

· BUT WHAT IS THE READER
TO MAKE OF THIS? ·

A lake of pain, an absence
Leading to a flowering sea? Give it a quarter-turn
And watch the centuries begin to collapse
Through each other, like floors in a burning building,
Until we get to this afternoon:

Those delicious few words spread around like jam
Don't matter, nor does the shadow.
We have lived blasphemously in history
And nothing has hurt us or can.
But beware of the monstrous tenderness, for out of it
The same blunt archives loom. Facts seize hold of the web
And leave it ash. Still, it is the personal,
Interior life that gives us something to think about.
The rest is only drama.

Meanwhile the combinations of every extendable circumstance
In our lives continue to blow against it like new leaves
At the edge of a forest a battle rages in and out of
For a whole day. It's not the background, we're the background,
On the outside looking out. The surprises history has
For us are nothing compared to the shock we get
From each other, though time still wears
The colors of meanness and melancholy, and the general life
Is still many sizes too big, yet
Has style, woven of things that never happened
With those that did, so that a mood survives
Where life and death never could. Make it sweet again!

Readings In Contemporary Poetry Number 1 John Ashbery:

Readings in Contemporary Poetry Vincent Katz, 2017-01-01 Culled from Dia Art Foundation's Readings in Contemporary Poetry series this anthology includes ninety four poets who have participated in the reading series from 2010 to 2016 Edited by poet and author Vincent Katz the book stresses the experimental aspects of contemporary poetic practice highlighting commonalities among poets and placing their diverse voices in conversation with one another **The Leonard L. Milberg Collection of American Poetry** Princeton University. Library. Department of Rare Books and Special Collections, Molly Weigel, Leonard L. Milberg, 1994 Princeton NJ 08544 Library Publications Dept of Rare Books 1 Washington Rd A catalogue of the Milberg collection of contemporary American poetry at the Firestone Library Princeton U It covers 70 poets and over 1 800 items as of the end of July 1993 Most of the poets were first published commercially after the end of WWII others were included because of their connection to Princeton or because they were too important to be excluded An introduction about two pages and small photograph introduce each poet Really much more thrilling than it sounds a pellucid companion to the contemporaries and beautifully produced as well Available from Princeton University Libraries Annotation c by Book News Inc Portland Or **John Ashbery - Pierre Martory**, 1993 **John Ashbery and American Poetry** David Herd, 2024-07-30 David Herd sets out to provide readers with a new critical language through which they can appreciate the beauty and complexity of Ashbery's writing Presenting the poet in all his forms avant garde nostalgic sublime and camp the book argues that the perpetual inventiveness of Ashbery's work has always been underpinned by the poet's desire to write the poem fit to cope with its occasion Tracing Ashbery's development in the light of this idea and from its origins in the dazzling artistic environment of 1950's New York the book evaluates his poetry against the aesthetic literary and historical backgrounds that have informed it The story of a brilliant career and a history of the period in which that career has taken shape **John Ashbery and American Poetry** provides a compelling account of Ashbery's importance to Twentieth Century Literature **The First Book** Jesse Zuba, 2025-07-15 An illuminating look at the poetic debut in twentieth century American literary culture We have many poets of the First Book the poet and critic Louis Simpson remarked in 1957 describing a sense that the debut poetry collection not only launched the contemporary poetic career but also had come to define it Surveying American poetry over the past hundred years **The First Book** explores the emergence of the poetic debut as a unique literary production with its own tradition conventions and dynamic role in the literary market Through new readings of poets ranging from Wallace Stevens and Marianne Moore to John Ashbery and Louise Glück Jesse Zuba illuminates the importance of the first book in twentieth century American literary culture which involved complex struggles for legitimacy on the part of poets critics and publishers alike Zuba investigates poets' diverse responses to the question of how to launch a career in an increasingly professionalized literary scene that threatened the authenticity of the poetic calling He shows how modernist debuts evoke markedly idiosyncratic paths while postwar first books evoke trajectories that balance professional imperatives

with traditional literary ideals Debut titles ranging from Simpson's *The Arrivistes* to Ken Chen's *Juvenilia* stress the strikingly pervasive theme of beginning accommodating a new demand for career development even as it distances the poets from that demand Combining literary analysis with cultural history *The First Book* will interest scholars and students of twentieth century literature as well as readers and writers of poetry [Poetry's Afterlife](#) Kevin Stein, 2011-02-16 Poetry lives on in the digital age

