The Uncanny Child in Transnational Cinema Jessica Balanzategui,2025-10-01 The Uncanny Child in Transnational Cinema illustrates how global horror film depictions of children re conceptualised childhood at the turn of the twenty first century By analysing an influential body of transnational horror films largely stemming from Spain Japan and the US Jessica Balanzategui shows how millennial uncanny child characters resist embodying growth and futurity unravelling concepts to which the child s symbolic function is typically bound The book proposes that complex cultural and industrial shifts at the turn of the millennium resulted in these potent cinematic renegotiations of the concept of childhood By demonstrating both the culturally specific and globally resonant properties of these frightening visions of children who refuse to grow up the book outlines the conceptual and aesthetic mechanisms by which long entrenched ideologies of futurity national progress and teleological history started to waver at the turn of the twenty first century

Teaching Gifted Children and Adolescents Raymond H. Swassing,1985 **Assessing Health-related Quality of Life of Children** Pei Wang,Shunping Li,Jing Wu,Nan Luo,2024-02-20 Assessing health related quality of life HRQOL of Children has been a popular topic in recent years worldwide However there are several issues gaps in this research area which need to be addressed For instance previous studies on HRQOL of Children populations have normally used HRQOL instruments designed for adults These measurements may not be suitable for children as they are in a series of cognitive developmental stages and have different perspectives towards the relative importance of HRQOL dimensions In order to

tackle this issue and to accurately measure children's HRQOL a set of dedicated HRQOL instruments should be first developed and validated. The validated instruments could then be applied to the population measuring their HRQOL. In addition, the HRQOL information collected could be translated into health utility score if it is measured by utility instruments, e.g., EQ-5D-Y for the population. Moreover, the relevant studies on these issues are still lacking, especially in non-western countries.
