Reading Psychosis:

Philosophy and the Maternal Body Michelle Boulous Walker, 2002-01-22 Philosophy and the Maternal Body gives a new voice to the mother and the maternal body which have often been viewed as silent within philosophy Michelle Boulous Walker clearly shows how some male theorists have appropriated maternity and suggests new ways of articulating the maternal body and women's experience of pregnancy and motherhood **Why Psychosis Is Not So Crazy** Stijn

Vanheule, 2024-09-17 An expert's guide to humanizing psychosis through communication offers key insights for family and friends to support loved ones during mental health crises Are we all a little crazy Roughly 15 percent of the population will have a psychotic experience in which they lose contact with reality Yet we often struggle to understand and talk about psychosis Interactions between people build on the stories they tell each other stories about the past about who they are or what they want In psychosis we can no longer rely on these stories this shared language So how should we communicate with someone experiencing reality in a radically different way than we are Drawing on his work in psychoanalysis Stijn Vanheule seeks to answer this question which carries significant implications for mental health as a whole With a combination of theory from Freud to Lacan present day research and compelling examples from his own patients and well known figures such as director David Lynch and artist Yayoi Kusama he explores psychosis in an engaging way that can benefit those suffering from it as well as the people who care for and interact with them Reading Freud Jean-Michel

Quinodoz, 2013-12-16 Winner of the 2010 Sigourney Award Reading Freud provides an accessible outline of the whole of Freud's work from Studies in Hysteria through to An Outline of Psychoanalysis It succeeds in expressing even the most complex of Freud's theories in clear and simple language whilst avoiding over simplification Each chapter concentrates on an individual text and includes valuable background information relevant biographical and historical details descriptions of Post Freudian developments and a chronology of Freud's concepts By putting each text into the context of Freud's life and work as a whole Jean Michel Quinodoz manages to produce an overview which is chronological correlative and interactive Texts discussed include The Interpretation of Dreams The Uncanny Civilisation and its Discontents The clear presentation with regular summaries of the ideas raised encourages the reader to fully engage with the texts presented and gain a thorough understanding of each text in the context of its background and impact on the development of psychoanalysis Drawing on his extensive experience as a clinician and a teacher of psychoanalysis Jean Michel Quinodoz has produced a uniquely comprehensive presentation of Freud's work which will be of great value to anyone studying Freud and Psychoanalysis

Jaanus,1996-02-22 In this collection of essays Lacan's early work is first discussed systematically by focusing on his two earliest seminars Freud's Papers on Technique and The Ego in Freud's Theory and in the Technique of Psychoanalysis These essays by some of the finest analysts and writers in the Lacanian psychoanalytic world in Paris today carefully lay out the background and development of Lacan's thought In Part I Jacques Alain Miller spells out the philosophical and psychiatric origins of Lacan's work in great detail In Parts II III and IV Colette Soler Eric Laurent and others explain in the clearest of fashions the highly influential conceptualization Lacan introduces with the terms symbolic imaginary and real Part V provides the first sustained account in English to date of Lacan's reformulation of psychoanalytic diagnostic categories neurosis perversion psychosis and their subcategories their theoretical foundations and clinical applications ample case material is provided here Parts VI and VII of this collection take us well beyond Seminars I and II relating Lacan's early work to his later views of the 1960s and 1970s Slavoj Zizek explores the complex philosophical relations between Hegel and Lacan regarding the subject and the cause And Lacan's article On Freud's Trieb and the Psychoanalyst's Desire that appears here for the first time in English and is brilliantly unpacked by Jacques Alain Miller in his Commentary on Lacan's Text takes a giant step forward to 1965 where we see a crucial reversal in Lacan's perspective desire is suddenly devalued the defensive inhibiting nature of desire coming to the fore What then becomes essential is the drive as an activity related to the lost object that produces jouissance

Corpus Anarchicum Hamid Dabashi,2012-09-24 This book is a meditation on and an attempt to understand suicidal violence in the immediate context of its most recent political surge the decade between 2001 and 2011 from the suicidal mission of Muhammad Atta and his band in the United States to the suicide of Mohamed Bouazizi in 2010 in Tunisia After the former a devastating military strike and occupation of two Muslim countries commenced and after the latter a massive transnational democratic uprising ensued Suicidal violence is neither specific to Islam nor peculiar to our time It has been manifested in practically all cultures and religions and throughout human history But the suicidal violence we witness today is of an entirely different disposition because the bodies both of the assailant and of the assailed on which it is perpetrated are no longer the human body of our Enlightenment assumption What we are witnessing is in fact the contour of a posthuman body The posthuman body as Dabashi here proposes is the body of a contingent and contextual being and as such an object of disposable knowledge while the human body that it has superseded was corporeally integral autonomous rational indispensable and above all the site of a knowing subject

An Integrated Approach to Family Work for Psychosis Gina Smith,Karl Gregory,Annie Higgs,2007 The authors also consider how to overcome personal and external barriers to effective family work by suggesting a framework of ground rules and boundaries to apply
