Population and Development Robert Cassen, 1994-01-01 This volume presents the latest thinking concerning the effect of population growth on economic development and other areas of global concern The authors address the complex issues that currently face both developed and developing country governments in all areas of population growth exploring impacts within their country and internationally

Population and Development United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, 1995 Distributed to some depository libraries in microfiche

Handbook on Development Policy and Management Colin H. Kirkpatrick, Ron Clarke, Charles Polidano, 2002-01-01 this is a book one would expect to find in all libraries and on all development studies reading lists John Hailey *Journal of International Development* the Handbook is a unique reference tool on international development policy and management Its format both comprehensive in coverage and concise in content will make it essential reading for the growing number of postgraduates studying development policy and management as well as for public administration foreign consultants and aid workers in low and middle income countries Andrew Nickson *Public Administration* This Handbook will surely prove to be an essential to the students practitioners and others concerned with improvement of human condition in developing countries Pundarik Mukhopadhyaya *The Singapore Economic Review* this Handbook offers a significant remedy to the scarcity of material in this important area It is certainly very near the top of this reviewer s list of recommended reading for students researchers and practitioners concerned with development policy Michael Tribe *Development Policy Review* the Handbook offers an excellent one volume survey of modern development policy and practice in poor countries Tony Jackson *The Journal of the Institution of Economic Development* This comprehensive collection contains an excellent introduction to all the major issues of development policy Frances Stewart *Queen Elizabeth House University of Oxford UK* This important Handbook on international development policy and management covers a broad spectrum of contemporary topics across all the major areas of interest With over 40 chapters the book comprehensively explores the many themes and issues of significance for both policy and implementation and provides easily accessible reference material on current practice and research The 42 contributors come from a diverse range of backgrounds and enjoy international reputations in their chosen fields The Handbook is organised in two parts one dealing with policy issues and the other with implementation and management issues The first part on policy covers a wide range of economic social and environmental topics The second part explores the political context of implementation and development practice and goes on to cover a range of issues relating to management in the public and non state sectors and the management of development projects Each individual chapter provides background information on theory and practice describes the current state of play examines prospects for the future and includes an annotated guide to further reading This extensive handbook will become an essential reference on international development policy and management Although primarily designed for postgraduate students and scholars of development

studies it will also be welcomed by development practitioners NGOs and aid agencies

The Impact of Population Growth on Well-being in Developing Countries Dennis A. Ahlburg, Allen C. Kelley, Karen Oppenheim Mason, 2013-03-14 This book examines the nature and significance of the impact of population growth on the well being of developing countries in particular the effects on economic growth education health food supply housing poverty and the environment In addition because family planning programmes often significantly affect population growth the study examines the impacts of family planning on fertility and health and the human rights implications of family planning programmes In considering the book's conclusions about the impact of population growth on development four caveats should be noted First the effects of population growth vary from place to place and over time Thus blanket statements about overall effects often cannot be made Where possible the authors note the contexts in which population effects are strongest and weakest Second all of the outcomes examined in this book are influenced by factors other than population growth Moreover the impact of population growth may itself vary according to the presence or absence of other factors This again makes blanket statements about the effects of population growth difficult Throughout the chapters the authors try to identify other relevant factors that influence the outcomes we discuss or that influence the impact of population growth on those outcomes

Population Matters Nancy Birdsall, Allen C. Kelley, Steven Sinding, 2001-08-30 The effect of demography on economic performance has been the subject of intense debate in economics for nearly two centuries In recent years opinion has swung between the Malthusian views of Coale and Hoover and the cornucopian views of Julian Simon Unfortunately until recently data were too weak and analytical models too limited to provide clear insights into the relationship As a result economists as a group have not been clear or conclusive This volume which is based on a collection of papers that heavily rely on data from the 1980s and 1990s and on new analytical approaches sheds important new light on demographic economic relationships and it provides clearer policy conclusions than any recent work on the subject In particular evidence from developing countries throughout the world shows a pattern in recent decades that was not evident earlier countries with higher rates of population growth have tended to see less economic growth An analysis of the role of demography in the Asian economic miracle strongly suggests that changes in age structures resulting from declining fertility create a one time demographic gift or window of opportunity when the working age population has relatively few dependants of either young or old age to support Countries which recognize and seize on this opportunity can as the Asian tigers did realize healthy bursts in economic output But such results are by no means assured only for countries with otherwise sound economic policies will the window of opportunity yield such dramatic results Finally several of the studies demonstrate the likelihood of a causal relationship between high fertility and poverty While the direction of causality is not always clear and very likely is reciprocal poverty contributes to high fertility and high fertility reinforces poverty the studies support the view that lower fertility at the country level helps create a path out of poverty for many families Population Matters represents an important further step in our understanding of the

contribution of population change to economic performance As such it will be a useful volume for policymakers both in developing countries and in international development agencies Sustainable Human Development in the Twenty-First Century - Volume II Ismail Sirageldin,2008-12-31 Sustainable Human Development in the Twenty First Century is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias The volume of Human Development examines the state and nature of human development and identifies factors that determine its promotion for the twenty first century A general goal since the ultimate goal for human development is to enhance the quality of human life However the concept quality of human life is not well defined It is determined by a set of interrelated factors that cut across many disciplines with varied perspectives and paradigms These include the prevailing culture health status economic performance technological development political and social conditions the building of human capacity and capabilities and institutional development on the local and global levels For example in an environment characterized by a better quality of human life it is expected that people will be able to lead long and productive lives They are also expected to enjoy good health have access to knowledge and educational opportunities and be treated by all with respect in a socially equitable and dignified manner In the sphere of political economy they are expected to have the opportunity to participate in governance decisions that affect their lives and the community in which they live and to have the potential to earn sufficient income to supply themselves with adequate nutrition shelter and other material and aesthetic needs Furthermore people are expected to maintain a sustainable environment and equitable social contracts across space and generations especially in the context of the evolving global governance The volume of Sustainable Human Development in the Twenty First Century is divided into five topics which are then expanded into multiple subtopics each as a chapter presented in two volumes The first is Major issues in Human Development and provides an over view of the Topic with emphasis on the sociological foundation of human development The second Topic Diversity and Historical Processes reviews the historical and technological processes which have led to the present state of human diversity and differentiation The third Topic Causes of Global Change focuses on whether it is possible in the present global environment to enlarge people s capabilities so that economic progress may be translated into a multidimensional human happiness The fourth Topic Consequences of Global Change examines global change not in the narrow sense of short term economic change but rather as historical waves of long term development The fifth Topic on Planning Strategies reviews current practice and projects challenges in the next century These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs *Population and Development in Nepal* ,1992 Seminar papers SOCIAL AND ECONOMIC DEVELOPMENT - Volume III Salustiano del Campo ,Tomoko Hamada ,Giancarlo Barbiroli,Saskia Sassen, Eleonora Barbieri-Masini, Paul Nchoji Nkwi, Owen Sichone, Abubakar Momoh,2010-11-15
