Reading The American Past 2nd Ed Vol 2 Pb 2000:

Correspondence of Major General Emory Upton, Vol. 2, 1875-1881 Salvatore Cilella, 2024-01-12 Emory Upton 1839 1881 was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861 He was wounded three times during the war He participated in nearly every major battle in the Eastern Theater including Fredericksburg Gettysburg and Spotsylvania where he led a prominent attack on entrenched Confederate positions a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics Upton was mustered out of service in 1866 and later named commandant of cadets at West Point a position that carved a path for Upton to focus more on Army tactics and reforms Until now the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment of Upton The two volume *Correspondence of Major General Emory Upton* follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton's wartime correspondence Volume two collects Upton's foreign correspondence and observations on military tactics and Army reform At the behest of U.S. Army Commanding General William T. Sherman Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco-Prussian War This tour resulted in the publication of his monumental *The Armies of Europe and Asia* which warned that the U.S. Army was woefully below the standards of European nations and between Upton's death in 1881 and the turn of the twentieth century military policy was fiercely debated in both the military and popular press Upton's ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton He is both the clean pure and spotless individual of Michie's biographies and the ambitious yet flawed Army officer obsessed with his career These volumes explore his trials and frustrations as well as his triumphs Salvatore G. Cilella now retired was president of the Atlanta Historical Society He is the author of *Upton's Regulars The 121st New York Infantry in the American Civil War* and *Fund Raising for Small Museums in Good Times and Bad* El-Hi Textbooks & Serials in Print, 2000, 2000 The Oxford Handbook of Deaf Studies, Language, and Education, Volume 1 Marc Marschark, Patricia Elizabeth Spencer, 2010-12-14 The field of deaf studies language and education has grown dramatically over the past forty years From work on the linguistics of sign language and parent-child interactions to analyses of school placement and the mapping of brain function in deaf individuals research across a range of disciplines has greatly expanded not just our knowledge of deafness and the deaf but also the very origins of language social interaction and thinking In this updated edition of the landmark original volume a range of international experts present a comprehensive overview of the field of deaf studies language and education Written for students practitioners and researchers *The Oxford Handbook of Deaf Studies Language and Education Volume 1* is a

uniquely ambitious work that has altered both the theoretical and applied landscapes Pairing practical information with detailed analyses of what works why and for whom all while banishing the paternalism that once dogged the field this first of two volumes features specially commissioned updated essays on topics including language and language development hearing and speech perception education literacy cognition and the complex cultural social and psychological issues associated with deaf and hard of hearing individuals The range of these topics shows the current state of research and identifies the opportunities and challenges that lie ahead Combining historical background research and strategies for teaching and service provision the two volume Oxford Handbook of Deaf Studies Language and Education stands as the benchmark reference work in the field of deaf studies The Divided Mind of the Black Church Raphael G. Warnock, 2014 For decades the black church and black theology have held each other at arm's length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of conservative evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced In The Divided Mind of the Black Church Raphael G Warnock senior pastor of the historic Ebenezer Baptist Church the spiritual home of the Reverend Dr Martin Luther King Jr traces the historical significance of the rise and development of black theology as an important conversation partner for the black church dust jacket Beginning Reading and Writing Dorothy S.
