White Light Ronald J. Friis, 2021-11-12 White Light The Poetry of Alberto Blanco examines the interplay of complementary images and concepts in the award winning Mexican writer s cycle of poems from 1979 to 2018 Blanco s poetic trilogy A la luz de siempre is characterized by its broad range of form and subject and by the poet s own eclectic background as a chemist maker of collages and musician Blanco speaks the language of the visual arts science mathematics music and philosophy and creates work with deep interdisciplinary roots This book explores how polarities such as space and place reading and writing sound and silence visual and verbal representation and faith and doubt are woven through A la luz de siempre These complements reveal how Blanco s poetry like the phenomenon of white light embraces paradox and transforms into something more than the sum of its disparate and polychromatic parts Pasicrisie Internationale 1794-1900 Henri La Fontaine, 1997-09-24 When the United Nations undertook the publication of the Reports of International Arbitral Awards the Pasicrisie internationale was identified as one of the rare truly general collections of international case

law in existence In fact in deciding to publish the arbitration clauses and arbitral awards from 1794 to 1900 Henri La Fontaine was doing pioneering work foreshadowing the famous Reports by half a century As we near the end of the century the Pasicrisie internationale remains just as pertinent as it was when first published in 1902 This collection of arbitral awards with its modest appearance has certainly contributed more to the development of international arbitration case law than any number of lyrical speeches advocating peace through law First edition printed in 1902 by St mpfli Bern Lorsque l'Organisation des Nations Unies entreprit la publication de son Recueil des sentences arbitrales elle identifia la Pasicrisie internationale comme constituant l'une des rares véritables collections générales de jurisprudence internationale préexistantes De fait en décidant de rassembler les clauses compromissoires et les sentences arbitrales de 1794 1900 Henri La Fontaine avait fait oeuvre de pionnier et il se figurait avec un demi siècle d'avance le célèbre Recueil En cette fin de siècle la Pasicrisie internationale constitue donc un outil de travail toujours aussi actuel que lors de sa publication en 1902 Cette compilation de sentences arbitrales d'apparence modeste a certainement plus contribué au développement de la jurisprudence arbitrale internationale que bien des discours lyriques prônant la paix par le droit Première édition imprimée en 1902 par St mpfli Berne

Literary Labyrinths in Franco-Era Barcelona Colleen P. Culleton, 2016-07-22 Bringing together works by Salvador Espriu Juan Goytisolo Merc Rodoreda Esther Tusquets and Juan Marsa that portray memory as a disorienting narrative enterprise Colleen Culleton argues that the source of this disorientation is the material reality of life in Barcelona in the immediate post Civil War years Barcelona was the object of harsh persecution in the first years of the Franco regime that included the erasure of marks of Catalan identity and cultural history from the urban landscape and made Barcelona a moving target for memory The literature and film she examines show characters struggling to produce narratives of the remembered past that immediately conflict with the dominant version of Spain's historical narrative formulated to legitimize the Civil War Culleton suggests the trope of the laberinto used as an image or device in all five of the works she considers and translated into English as both maze and labyrinth opens up a space that enables readers to take vulnerability to outside interference into account as an inseparable part of remembrance While the narratives all have maze like qualities involving a high level of reader participation and choice the exigencies of the labyrinth with its unicursal demands for patience perseverance and faith always prevail Thus do the Francoist narrative and social structure in the end resurface and reassert themselves over the narrating character's perspective

Relational Responses to Trauma in Twenty-First-Century French and Spanish Women's Writing Hannie Lawlor, 2024-08-28 Relational Responses to Trauma in Twenty First Century French and Spanish Women's Writing offers new insight into what it means to write relational lives It broadens the parameters of existing discussions in terms of geography as well as genre drawing together two literatures whose prominence in life writing theory to date could hardly be more different while French women's writing has long been at the centre of international discussions of autobiography the relative invisibility of Spanish women's writing remains striking The dialogue

that thus underpins this study between diverse twenty first century case studies and broader approaches to life writing shines a light on what is gained from inviting different voices into the discussion These narrative projects challenge longstanding critical assumptions in autobiography studies and trauma theory about how writers can and should represent the multiple perspectives that are at the heart of intergenerational stories In exploring the narrative solutions that these texts propose in response to the ethical questions they navigate this book shows that writing relational lives rests on far more than the mere recounting of a shared history Relating in these texts it proposes is an act embedded in the telling of the story It is a mode of testifying together to traumatic experience one that reveals a powerful preoccupation in contemporary women s life writing practice with making more audible the many voices and versions that go unheard

A Companion to the Twentieth-century Spanish Novel Marta E. Altisent, 2008 The Spanish novel in a turbulent century This collection of studies by eighteen prominent theorists and critics offers a diverse panorama of the modern Spanish novel seen through the prism of Spain s recent political cultural and ideological history It considers the development of the novel as a social mirror and as a changing literary form torn between the tradition of stern realism and the aesthetics of rupture affecting all Western literature from the Avant Garde to the Postmodern age While some essays emphasise the Spanish cultural context and canonical writers others are of a broader nature grouping lesser known writers under certain literary tendencies the metaphysical novel the urban novel recuperative accounts of the Civil War feminine first person narrations and the rise of the popular detective historical and erotic novels Three studies address the resurgence of the Catalan Basque and Galician novel and their departure from a poetics of identity to one of global concerns Interdisciplinary approaches address the reciprocal impacts of literature and cinema and the effects of the marketplace on the consumption of fiction are not forgotten The Companion provides ample bibliographies and a valuable chronology while all titles and quotations are translated into English Contributors Marta E Altisent Katarzyna Olga Beilin Ram n Buckley Jos F Colmeiro Stacey Dolgin Casado Sebastiaan Faber David K Herzberger Carlos Alex Longhurst Kathleen N March Cristina Mart nez Carazo Alfredo Mart nez Exp sito Nina L Molinaro Gonzalo Navajas Mari Jose Olaziregi Janet D P rez Randolph D Pope Josep Miquel Sobrer H Rosi Song
