Reading Rainbow Guide To Children's:

Reading Rainbow Guide to Children's Books Twila Christensen Liggett, Cynthia Mayer Benfield, 1994 Lists selected titles from the PBS Reading Rainbow program Children's Literature Barbara Stoodt, 1996 Shapers of American Childhood Kathy Merlock Jackson, Mark I. West, 2018-09-24 The experience of growing up in the U S is shaped by many forces Relationships with parents and teachers are deeply personal and definitive Social and economic contexts are broader and harder to quantify Key individuals in public life have also had a marked impact on American childhood These 18 new essays examine the influence of pivotal figures in the culture of 20th and 21st century childhood and child rearing from Benjamin Spock and Walt Disney to Ruth Handler Barbie's inventor and Ernest Thompson Seton founder of the Boy Scouts of America *Creating Reading Rainbow* Barbara Irwin, Tony Buttino, Pam Johnson, 2024-06-18 Reading Rainbow is one of the most successful PBS children's series in television history earning numerous national and international awards including 26 Emmys and a Peabody Award But perhaps more important than anything else Reading Rainbow helped generations of children cultivate a love for books Reading Rainbow is very much a story of humble beginnings and enormous perseverance Over five summers Tony Buttino Sr and his colleagues at WNED TV the public television station in Buffalo New York worked in collaboration with educators and librarians to experiment with summer reading programs But after trialing these programs the WNED team realized there was a big need for a new children's literacy series and believed they could create a new show with local and national collaborators and friends After fits and starts and enough twists and turns to fill a children's book Reading Rainbow premiered in the summer of 1983 and captured the attention of 6.5 million young viewers Creating Reading Rainbow explores the many intriguing and homespun stories that when woven together reveal how this groundbreaking and iconic television series came to be What led to the series being called Reading Rainbow How did the road to Reading Rainbow wind its way through Mister Rogers Neighborhood How did a public television station in Buffalo spearhead a movement in education and spark the passion for reading in millions of children And what does lasagna have to do with it Multicultural and Ethnic Children's Literature in the United States Donna L. Gilton, 2020-02-18 This edition of *Multicultural and Ethnic Children's Literature in the United States* addresses both quantitative and more qualitative changes in this field over the last decade Quantitative changes include more authors books and publishers book review sources booklists and awards organizations institutions and websites and criticism and other scholarship Qualitative changes include More support for new and emerging writers and illustrators Promotion of multicultural literature both in the U S and around the world as well as developments in global literature Developments in the literatures described throughout this book as well as in research supporting this literature The impact of technology Characteristics and activities of four adult audiences that use and promote multicultural children's literature and Changes in leaders and their organizations This is still a single reference source for busy and involved librarians teachers parents scholars publishers distributors and community leaders

Most books on multicultural children's literature are written especially for teachers librarians and scholars. They may be introductions to the literature selection tools teaching guides or very theoretical books on choosing evaluating and using these materials. *Multicultural and Ethnic Children's Literature in the United States* focuses much more on the history of the development of this literature from the nineteenth century to the present day. This book provides much more of a cultural and political context for the early development of this literature. It emphasizes the self-determining viewpoints and activities of diverse people as they produce materials for the young. *Multicultural and Ethnic Children's Literature* describes organizations events activities and other contributions of diverse writers illustrators publishers researchers scholars librarians educators and parents. It also describes trends in the research on the literature. It elaborates more on ways in which diversity is still an issue in publishing companies and an extended list of related industries. It describes related literature from outside of the U.S. and makes connections to traditional global literature. Last *Multicultural and Ethnic Children's Literature* shows the impact of multiculturalism on education libraries and the mainstream culture in general. While the other books on multiculturalism focus on how to find evaluate and use multicultural materials especially in schools and libraries this book is concerned over whether and how books are produced in the first place and how this material impact the broader society. In many ways it supplements other books on multicultural children's literature. **The Children's**

Television Community J. Alison Bryant, 2014-04-08 *The Children's Television Community* presents a cutting edge analysis of the children's television community the organizations major players and approaches to programming and gives an overview of the history current state and future of children's programming. Leading children's television professionals and distinguished academicians come together in this volume to take a distinctive behind-the-scenes look at how children's television is created programmed and sold. This thought-provoking work emphasizes the various actors whose creative financial political and critical input go into children's television and addresses advocacy for children's television from multiple approaches. By blending these diverse perspectives editor J. Alison Bryant offers readers a comprehensive picture of children's television. Highlights include a community level approach to understanding children's television perspectives from colleagues in various aspects of the media industry and an eye-opening analysis of how decision making affects what children are exposed to through television. *The Children's Television Community* is highly informative for educators industry professionals and practitioners in media developmental psychology and education. *READING RAINBOW A GUIDE FOR*

TEACHERS 1-30 GREAT PLAINS NATIONAL, 1986 *Home Learning Year by Year* Rebecca Rupp, 2009-02-04 Finally homeschoolers have a comprehensive guide to designing a homeschool curriculum from one of the country's foremost homeschooling experts. Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it from preschool through high school. Based on the traditional pre-K through 12th grade structure *Home Learning Year by Year* features the integral subjects to be covered within each grade. Standards for

knowledge that should be acquired by your child at each level Recommended books to use as texts for every subject
Guidelines for the importance of each topic which knowledge is essential and which is best for more expansive study based

and physical fitness **Children's Learning From Educational Television** Shalom M. Fisch,2014-04-08 At its best
educational television can provide children with enormous opportunities and can serve as a window to new experiences
enrich academic knowledge enhance attitudes and motivation and nurture social skills This volume documents the impact of
educational television in a variety of subject areas and proposes mechanisms to explain its effects Drawing from a wide
variety of research spanning several disciplines author Shalom M Fisch analyzes the literature on the impact of educational
resources He focuses on television programs designed for children rather than for adults although adult literature is included
when it is particularly relevant In addition much of the discussion concerns the effects of unaided viewing by children rather
than viewing in the context of adult led follow up activities The role of parent child co viewing and issues relevant to the use
of television in school or child care also receives consideration This volume is intended to make the disparate literature on
educational television s impact more accessible by bringing it together into a centralized resource To that end the volume
draws together empirical data on the impact of educational television programs both academic and prosocial on children s
knowledge skills attitudes and behavior In addition to its emphasis on positive effects this volume addresses a gap in the
existing research literature regarding children s learning from exposure to educational television Acknowledging that little
theoretical work has been done to explain why or how these effects occur Fisch takes a step toward correcting this situation
by proposing theoretical models to explore aspects of the mental processing that underlies children s learning from
educational television With its unique perspective on children s educational television and comprehensive approach to
studying the topic this volume is required reading for scholars researchers and students working in the area of children and
television It offers crucial insights to scholars in developmental psychology family studies educational psychology and related
