Press and Simmons College which aims to reinvigorate a crucial national public conversation on race education and democracy

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2001-12-21 First published in 2002 *An American Health Dilemma* is the story of medicine in the United States from the perspective of people who were consistently officially mistreated abused or neglected by the Western medical tradition and the US health care system It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs This tour de force of research on the relationship between race medicine and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health Ten years out it is finally updated with a new third volume taking the story up to the present and beyond remaining the premiere and only reference on black public health and the history of African American medicine on the market today No one who is concerned with American race relations with access to and quality of health care or with justice and equality for humankind can afford to miss this powerful resource

Imperial Leather Anne McClintock, 2013-10-01 *Imperial Leather* chronicles the dangerous liaisons between gender race and class that shaped British imperialism and its bloody dismantling Spanning the century between Victorian Britain and the current struggle for power in South Africa the book takes up the complex relationships between race and sexuality fetishism and money gender and violence domesticity and the imperial market and the gendering of nationalism

within the zones of imperial and anti imperial power Brain Science Under the Swastika Lawrence A. Zeidman,2020 80 years ago the greatest mass murder of human beings of all time occurred in Nazi occupied Europe This began with the mass extermination of patients with neurological and psychiatric disorders This book is the only comprehensive and scholarly published work regarding the ethical and professional abuses of neuroscientists during the Nazi era **The N Word** Jabari Asim,2008-08-04 A renowned cultural critic untangles the twisted history and future of racism through its most volatile word The N Word reveals how the term nigger has both reflected and spread the scourge of bigotry in America over the four hundred years since it was first spoken on our shores Jabari Asim pinpoints Thomas Jefferson as the source of our enduring image of the nigger In a seminal but now obscure essay Jefferson marshaled a welter of pseudoscience to define the stereotype of a shiftless child man with huge appetites and stunted self control Asim reveals how nineteenth century science then colluded with popular culture to amplify this slander What began as false generalizations became institutionalized in every corner of our society the arts and sciences sports the law and on the streets Asim s conclusion is as original as his premise He argues that even when uttered with the opposite intent by hipsters and hip hop icons the slur helps keep blacks at the bottom of America s socioeconomic ladder But Asim also proves there is a place for the word in the mouths and on the pens of those who truly understand its twisted history from Mark Twain to Dave Chappelle to Mos Def Only when we know its legacy can we loosen this slur s grip on our national psyche *An Ordinary Future* Thomas W Pearson,2023-09-05 This vivid portrait of contemporary parenting blends memoir and cultural analysis to explore evolving ideas of disability and human difference *An Ordinary Future* is a deeply moving work that weaves an account of Margaret Mead s path to disability rights activism with one anthropologist s experience as the parent of a child with Down syndrome With this book Thomas W Pearson confronts the dominant ideas disturbing contradictions and dramatic transformations that have shaped our perspectives on disability over the last century Pearson examines his family s story through the lens of Mead s evolving relationship to disability a topic once so stigmatized that she advised Erik Erikson to institutionalize his son born with Down syndrome in 1944 Over the course of her career Mead would become an advocate for disability rights and call on anthropology to embrace a wider understanding of humanity that values diverse bodies and minds Powerful and personal *An Ordinary Future* reveals why this call is still relevant in the ongoing fight for disability justice and inclusion while shedding light on the history of Down syndrome and how we raise children born different
