# Reading The Early Republic

**Edward Watts**

## **Reading The Early Republic:**

*Reading the Early Republic* Robert A. FERGUSON, Robert A Ferguson, 2009-06-30 *Reading the Early Republic* focuses attention on the forgotten dynamism of thought in the founding era In every case the documents novels pamphlets sermons journals and slave narratives of the early American nation are richer and more intricate than modern readers have perceived Rebellion slavery and treason the mingled stories of the Revolution still haunt national thought Robert Ferguson shows that the legacy that made the country remains the idea of what it is still trying to become He cuts through the pervading nostalgia about national beginnings to recapture the manic depressive tones of its first expression He also has much to say about the reconfiguration of charity in American life the vital role of the classical ideal in projecting an unthinkable continental republic the first manipulations of the independent American woman and the troubled integration of civic and commercial understandings in the original claims of prosperity as national virtue *Reading the Early Republic* uses the living textual tradition against history to prove its case The first formative writings are more than sacred artifacts They remain the touchstones of the durable promise and the problems in republican thought

**Reading the Early Republic** Robert A. Ferguson, 2006-09-30 Ferguson addresses the reconfiguration of charity in American life the vital role of the classical ideal in projecting an unthinkable continental republic the first manipulations of the independent American woman and the troubled integration of civic and commercial understandings in the original claims of prosperity as national virtue

**Learning to Read in the Late Ottoman Empire and the Early Turkish Republic** B. Fortna, 2012-10-10 An exploration of the ways in which children learned and were taught to read against the background of the transition from Ottoman Empire to Turkish Republic This study gives us a fresh perspective on the transition from empire to republic by showing us the ways that reading was central to the construction of modernity

*Writing and Postcolonialism in the Early Republic* Edward Watts, 1998 *Writing and Postcolonialism in the Early Republic* is the first book length analysis of early American literature through the lens of postcolonial theory Although the United States represented a colonizing presence that displaced indigenous peoples and exported imperial culture American colonists also found themselves exiled often exploited and abused by the distant metropolitan center In this innovative book Edward Watts demonstrates how American post Revolutionary literature exhibits characteristics of a post colonial society

**The Haitian Revolution in the Early Republic of Letters** Duncan Faherty, 2024-01-16 In unraveling how American literary history has silenced the centrality of Haiti in U S cultural development *The Haitian Revolution in the Early Republic of Letters* Incipient Fevers recuperates lost textual objects while redressing a crucial blind spot in American literary history

*Reading Acts* Barbara Ryan, Amy M. Thomas, 2002 Drawing on such original sources as diaries commonplace books fan mail to authors booksellers reports and student papers the contributors to *Reading Acts* recover a wealth of important historical information that expands our understanding of reading in the United States during the nineteenth and early twentieth centuries The emphasis throughout

is on the act of reading and the attendant proposition that reading acts upon those who read Covered in this volume are a wide range of fascinating topics including the cultural agency of women during the early national period readers criticisms of the critics in the 1830s readers relationships with beloved authors after the Second Industrial Revolution and attitudes toward single motherhood in the mid twentieth century as revealed in readers responses to a True Confessions magazine article Contributors from diverse fields and disciplines highlight the ways in which human diversity and often contrariness are reflected in reading habits and enthusiasms They show how a desire to read and a love of reading have impelled average Americans to voice their opinions defend their tastes and confront cultural arbiters whose dictates failed to match their lived experiences By focusing on documents left by readers deemed ordinary the essayists raise important questions that existing approaches and methodologies often obscure Their treatment of key variables in the act of reading such as gender institutional setting and class is consistently fresh provocative and illuminating

*Reading These United States* Keri Holt, 2023-09 *Reading These United States* explores the relationship between early American literature and federalism in the early decades of the republic As a federal republic the United States constituted an unusual model of national unity defined by the representation of its variety rather than its similarities Taking the federal structure of the nation as a foundational point Keri Holt examines how popular print including almanacs magazines satires novels and captivity narratives encouraged citizens to recognize and accept the United States as a union of differences Challenging the prevailing view that early American print culture drew citizens together by establishing common bonds of language sentiment and experience she argues that early American literature helped define the nation paradoxically by drawing citizens apart foregrounding rather than transcending the regional social and political differences that have long been assumed to separate them The book offers a new approach for studying print nationalism that transforms existing arguments about the political and cultural function of print in the early United States while also offering a provocative model for revising the concept of the nation itself Holt also breaks new ground by incorporating an analysis of literature into studies of federalism and connects the literary politics of the early republic with antebellum literary politics a bridge scholars often struggle to cross

*The Founding Fathers: A Very Short Introduction* R. B. Bernstein, 2015-11-16 *The Founding Fathers* is a concise accessible overview of the brilliant flawed and quarrelsome group of lawyers politicians merchants military men and clergy known as the Founding Fathers who got as close to the ideal of the Platonic philosopher kings as American or world history has ever seen R B Bernstein reveals Washington Franklin Jefferson Adams Hamilton and the other founders not as shining demigods but as imperfect human beings people much like us who nevertheless achieved political greatness They emerge here as men who sought to transcend their intellectual world even as they were bound by its limits men who strove to lead the new nation even as they had to defer to the great body of the people and learn with them the possibilities and limitations of politics Bernstein deftly traces the dynamic forces that molded these men and their contemporaries as British colonists in North America and as intellectual

citizens of the Atlantic civilization's Age of Enlightenment. He analyzes the American Revolution, the framing and adoption of state and federal constitutions, and the key concepts and problems that both shaped and circumscribed the founders' achievements as the United States sought its place in the world. Finally, he charts the shifting reputations of the founders and examines the specific ways that interpreters of the Constitution have used the Founding Fathers. A masterly blend of old and new scholarship brimming with apt description and insightful analysis, this book offers a digestible account of how the Founding Fathers were formed, what they did, and how generations of Americans have viewed them.

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**The Early Republic and Antebellum America** Christopher G. Bates, 2015-04-08. First Published in 2015. Routledge is an imprint of Taylor Francis, an Informa company.

**Reading These United States** Keri Holt, 2019-01-15. Reading These United States explores the relationship between early American literature and federalism in the early decades of the republic. As a federal republic, the United States constituted an unusual model of national unity defined by the representation of its variety rather than its similarities. Taking the federal structure of the nation as a foundational point, Keri Holt examines how popular print, including almanacs, magazines, satires, novels, and captivity narratives, encouraged citizens to recognize and accept the United States as a union of differences. Challenging the prevailing view that early American print culture drew citizens together by establishing common bonds of language, sentiment, and experience, she argues that early American literature helped define the nation paradoxically by drawing citizens apart, foregrounding rather than transcending the regional, social, and political differences that have long been assumed to separate them. The book offers a new approach for studying print nationalism that transforms existing arguments about the political and cultural function of print in the early United States while also offering a provocative model for revising the concept of the nation itself. Holt also breaks new ground by incorporating an analysis of literature into studies of federalism and connects the literary politics of the early republic with antebellum literary politics, a bridge scholars often struggle to cross.

## Unveiling the Magic of Words: A Report on "**Reading The Early Republic**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Reading The Early Republic**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
