Reading Against Culture Ideology And Narrative In The Japanese Novel:

Reading Against Culture David Pollack, 1992 **Great World Writers** Patrick M. O'Neil, 2004 This nicely illustrated reference for junior high and high school students offers 20 page profiles of 93 of the world's most influential writers of the twentieth century Arranged alphabetically each profile provides facts about the writer's life and works as well as a commentary on his or her significance discussion of political and social events that occurred during his or her lifetime a reader's guide to major works and events beliefs or traditions that inspired the writer's works **Japan's National Identity and Foreign Policy** Alexander Bukh, 2010-10-18 In Japan's National Identity and Foreign Policy Alexander Bukh focuses on the construction of the Japanese self using Russia as the other examining the history of bilateral relations and comparisons between the Russian and Japanese national character *Soundings in Time* Roy Starrs, 2019-09-18 This first full length and long overdue study of Kawabata Japan's first Nobel laureate for literature and the most widely known for his novels *Snow Country* 1960 and *Sound of the Mountain* 1970 *An Artless Art - The Zen Aesthetic of Shiga Naoya* Roy Starrs, 2013-11-05 Shiga Naoya was a giant of Japanese literature but he is barely known outside Japan This book is the first study of Shiga to explore in depth his affinities both aesthetic and philosophic with the long tradition of Zen art Kazuo Ishiguro Wai-chew Sim, 2009-10-16 Kazuo Ishiguro's writing has rapidly gained global recognition since his first publication in 1981 This guidebook offers a biographical survey of Ishiguro's literary career an introduction to his novels plays and short stories as well as an accessible overview of the contexts and many interpretations of his work Part of the Routledge Guides to Literature series this volume cross references thoroughly between sections and presents useful suggestions for further reading **Nagai Kafū's Occidentalism** Rachael Hutchinson, 2011-11-01 Nagai Kaf 1879-1959 spent more time abroad than any other writer of his generation firing the Japanese imagination with his visions of America and France Applying the theoretical framework of Occidentalism to Japanese literature Rachael Hutchinson explores Kaf's construction of the Western Other an integral part of his critique of Meiji civilization Through contrast with the Western Other Kaf was able to solve the dilemma that so plagued Japanese intellectuals how to modernize and yet retain an authentic Japanese identity in the modern world Kaf's flexible positioning of imagined spaces like the West and the Orient ultimately led him to a definition of the Japanese Self Hutchinson analyzes the wide range of Kaf's work particularly those novels and stories reflecting Kaf's time in the West and the return to Japan most unknown to Western readers and a number unavailable in English along with his better known depictions of Edo's demimonde Kaf's place in Japan's intellectual history and his influence on other writers are also discussed *Literary Nationalism in German and Japanese Germanistik* Lee M. Roberts, 2010 *Literary Nationalism in German and Japanese Germanistik* traces the convergence of German and Japanese metaphors for national literary spirit through the academic study of the German language and literature in Germanistik Early notions of a spiritual link to the national literary tradition allowed speakers of German to imagine their unity before the existence of the modern German

state but the concept for spirit also gained various nuances in the works of such writers as Johann Wolfgang von Goethe the Brothers Grimm E T A Hoffmann and Hermann Hesse Moreover throughout the nineteenth and first half of the twentieth century scholars and thinkers increasingly equated literary spirit with the psychology of the German nation Against the background of these developments the slogans of university students who burned books of so called un German spirit in 1933 gained a particularly ominous meaning Interestingly for Japanese contemplating German literature in the late nineteenth century the native idea of national literary spirit was one of many concepts that differed from their German counterparts However skilled writers and translators like Mori gai invested old words with new meanings and by the 1930s Japanese scholars of Germanistik had not only documented the discourse on German national literary spirit but also deemed it synonymous with the spirit of Japan s own tradition

Woodblock Kuchi-e Prints Helen

Merritt, Nanako Yamada, 2000-07-01 *Woodblock Kuchi e Prints Reflections of Meiji Culture* is a pioneer exploration of a previously neglected genre of late Meiji art the type of handmade multicolor book frontispieces known as kuchi e Early European collectors assumed that the Japanese woodblock tradition came to an end in Western tainted prints Although many crudely colored prints of subjects such as steam trains and men in derby hats did flood the Japanese market the works introduced in this amply illustrated and readable volume make clear that there was another class of popular woodblock tradition unknown to foreigners that continued into the early twentieth century In their examination of this late flowering of the woodblock print the authors provide not only an introduction to a popular artistic tradition but also a new lens through which to view Japanese life at the end of the nineteenth century