Experimentalism as Reciprocal Communication in Contemporary American Poetry Elina Siltanen, 2016-10-06 The poems of John Ashbery Lyn Hejinian and Ron Silliman may seem to offer endless small details of expression observation thought and narrative which fail to hang together even from one line to the next But as Elina Siltanen shows here this extraordinary flow of uncoordinated detail can stimulate readers to join the poets in a delightful exploration of ordinary language When readers take a poem in this spirit they actually begin to read as members of a community the community not only of themselves and other readers but also including the poet and other poets plus all the speakers of the language in which the poem is written For all these different parties that language is indeed a shared resource and the way for readers to get started is simply by recalling or imagining some of the numerous kinds of context in which the given poem's words phrases sentences could or could not be successfully used The rewards for such proactive readers are on the one hand a heightened sense of the subtle interweavings of language and life and on the other hand a freshly empowered self confidence The point being that within the community of contemporary experimental poetry poets have no more authority than readers Rejecting older cultural hierarchies they present themselves as teasing out the idiomatic serendipities of their own poems together with their readers

The Poetry Circuit Peter B. Howarth, 2024-09-17 Live performance has changed poetry more than anything else in the last hundred years it has given poets new audiences and a new economy and it has generated new styles from Imagism to confessional to contemporary Spoken Word But the creative impact that public reading had right through the twentieth century has not been well understood Mixing close listening to archive performances with intimate histories of modernist venues and promoters *The Poetry Circuit* tells the story of how poets met their audience again and how the feedback loops between their voices the venues and the occasions turned poems into running dramas between poet and listener A nervous T S Eliot reveals himself to be anything but impersonal while Marianne Moore's accident prone readings become subtle ways of keeping her poems in constant re draft Robert Frost used his poems to spar with his fans and rivals while Langston Hughes wrote *Ask Your Mama* to expose the prejudice circulating in the room as he spoke it *The Poetry Circuit* also shows how the post war reading boom made new kinds of poetry involving their audience and setting in the performance such as John Ashbery's anti charismatic *Poets Theatre* Amiri Baraka's documentary soundtracks of the streets or the confessional readings of Allen Ginsberg which shame the listeners more than the poet Covering the first seventy years of the poetry reading *The Poetry Circuit* demonstrates that there never were page and stage poets the reading simply changed what every modern poet could do

Voegelinian Readings of Modern Literature Charles R.

Embry,2011-05-16 These essays supply a theoretical grounding for the reading of novels poems and plays and reveal how the Voegelinian perspective exposes the existential and philosophical dimensions of the literary works themselves As a unit this collection of essays shows how modern pieces of literature can symbolize their creators participation in the human search for the truth of existence just as myths philosophical works and religious texts always have Voegelin s primary concern as a philosopher was to expose the roots of the disturbances of the modern era religious conflict imperialism war so that the sources of order leading to meaning are revealed The openness of Voegelinian thought and the many ways he considered the levels of reality generate intriguing themes for literary criticism *Genders, Races, and Religious Cultures in Modern American Poetry, 1908-1934* Rachel Blau DuPlessis,2001-01-11 In *Genders Races and Religious Cultures in Modern American Poetries* Rachel Blau Duplessis shows how through poetic language modernist writers represented the debates and ideologies concerning New Woman New Negro and New Jew in the early twentieth century From the poetic text emerge such social issues of modernity as debates on suffrage sexuality manhood and African American and Jewish subjectivities By a reading method she calls social philology a form of close reading inflected with the approaches of cultural studies Duplessis engages with the work of such canonical poets as Wallace Stevens Ezra Pound T S Eliot William Carlos Williams Gertrude Stein Marianne Moore and H D as well as Mina Loy Countee Cullen Alfred Kreymborg and Langston Hughes writers she claims still marginalized by existing constructions of modernism This book is an ambitious attempt to remap our understanding of modern poetries and poetics and the relationship between early twentieth century writing and society
