Women in Sports Coaching Nicole M. LaVoi, 2016-03-02. Women in many Westernized countries encounter a wider variety of career opportunities than afforded in previous decades and the percentage of women leaders in nearly every sector is on the rise. Sport coaching however remains a domain where gender equity has declined or stalled despite increasing female sport participation. The percentage of women who coach women are in the minority in most sports and there is a near absence of women coaching men. This important new book examines why. Drawing on original multi disciplinary research from across the globe including first hand accounts from practicing coaches the book illuminates and examines the status of women in coaching explores the complex issues they face in pursuing their careers and suggests solutions for eliminating the barriers that impede women in coaching. Developing an innovative model of intersectionality and power constructs through which to guide research the book covers issues including sexual identity race motherhood cross gender coaching and media coverage to give voice to women coaches from around the world. As such *Women in Sports Coaching* is essential reading for serious students and scholars of sports coaching sport sociology or anyone with an interest in gender and sport.

Asian American Sporting Cultures Stanley I. Thangaraj, 2016-04-05. Delves into the long history of Asian American sporting cultures considering how identities and communities are negotiated on sporting fields. Through a close examination of Asian American sporting cultures ranging from boxing and basketball to spelling bees and wrestling the contributors reveal the intimate connection between sport and identity formation. Sport plays a special role in the processes of citizen making and of the policing of national and diasporic bodies. It is thus one key area in which Asian American stereotypes may be challenged negotiated and destroyed as athletic performances create multiple opportunities for claiming American identities. This volume incorporates work on Pacific Islander South Asian and Southeast Asian Americans as well as East Asian Americans and explores how sports are gendered including examinations of Asian American men's attempts to claim masculinity through sporting cultures as well as the Orientalism evident in discussions of mixed martial arts as practiced by Asian American female fighters.
