Reading The Romance Women Patriarchy And Popular Literature:

Reading the Romance Janice A. Radway, 2009-11-18 Originally published in 1984 *Reading the Romance* challenges popular and often demeaning myths about why romantic fiction one of publishing's most lucrative categories captivates millions of women readers Among those who have disparaged romance reading are feminists literary critics and theorists of mass culture They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture Radway questions such claims arguing that critical attention must shift from the text itself taken in isolation to the complex social event of reading She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text Radway's provocative approach combines reader response criticism with anthropology and feminist psychology Asking readers themselves to explore their reading motives habits and rewards she conducted interviews in a midwestern town with forty two romance readers whom she met through Dorothy Evans a chain bookstore employee who has earned a reputation as an expert on romantic fiction Evans defends her customers choice of entertainment reading romances she tells Radway is no more harmful than watching sports on television We read books so we won't cry is the poignant explanation one woman offers for her reading habit Indeed Radway found that while the women she studied devote themselves to nurturing their families these wives and mothers receive insufficient devotion or nurturance in return In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect The heroines admired by Radway's group defy the expected stereotypes they are strong independent and intelligent That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do Radway argues with the women readers fantasies and choices than with their need to deal with a fear of masculine dominance These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes In fact women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture Paradoxically the books that they read make conventional roles for women seem desirable It is this complex relationship between culture text and woman reader that Radway urges feminists to address Romance readers she argues should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination In a new introduction Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations

Why Women Read Fiction Helen

alone but have also gregariously shared reading experiences and memories with mothers daughters grandchildren and female friends For so many reading novels and short stories enables them to escape and to spread their wings intellectually and emotionally This book written by an experienced teacher scholar of women s writing and literature festival director draws on over 500 interviews with and questionnaires from women readers and writers It describes how where and when British women read fiction and examines why stories and writers influence the way female readers understand and shape their own life stories Taylor explores why women are the main buyers and readers of fiction members of book clubs attendees at literary festivals and organisers of days out to fictional sites and writers homes The book analyses the special appeal and changing readership of the genres of romance erotica and crime It also illuminates the reasons for British women s abiding love of two favourite novels Pride and Prejudice and Jane Eyre Taylor offers a cornucopia of witty and wise women s voices of both readers themselves and also writers such as Hilary Mantel Helen Dunmore Katie Fforde and Sarah Dunant The book helps us understand why in Jackie Kay s words our lives are mapped by books What Readers Do Beth Driscoll,2024-02-21 Shining a spotlight on everyday readers of the 21st century Beth Driscoll explores how contemporary readers of Anglophone fiction interact with the book industry digital environments and each other We live in an era when book clubs bibliomemoirs Bookstagram and BookTok are as valuable to some readers as solitary reading moments The product of nearly two decades of qualitative research into readers and reading culture What Readers Do examines reading through three dimensions aesthetic conduct moral conduct and self care to show how readers intertwine private and social behaviors and both reinforce and oppose the structures of capitalism Analyzing reading as a post digital practice that is a synthesis of both print and digital modes and on and offline behaviors Driscoll presents a methodology for studying readers that connects book history literary studies sociology and actor network theory Arguing for the vitality agency and creativity of readers this book sheds light on how we read now and on how much more readers do than just read **Literacy and Historical Development** Graff, Harvey J,2007 Representing three decades of research Literacy and Historical Development A Reader presents some of the most important historical scholarship on literacy in Europe and the United States The approaches research and conclusions reflected in this collection of fifteen essays has changed how historians and many others conceptualize literacy and represents a body of scholarship that is transforming both contemporary and historical literacy theories In this revised and expanded edition of the groundbreaking volume Literacy and Social Development in the West editor Harvey J Graff provides a new introduction and nine new essays by nationally and internationally renowned contributors from a range of disciplines Replacing an unquestioned certainty that literacy s powers are universal independent and determinative Graff brings together studies that support new concepts contending that the importance and influences of literacy depend on specific social and historical contexts the impacts of literacy are mediated and restricted the effects of literacy are social and particular and the role of literacy must be understood within the burgeoning array of communication technologies