Ecoambiguity Karen Thornber, 2012-03-02 Delving into the complex contradictory relationships between humans and the environment in Asian literatures *Writing Home: Representations of the Native Place in Modern Japanese Literature* Stephen Dodd, 2020-03-17 This book examines the development of Japanese literature depicting the native place furusato from the mid Meiji period through the late 1930s as a way of articulating the uprootedness and sense of loss many experienced as Japan modernized The 1890s witnessed the appearance of fictional works describing a city dweller who returns to his native place where he reflects on the evils of urban life and the idyllic past of his childhood home The book concentrates on four authors who typify this trend Kunikida Doppo Shimazaki T son Sat Haruo and Shiga Naoya All four writers may be understood as trying to make sense of contemporary Japan Their works reflect their engagement with the social intellectual economic and technological discourses that created a network of shared experience among people of a similar age This common experience allows the author to chart how these writers works contributed to the general debate over Japanese national identity in this period By exploring the links between furusato literature and the theme of national identity he shows that the debate over a common language that might transparently express the modern experience helped shape a variety of literary forms used to present the native place as a distinctly Japanese experience

Virtual Orientalism in Brazilian Culture E. King, 2016-02-05 Orientalist discourses in

Brazilian culture are an expression of anxieties about the re structuring of time and space in the network age The book examines engagements with Japanese postmodern culture in Brazil which emerge in relation to the history of Japanese immigration and through a series of European and North American discursive mediations *The British Stake In Japanese Modernity* Michael Gardiner, 2019-09-30 This book describes firstly a Japanese modernity which is readable not only as a modernising but also as a Britishing and secondly modernist attempts to overhaul this British universalism in some well known and some less known Japanese texts From the mid nineteenth century and particularly as hastened by the spectre of China in the First Opium War Japan s modernity was bound up with a convergence with British Newtonian cosmology something underscored by the British presence in Meiji Japan and the British education of key Meiji state makers Moreover the thinking behind Britain s own unification in the long eighteenth century particularly the Scottish Enlightenment is echoed strikingly faithfully in the 1860s 70s work of Fukuzawa Yukichi Nakamura Masanao and other writers in the Japanese Enlightenment However from around the end of the Meiji era we can see a concerted and pointed response to this British universalism its historiography its basis in the sovereign individual subject and its spatial mapping of the world Elements of this response can be read in texts including Natsume S seki s *Kokoro* Watsuji Tetsur s *F do Climate and Culture* Tanizaki Jun ichir s *In ei Raisan In Praise of Shadows* Kawabata Yasunari s *Yukiguni Snow Country* and various work of the mid period Kyoto School Rarely understood in terms of its British specificity this response should have something to say to modernist studies more generally since it aimed at a pluralism and de universalisation that was difficult for mainstream British modernism itself Indeed the strength of this de universalisation may be precisely why these native Japanese modernist tendencies have not much been accepted as modernism within the Anglophone academy despite this field s apparent widening of its ground in the twenty first century

Japan in Traditional and Postmodern Perspectives Charles Wei-hsun Fu, Steven Heine, 1995-07-01 In this book each of the chapters offers an analysis of the origins and development of an important aspect of Japanese culture including religion Pure Land Buddhism and Zen Shinto and folk religions Confucianism and Tokugawa era ideology philosophy classical Buddhism and the contemporary Kyoto School literature and the arts medieval poetry and drama modern fiction and films and social behavior family system feminism nationalism and economic growth The central underlying theme is the uniqueness and creativity of Japan as seen from twentieth century perspectives One of the fascinating things about Japanese culture is that on the one hand it seems to have held onto its traditional foundations with a greater sense of determination and celebration than most societies and at the same time it appears to have attained a position at the forefront of international modernist and postmodernist developments The authors explore several approaches to this issue One school of thought is influenced by recent Japanese writers and intellectual historians such as Mishima Tanizaki Watsuji and Nakamura Another approach is influenced by Western poststructuralist commentators such as Barthes Derrida and Lyotard A third approach is to argue against the thesis known as *nihonjinron*

Japanism or cultural exceptionalism by suggesting that the notion of Japanese uniqueness is itself a cultural myth generated by nationalist and particularist trends originating in the Tokugawa era The volume features an essay by Kenzaburo Oe winner of the Nobel Prize for Literature entitled Japan the Dubious and Myself Trauma, Dissociation and Re-enactment in Japanese Literature and Film David Stahl, 2017-07-14 Critical approaches to and reception of Vengeance is Mine Intertextuality Vengeance is Mine Iwao s foundational trauma Sins of the father Sins of the son Sins of the fathers sins of the sons Conclusion Notes Bibliography Conclusion Bibliography Index **The Ideologies of Japanese Tea** Tim Cross, 2009-09-01 This provoking new study of the Japanese tea ceremony chanoyu examines the ideological foundation of its place in history and the broader context of Japanese cultural values where it has emerged as a so called quintessential component of the culture It was in fact Sen Soshitsu XI grandmaster of Urasenke today the most globally prominent tea school who argued in 1872 that tea should be viewed as the expression of the moral universe of the nation A practising teamaster himself the author argues however that tea was many other things it was privilege politics power and the lever for passion and commitment in the theatre of war Through a methodological framework rooted in current approaches he demonstrates how the iconic images as supposedly timeless examples of Japanese tradition have been the subject of manipulation as ideological tools and speaks to presentations of cultural identity in Japanese society today
